Titan #1: Taking Wing Michael A. Martin, Andy Mangels, 2005-04-01 William Riker, former first officer of the USS Enterprise in Star Trek: The Next Generation, takes command of the new USS Titan in this white-knuckled adventure perfect for longtime and new Star Trek fans. After almost a decade of strife against foes such as the Borg, the Cardassians, the Klingons, and the Dominion, the United Federation of Planets is at the dawn of a new era. Starfleet is renewing its mission of peaceful exploration, diplomacy, and the expansion of knowledge. Among the starships spearheading that endeavor is the USS Titan, commanded by Captain William T. Riker and manned by the most biologically varied and culturally diverse crew in Starfleet history. But their mission does not begin according to plan. In the wake of Star Trek: Nemesis, Praetor Shinzon, slayer of the Romulan Senate, is dead. The power vacuum created by his demise has put the Romulan Star Empire, longtime adversary of the Federation, at the brink of civil war. Competing factions now vie for control of their fragmenting civilization, and if the empire should fall, that entire area of the galaxy may destabilize. To restore order to the region, Titan's long-anticipated mission of exploration is delayed as Starfleet assigns Riker to set up power-sharing talks among the Romulan factions. But even as the first tentative steps are taken toward building a new Romulus, the remnants of the Tal Shiar, the dreaded Romulan intelligence service, are regrouping behind the scenes for a power play of their own. With no other help available, Riker and the Titan crew become the last hope to prevent the quadrant from falling into chaos.

Perry, 2012-10-02 Star Trek's grittiest and most challenging series may have reached its climactic conclusion on the television screen, but all-new adventures on the frontiers of Federation space continue between the covers of Pocket Books. In the aftermath of the Dominion War that brought the Star Trek universe to the brink of ruin, space station Deep Space Nine - the galaxy's nexus of military and scientific intrigue, situated as it is on the wormhole that links two quadrants - once again becomes a flashpoint of impending Armageddon when a surprise attack cripples the station, killing the First Officer and threatening the fragile peace. Colonel Kira and the surviving crew of DS9 - along with four controversial new officers - are all that stand against the outbreak of a new conflict and a doom foretold by the Prophets to coincide with the birth of Captain Benjamin Sisko's child. Meanwhile, Captain Jean-Luc Picard and the crew of the USS Enterprise make a startling discovery, one that will determine the course of an entire civilisation and profoundly affect the lives of the crew of Deep Space Nine...

Dark Mirror Diane Duane, 2012-12-11 One hundred years ago, four crewmembers of the U.S.S. Enterprise™ crossed the dimensional barrier and found a mirror image of their own universe, populated by nightmare duplicates of their shipmates. Barely able to escape with their lives, they returned, thankful that the accident which had brought them there could not be duplicated, or so they thought. But now the scientists of that empire have found a doorway into our universe. Their plan is to destroy from within, to replace a Federation Starships with one of their own. Their victims are the crew of the U.S.S. Enterprise NCC-1701-D, who now find themselves engaged in combat against the most savage enemies they have ever encountered, themselves.

Engines of Destiny Gene DeWeese, 2005 Montgomery Scott, who has been propelled to the 24th century, plans to go back to his own time to save the life of James T. Kirk.
