Tulips Laimonas Briedis, 2016-02-15 A book of photographs about contemporary Belarus by Andrew Miksys. Andrew Miksys began traveling regularly to Belarus in 2009 to photograph Victory Day, a holiday celebrating the Soviet victory over fascism and Nazi Germany. During the celebrations, tractors, military equipment, and factory workers parade through the streets. A vintage USSR flag flies on a radio tower over Minsk. At a military-themed park named Stalin Line, there is a new statue of Stalin, and World War II battles are reenacted by men dressed in Soviet and Nazi uniforms. Red tulips, a symbol of spring and rejuvenation in the USSR, fill the streets and are given to war veterans as a way of thanking them for their service. It can be disorienting. You might even feel like you are traveling back in time. The photographer soon discovered that other Soviet-style holidays, like October Revolution Day and Day of the Fatherland's

Defenders, are also observed in Belarus. He returned year after year to photograph them. The holidays, though, were more of a backdrop to his project, a way of following the path of national culture while looking for something more personal. He often wandered off the official trail in an effort to seek more intimacy and understanding of a world that should be part of the past but is stubbornly resilient in the present.

The Tulip Anna Pavord, 2019-11-14 A revised and updated edition of the internationally bestselling classic Anna Pavord's now classic, internationally bestselling sensation, *The Tulip*, is not a gardening book. It is the story of a flower that has driven men mad. Greed, desire, anguish and devotion have all played their part in the development of the tulip from a wild flower of the Asian steppes to the worldwide phenomenon it is today. No other flower carries so much baggage; it charts political upheavals, illuminates social behaviour, mirrors economic booms and busts, plots the ebb and flow of religious persecution. Why did the tulip dominate so many lives through so many centuries in so many countries? Anna Pavord, a self-confessed tulipomaniac, spent six years looking for answers, roaming through eastern Turkey and Central Asia to tell how a humble wild flower made its way along the Silk Road and eventually took the whole of Western Europe by storm. Sumptuously illustrated from a wide range of sources, this irresistible volume has become a bible, a unique source book, a universal gift and a joy to all who possess it. This beautifully redesigned edition features a new Preface by the author, a revised listing of the best varieties of this incomparable flower to choose for your garden and a reorganised listing of tulip species to reflect the latest thinking by taxonomists.

Snow on the Tulips Liz Tolsma, 2013-08-13 A stranger's life hangs in the balance. But to save him is to risk everything. The

war is drawing to a close, but the Nazis still occupy part of the Netherlands. After the losses she's endured, war widow Cornelia is only a shadow of the woman she once was. She fights now to protect her younger brother, Johan, who lives in hiding. When Johan brings Gerrit Laninga, a wounded Dutch Resistance member, to Cornelia's doorstep, their lives are forever altered. Although scared of the consequences of harboring a wanted man, Cornelia's faith won't let her turn him out. As she nurses Gerrit back to health, she is drawn to his fierce passion and ideals, and notices a shift within herself. Gerrit's intensity challenges her, making her want to live fully, despite the fear that constrains her. When the opportunity to join him in the Resistance presents itself, Cornelia must summon every ounce of courage imaginable. She is as terrified of loving Gerrit as she is of losing him. But as the winter landscape thaws, so too does her heart. Will she get a second chance at true love? She fears their story will end before it even begins.

The Tulip Virus Danielle Hermans,2010-04-27 A gripping debut mystery set in contemporary London with roots in 17th century Holland and the mysterious tulip trade In 1636 Alkmaar, Holland, Wouter Winckel's brutally slaughtered body is found in the barroom of his inn, an antireligious pamphlet stuffed in his mouth. Winckel was a respected tulip-trader and owned the most beautiful collection of tulips in the United Republic of the Low Countries, including the most coveted and expensive bulb of them all, the Semper Augustus. But why did he have to die and who wanted him dead? In 2007 London, history seems to be repeating itself. Dutchman Frank Schoeller is found in his home by his nephew, Alec. Severely wounded, he is holding a 17th-century book about tulips, seemingly a reference to the reason for his death moments later. With the help of his friend Damien Vanlint, an antique dealer from Amsterdam, Alec tries to solve the mystery, but soon comes to realize that he and his friend's own lives are now in danger. The Tulip Virus is a fast-paced, fascinating mystery based on the real-life events surrounding the collapse of the tulip bubble in 17th century Holland—the first such occurrence in history—a story that plunges readers deeply into questions of free will, science, and religion, while showing the dark fruits of greed, pride, and arrogance.
