

U 2

Monte Reel

50 Years of the U-2 Chris Pocock, 2005 When the U-2 first took off in 1955, no one involved in its top-secret project dreamt that this unique reconnaissance aircraft would still be flying today. The long story of the Dragon Lady is amazing, and complex; this book tells it all, in unprecedented detail, from the early days overflying the Soviet Union under CIA sponsorship, to the Cuban Missile Crisis, and on to the Vietnam War. The epic missions over Communist China were flown by nationalist pilots from Taiwan. How the U-2 was improved, enlarged and put back into production - twice. It led the real-time recce revolution with data links and high-tech sensors. Then it played a key role in Desert Storm, over Bosnia and Kosovo, and most recently over Afghanistan and Iraq. According to the CIA's own historian, Chris Pocock is the foremost authority on the U-2. To write this book, he flew in the aircraft, conducted 250 interviews, and analysed more than 1,000 declassified documents.

Dragon Lady Today Chris Pocock, 2014-08-27 The remarkable Lockheed Martin U-2 high-flying spyplane celebrates its 60th birthday in 2015. But today's U-2 is a fully modernized reconnaissance aircraft, capable of serving the U.S. and its allies for many years to come. Chris Pocock has followed the Dragon Lady for 30 years. He has flown in the jet, and talked to hundreds of U-2 pilots, maintainers, managers and commanders. His previous book, *50 Years of the U-2*, is the standard reference on the aircraft's history. Now he updates the story, in a richly-illustrated book with 190 charts and photos, most of them previously unpublished.

Spyplane Norman Polmar, 2001 Book discusses the requirement for and the design, development, and operation of the U-2, from 1954 when the design began, to the current

overflights of the Balkans and Iraq. Includes extensive discussions of U-2 overflights of hostile countries (USSR, China, North Korea, North Vietnam) and NASA's use of the U-2.

U-2 Spyplane in Action Larry Davis, 1988-01-01 Shows and describes the characteristics of the U.S. spyplane, looks at its special features, and discusses the plane's mission

Hunt for the U-2 Krzysztof Dabrowski, 2020-03-19 'The Hunt for the U-2' is a succinct operational history of the confrontations between that reconnaissance aircraft and those trying to catch it and the impact these operations had in not so distant history. Richly illustrated with photographs and full colour aircraft profiles.

A Brotherhood of Spies Monte Reel, 2019-05-21 A thrilling dramatic narrative of the top-secret Cold War-era spy plane operation that transformed the CIA and brought the U.S. and the Soviet Union to the brink of disaster On May 1, 1960, an American U-2 spy plane was shot down over the Soviet Union just weeks before a peace summit between the two nations. The CIA concocted a cover story for President Eisenhower to deliver, assuring him that no one could have survived a fall from that altitude. And even if pilot Francis Gary Powers had survived, he had been supplied with a poison pin with which to commit suicide. But against all odds, Powers emerged from the wreckage and was seized by the KGB. He confessed to espionage charges, revealing to the world that Eisenhower had just lied to the American people--and to the Soviet Premier. Infuriated, Nikita Khrushchev slammed the door on a rare opening in Cold War relations. In A Brotherhood of Spies, award-winning journalist Monte Reel reveals how the U-2 spy program, principally devised by four men working in secret, upended the Cold War and carved a new mission for the CIA. This secret

fraternity, made up of Edwin Land, best known as the inventor of instant photography and the head of Polaroid Corporation; Kelly Johnson, a hard-charging taskmaster from Lockheed; Richard Bissell, the secretive and ambitious spymaster; and ace Air Force flyer Powers, set out to replace yesterday's fallible human spies with tomorrow's undetectable eye in the sky. Their clandestine successes and all-too-public failures make this brilliantly reported account a true-life thriller with the highest stakes and tragic repercussions.

Unlimited Horizons Peter W. Merlin, 2015 Designed as a stopgap measure to provide overhead reconnaissance capability during the early years of the Cold War, the versatile U-2 has since evolved to meet changing requirements well into the 21st century. Though many authors have documented the airplane's operational history, few have made more than a cursory examination of its technical aspects or its role as a NASA research platform. This volume includes an overview of the origin and development of the Lockheed U-2 family of aircraft with early National Advisory Committee for Aeronautics (NACA) and National Aeronautics and Space Administration (NASA) involvement, construction and materials challenges faced by designers and builders, releasable performance characteristics and capabilities, use of U-2 and ER-2 airplanes as research platforms, and technical and programmatic lessons learned.

The CIA and the U-2 Program 1954-1974 Gregory W. Pedlow, Donald E. Welzenbach, 1998 A comprehensive & authoritative history of the CIA's manned overhead reconnaissance program (MORP), which from 1954 to 1974 developed & operated 2 extraordinary aircraft, the U-2 & the A-12 OXCART. Describes not only the program's technological & bureaucratic aspects, but also its political & international context. The

MORP, along with other overhead systems that emerged from it, changed the CIA's work & structure in ways that were both revolutionary & permanent. The formation of the Directorate of S&T in the 1960s, principally to develop & direct reconnaissance programs, is the most obvious legacy of the events in this study.

The U-2 Affair David Wise,Thomas B. Ross,1962 Traces the background and international ramifications of the 1960 U-2 fiasco.

Mayday Michael Beschloss,2016-08-16 The "definitive" book on the U-2 episode and its

disastrous impact on the future of the Cold War (Kirkus Reviews). On May Day 1960, Soviet forces downed a CIA spy plane flown deep into Soviet territory by Francis Gary Powers two weeks before a crucial summit. This forced President Dwight Eisenhower to decide whether, in an effort to save the meeting, to admit to Soviet Premier Nikita Khrushchev—and the world—that he had secretly ordered Powers’s flight, or to claim that the CIA could take such a significant step without his approval. In rich and fascinating detail, *Mayday* explores the years of U-2 flights, which Eisenhower deemed “an act of war,” the US government’s misconceived attempt to cover up the true purpose of the flight, Khrushchev’s dramatic revelation that Powers was alive and in Soviet custody, and the show trial that sentenced the pilot to prison and hard labor. From a U-2’s cramped cockpit to tense meetings in the Oval Office, the Kremlin, Camp David, CIA headquarters, the Élysée Palace, and Number Ten Downing Street, historian Michael Beschloss draws on previously unavailable CIA documents, diaries, and letters, as well as the recollections of Eisenhower’s aides, to reveal the full high-stakes drama and bring to life its key figures, which also include Richard Nixon, Allen Dulles, and Charles de Gaulle. An impressive work of scholarship with the dramatic pacing a spy thriller, *Mayday* “may be one of the best stories yet written about just how those grand men of diplomacy and intrigue conducted our business” (Time).

The Central Intelligence Agency and Overhead Reconnaissance Gregory Pedlow, Donald Welzenbach, 2016-03-15 The CIA’s 2013 release of its book *The Central Intelligence Agency and Overhead Reconnaissance 1954–1974* is a fascinating and important historical document. It contains a significant amount of newly declassified material with respect to the U-2 and Oxcart programs, including names of pilots;

codenames and cryptonyms; locations, funding, and cover arrangements; electronic countermeasures equipment; cooperation with foreign governments; and overflights of the Soviet Union, Cuba, China, and other countries. Originally published with a Secret/No Foreign Dissemination classification, this detailed study describes not only the program's technological and bureaucratic aspects, but also its political and international context, including the difficult choices faced by President Eisenhower in authorizing overflights of the Soviet Union and the controversy surrounding the shoot down there of U-2 pilot Francis Gary Powers in 1960. The authors discuss the origins of the U-2, its top-secret testing, its specially designed high-altitude cameras and complex life-support systems, and even the possible use of poison capsules by its pilots, if captured. They call attention to the crucial importance of the U-2 in the gathering of strategic and tactical intelligence, as well as the controversies that the program unleashed. Finally, they discuss the CIA's development of a successor to the U-2, the Oxcart, which became the world's most technologically advanced aircraft. For the first time, the more complete 2013 release of this historical text is available in a professionally typeset format, supplemented with higher quality photographs that will bring alive these incredible aircraft and the story of their development and use by the CIA. This edition also includes a new preface by author Gregory W. Pedlow and a foreword by Chris Pocock. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a

national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

U2 by U2 U2, Neil McCormick, 2007-10-09 In 1975, four teenagers from Mount Temple School in Dublin gathered in a crowded kitchen to discuss forming a band. More than thirty years later, Bono, The Edge, Adam Clayton, and Larry Mullen Jr. are still together, bound by intense loyalty, passionate idealism, and a relentless belief in the power of rock and roll to change the world. In an epic journey that has taken the band from the clubs of Dublin to the stadiums of the world, U2 has sold more than 130 million albums, revolutionized live performance, spearheaded political campaigns, and made music that defines the age in which we live. Told with wit, insight, and astonishing candor by the band members themselves and manager Paul McGuinness—with pictures from their own archives—U2 by U2 allows unprecedented access into the inner life of the greatest rock band of our times.

Spy Pilot Francis Gary Powers (Jr.), Francis Gary Powers, Keith Dunnavant, Sergei Krushchev, 2019 One of the most talked-about events of the Cold War was the downing of the American U-2 spy plane piloted by Francis Gary Powers over the Soviet Union on May 1, 1960. The event was recently depicted in the Steven Spielberg movie *Bridge of Spies*. Powers was captured by the KGB, subjected to a televised show trial, and imprisoned, all of which created an international incident. Soviet authorities eventually released him in exchange for captured Soviet spy Rudolf Abel. On his return to the United States, Powers

was exonerated of any wrongdoing while imprisoned in Russia, yet a cloud of controversy lingered until his untimely death in 1977. Now his son, Francis Gary Powers Jr., has written this new account of his father's life based on personal files that have never been previously available. Delving into old audio tapes, the transcript of his father's debriefing by the CIA, other recently declassified documents about the U-2 program, and interviews with his contemporaries, Powers sets the record straight. The result is a fascinating piece of Cold War history. Almost sixty years after the event, this will be the definitive account of a famous Cold War incident, one proving that Francis Gary Powers acted honorably through a trying ordeal in service to his country.

Operation Overflight Francis Gary Powers, Curt Gentry, 2011-03 In this new edition of his classic 1970 memoir about the notorious U-2 incident, pilot Francis Gary Powers reveals the full story of what actually happened in the most sensational espionage case in Cold War history. After surviving the shoot-down of his reconnaissance plane and his capture on May 1, 1960, Powers endured sixty-one days of rigorous interrogation by the KGB, a public trial, a conviction for espionage, and the start of a ten-year sentence. After nearly two years, the U.S. government obtained his release from prison in a dramatic exchange for convicted Soviet spy Rudolph Abel. The narrative is a tremendously exciting suspense story about a man who was labeled a traitor by many of his countrymen but who emerged a Cold War hero.
