*Tuxedo Fashions* Raphael McCarn, 2021-08-04 A tux is a fancy black suit that you might wear, along with a bow tie, to your senior prom or your wedding. The word tux is a common North American shorthand for a tuxedo. If you're invited to an elegant party that's black tie only, that means you're expected to wear a long, dressy gown or a tux. You have seen the Tuxedos being worn by many including your favorite movie stars like Jackie Chan as he acted in *The Tuxedo*, Fred Aster in the early films, or other fictitious movie characters like James Bond. You may have even worn one before, during, your prom event, or as a groomsman or had even worn it during your wedding day. But have we know where this very American formal wear originated? Or why it is called the Tuxedo?

**Tuxedo Park** Jennet Conant,2013-10-15 A New York Times bestseller! The untold story of the eccentric Wall Street tycoon and the circle of scientific geniuses who helped build the atomic bomb and defeat the Nazis—changing the course of history. Legendary financier, philanthropist, and society figure Alfred Lee Loomis gathered the most visionary scientific minds of the twentieth century—Albert Einstein, Werner Heisenberg, Niels Bohr, Enrico Fermi, and others—at his state-of-the-art laboratory in Tuxedo Park, New York, in the late 1930s. He established a top-secret defense laboratory at MIT and personally bankrolled pioneering research into new, high-powered radar detection systems that helped defeat the German Air Force and U-boats. With Ernest Lawrence, the Nobel Prize-winning physicist, he pushed Franklin Delano Roosevelt to fund research in nuclear fission, which led to the development of the atomic bomb. Jennet Conant, the granddaughter of James Bryant Conant, one of the leading scientific advisers of World War II, enjoyed unprecedented access to Loomis' papers, as well as to people intimately involved in his life and work. She pierces through Loomis' obsessive secrecy and illuminates his role in assuring the Allied victory.

**Ensley and Tuxedo Junction** David B. Fleming,Mary Allison Haynie,2011-01-17 With dreams of building a vast steel

production operation, Memphis planter Enoch Ensley founded a city in the wooded valley at the heart of Jefferson County, Alabama. He named the city Ensley, after himself, and established the Ensley Land Company to acquire and develop 4,000 acres for industrial facilities and a town. As field workers left their farms to work in steel mills and businesses sprang up on the valley floor, Ensley became a diverse place of hopes and desires. A strong community of churches, businesses, civic clubs, and neighborhoods developed around the factories and railroads. Jazz music was the social thread of Ensley's African American community, known as Tuxedo Junction. Musicians such as Erskine Hawkins famously mastered the style. The annexation of Ensley into Birmingham established the "Magic City" as the largest and wealthiest in Alabama and the heart of the Southern steel manufacturing economy.

*Tuxedo Park Past: Law And Disorder* Stuart J. McGregor, 2019-10-11 Pierre Lorillard was a member of the well-known wealthy family who made a fortune in the tobacco business in the 18th century. Tuxedo Park was a planned recreational community created by Pierre Lorillard III approximately 38 miles

north of New York City in 1886. This very private community was populated by the wealthy and social set of the Gilded Age. The jacket named the Tuxedo originated at The Tuxedo Club. What started as a private hunting and recreational preserve with a clubhouse and wood cottages morphed into a gated, fenced with barbed wire, exclusive colony of grand estates for the rich and social elite. It was another place to play between their mansions in New York, summers in Newport and winter months in Palm Beach. Security and privacy together with money and social status were the cornerstones of this gated and fenced community. Originally, a retreat for the spring and fall months with a New Year's tradition, Tuxedo Park soon became a year-round residence for bankers, financial leaders, and captains of the industry during the Gilded Age and their families from the 1880's through the depression. This presentation touches on just one of those families and life in the early decades of the 20th century. While the country watched and read about this small community and their aristocratic lifestyle, they also learned the residents behind the iron gates were suffering the same insecurities of many others in the country due to the industrialization and population growth that spread from the great cities of the new growing America.

*Tuxedo Park* Laura Furman, 1986 After a curious courtship, an innocent orphan marries Willard, a man with money, taste, and experience. When he abandons her and their two daughters, Sadie raises her girls and waits for him to return.

My Tuxedo No Longer Fits Robert Ballard, 2008-09-09 My Tuxedo No Longer Fits is a book written by one who grew up in the 1950's and 1960's in a small textile village of rural Western North Carolina. I have recorded a bit of historic information concerning the mill, the mill village, the people in and around the village and the business enterprises located within the confines of this small community. The stories and tales are at times hilarious and sometimes render a sad theme. In this volume I share quite

candidly some family issues that have caused embarrassment and heartache as well as some of the good times in my growing up process. The people of Tuxedo and the ones that I had the privilege to grow up with and have interaction with are some of the best on the planet. Written in simple a vernacular this is a fun book to read.
