Contents of Contracts and Unfair Terms Mindy Chen-Wishart, Stefan Vogenauer, 2020-11-30 Studies in the Contract Laws of Asia provides an authoritative account of the contract law regimes of selected Asian jurisdictions, including the major centres of commerce where limited critical commentaries have been published in the English language. Each volume in the series aims to offer an insider's perspective into specific areas of contract law - remedies, formation, parties, contents, vitiating factors, change of circumstances, illegality, and public policy - and explores how these diverse jurisdictions address common problems encountered in contractual disputes. A concluding chapter draws out the convergences and divergences, and other themes. All the Asian jurisdictions examined have inherited or adopted the common law or civil law models of European legal systems. Scholars of legal transplant will find a mine of information on how received law has developed after the initial adaptation and transplant process, including the mechanisms of and influences affecting these developments. At the same time, many points of convergence emerge. These provide good starting points for regional harmonization projects. Volume III of this series deals with the contents of contracts and unfair terms in the laws of China, Hong Kong, India, Indonesia, Japan, Korea, Malaysia, Myanmar, the Philippines, Singapore, Taiwan, Thailand, and Vietnam. Typically, each jurisdiction is covered in two chapters: the first deals with the contents of

contracts and how contractual terms are identified and interpreted; the second deals with unfair terms, the situations where the law will interfere in matters of 'unfairness' relating to contract terms, and legal responses to unfair terms.

Translation, Reception and Canonization of The
 Art of War Tian Luo,2022-04-27 The Art of War by
 Sun Tzu is an ancient yet invaluable Chinese
 military classic that is still relevant today.
 This book presents a systematic and in-depth
 investigation into the translation and reception
 of The Art of War in the western strategic
 culture. Aided by three self-built corpora, this
 study adopts a mixed method including both
 qualitative and quantitative analysis, and asking

takes both the core text and its paratexts of The Art of War into consideration. This study highlights the significance of proper approaches to translating culture in the core text and effective measures of culture reconstruction in paratexts. It is revealed that the translated Sun Tzu has undergone three major stages before it is gradually welcomed and re-canonized in western discourse. The findings bring into light the multiple factors that contribute to the incorporation of Sun Tzu's strategic wisdom into western culture. For scholars interested in translation studies, (critical) discourse analysis as well as strategic studies, this book provides fresh insights and new perspectives.
