**Ghost in the Machine** Landry Walker, Eric Jones, 2009 Jet Bradley, son of original TRON programmer Alan Bradley, has recently escaped the computer world. But his experiences within cyberspace have left him emotionally scarred -- vivid nightmares plague him, and he's become paranoid and unstable. He shuns technology wherever possible, leaving him effectively crippled in the modern world. And now something within the computer world wants him back Inspired by Disney's groundbreaking, science-fiction motion picture classic, *TRON: Ghost in the Machine* takes place in present day, over two decades after the events of the original film.

**Advances in Intelligent Computing** De-Shuang Huang, Xiao-Ping Zhang, Guang-Bin Huang, 2005-09-16 The International Conference on Intelligent Computing (ICIC) was set up as an annual forum dedicated to emerging and challenging topics in the various aspects of advances in computational intelligence fields, such as artificial intelligence, machine learning, bioinformatics, and computational biology, etc. The goal of this conference was to bring together researchers from academia and industry as well as practitioners to share ideas, problems and solutions related to the multifaceted aspects of

intelligent computing. This book constitutes the proceedings of the International Conference on Intelligent Computing (ICIC 2005), held in Hefei, Anhui, China, during August 23–26, 2005. ICIC 2005 received over 2000 submissions from authors in 39 countries and regions. Based on rigorous peer reviews, the Program Committee selected 563 high-quality papers for presentation at ICIC 2005; of these, 215 papers were published in this book organized into 9 categories, and the other 348 papers were published in five international journals. The organizers of ICIC 2005 made great efforts to ensure the success of this conference. We here thank the members of the ICIC 2005 Advisory Committee for their guidance and advice, the members of the Program Committee and the referees for reviewing the papers, and the members of the Publication Committee for checking and compiling the papers. *You Never Forget Your First* Josh Lewin, 2014-05-27 Having already penned *Getting in the Game*, his inside scoop on the mayhem within baseball's winter meetings, Josh Lewin once again gives baseball fans a window into the big leagues. By interviewing big league ballplayers about their first day in the majors, Lewin creates fascinating mini-biographies of the players, highlighting the personalities hidden behind the on-field accomplishments. He lets the players recount their own memories of how they made it to the big leagues. In *You Never Forget Your First*, Lewin shares

the stories of players great and less so. Tony Gwynn recalls singling in his first at bat and finding Pete Rose waiting for him at first base with a wink and a warning: Don't break my record all at once, kid. Bob Brenly heard of his call-up on the car radio while on a family trip to the Grand Canyon. He then stood helplessly in the middle of the Arizona desert after his transmission gave out, trying to convince passersby he was a ballplayer heading to the big leagues and needed a lift to the airport. Duane Kuiper witnessed a fight both on the field and in his own clubhouse his first day in Cleveland. Greg Maddux recalls being stuck at the Chicago River drawbridge, convinced he'd never make it to Wrigley Field in time for his debut. Lewin interviews modern star players such as A-Rod, Barry Bonds, and Manny Ramirez, as well as Hall of Famers such as Jim Palmer, Don Sutton, and George Brett. More than 100 popular baseball players are profiled, complete with the box scores of their big league debuts.
