Ace of the Iron Cross Ernst Udet,1970 The story of Ernest Udet, a German pilot who was ranked second in the German Air Service only to the Red Baron. He outlines his adventures during World War I, and the following years, during which he became a popular figure in world aviation.

*Ace of the Black Cross Ernst Udet*,2020-05-30 Above the mud and misery of the trenches and the endless slugging matches of the First World War another contest was played out with all the military glamor, chivalric values and deadly outcome of a medieval, knightly tournament. This was the battle in the air between the first primitive aircraft and the intrepid aviators who flew them. This image of air war is brought nobly to light in the memoirs of Ernst Udet, the German ace of aces, whose impressive wartime record was second only to the legendary Red Baron. Written in a jaunty, Boys Own style, Udet paints a romantic picture of his experiences and captures what perhaps many young pilots must have felt as they flew off each day to duel with the enemy, the elements and an unreliable technology. *Ace of the Black Cross* also illustrates the way in which war and defeat left this young generation of tough, spirited, individuals rootless and restless. After the war Udet used his flying skills to give displays to crowds of gawking onlookers, a circus act that left him frustrated and resentful. In 1941, disillusioned and depressed, he shot himself. On the wall before he died he scrawled a message for Goring: Iron man, you have betrayed me.

**Aces of Jagdgeschwader 3 'Udet'** John Weal,2013-11-20 Jagdgeschwader 3 may not have the same immediate resonance as some of the more famous Luftwaffe fighter units, such as Jagdgeschwader 2 'Richthofen', but it is arguably the archetypal German fighter formation of World War 2. Not only did it participate in every campaign fought by the Luftwaffe (with the exceptions of Poland and Norway), it flew every major variant of

the two legendary German wartime fighters, the Messerschmitt Bf 109 and the Focke-Wulf Fw 190 – starting with the Bf 109E in 1939 and ending with the Fw 190D-9 'Long-nose' in 1945. And, during the course of the hostilities, it numbered among its ranks more than 70 Knight's Cross winners (a total exceeded by only one other Jagdgeschwader). The wealth and variety of detail afforded by such a background – which includes the historic battles of Britain, Stalingrad, Kursk, Normandy, the Ardennes and Berlin – provides an ideal framework upon which to portray the multitude of stories, exploits and ultimate fates of the many aces themselves, from the now unknown trio who achieved their first five kills during the Blitzkrieg in France in the late spring/early summer of 1940 to the nearly two-dozen highly acclaimed and lauded 'centurions' who flew with JG 3.

**Udet Metamorphosis** Eric Fisher,2021-10-09 If you could travel through time what would you do? When nurse Linda Oster receives a time travel machine from a dying patient she invites another patient, champion race car driver Eddie Udal to travel through time. At first, they just travel back in time to see what there is to see, but then they meet their already traveling selves and are invited to take a bigger jump and do bigger things. Follow Linda and Eddie as they go back to WW1 and take the pace of Ernst Udet, famous flying ace of the German Imperial Air Service and Doctor Lorinda Klebs-Udet, Surgeon working for the Imperial German Medical Service and the International Committee of the Red Cross. Take a wild ride. Written to keep the pages turning. Then ask yourself: Would you try what they do?

*Jagdgeschwader 3 "Udet" in World War II* Jochen Prien, Gerhard Stemmer,2002 A description of the operational history of the new I-JG3 Udet which was formed at the beginning of 1942 and saw its first action during the German summer Russian offensive of 1942, then served a tough and costly tour of duty in the Defense of the Reich and over the Western Front before seeing several weeks of desperate defensive action in the east of the Reich.

*Jagdgeschwader 3 Udet in World War II* Jochen Prien, Gerhard Stemmer, 2003-07-21 Jochen Prien, author of the definitive Messerschmitt Bf 109 F/G/K Series, and the extensive three volume study of JG 53, presents JG 3 in its complete history from formation to the end of World War II. This second volume presents the unit history of the Udet Geschwader's second Gruppe, II./JG 3, beginning with its formation in 1938 and the subsequent service of the newly formed Gruppe in the Campaign in the West from 1940-1941. Next the Gruppe's 1941 tour of duty in Russia is dealt with, followed by a short spell in the Mediterranean theatre of war, where II./JG 3 was involved in the fighting over Malta in the spring of 1942. In June 1942, the Gruppe was again shifted to the east where it took part in the advance on Stalingrad where it suffered serious losses. 1943 saw the Gruppe still in Russia until it was recalled to the Reich to see further service in the defence of Germany between August 1943 and early June 1944. After its return to the Reich and a short period of rest and re-equipping, II./JG 3 was again called upon for service in the Reichsverteidigung, this coming to an abrupt end when in November 1944 the Gruppe was separated from its parent Geschwader in order to re-equip with the new Me 262 jet fighter and become part of the first jet fighter Geschwader of the Luftwaffe, JG 7. Vol. II then takes up the history of the newly formed II./JG 3, a former bomber unit that was transformed into a fighter Gruppe at the end of 1944; this new Gruppe came too late to see significant service against the Western Allies but was transferred to the east at the beginning of 1945 in order to counter the massive Soviet offensive that overran the eastern parts of the Reich since mid-January 1945. Hopelessly outnumbered, its operations being curtailed now by a lack of fuel, the new II./JG 3 struggled on until the collapse of the Reich.

*Eagles of the Third Reich* Samuel W. Mitcham, 2007 Originally published under the title *Men of the Luftwaffe*, this insightful, well-researched book traces the rise and fall of Hitler's air force from the perspective of its top leaders, concentrating on problems of organization, policy and aircraft production rather than battles and campaigns (Publishers Weekly).

*Command and Leadership in the German Air Force* Prof. Richard Suchenwirth, 2017-07-11 *Command and Leadership in the German Air Force*, first published in 1969, written by Professor Richard Suchenwirth, and revised and edited by Mr. Harry R. Fletcher, is one of a series of historical studies written for the United States Air Force Historical Division by men who had been key officers in, or outstanding authorities on, the German Air Force during World War II. The overall purpose of the series is twofold: 1) To provide the United States Air Force with a comprehensive and, insofar as possible, authoritative history of a major air force which suffered defeat in World War II, a history prepared by many of the principal and responsible leaders of that air force; 2) to provide a firsthand account of that air force's unique combat in a major war, especially its fight against the forces of the Soviet Union. This series of studies therefore covers in large part virtually all phases of the Luftwaffe's operations and organization, from its camouflaged origin in the Reichswehr, during the period of secret rearmament following World War I, through its participation in the Spanish Civil War and its massive operations and final defeat in World War II, with particular attention to the air war on the Eastern Front. These studies find their principal authority in the personal knowledge and experience of their authors.

**Oral History of Germans Taken To The USSR With Their Obsolete DFS 346-Part 4** David Myhra PhD, 2013-09-28 This is

an oral history of several dozens of German aviation designers and engineers that were taken to the Soviet Union in October 1946 along with their DFS 346. The information contained here-in has never been made public until now. Dr Myhra traveled to all the places mentioned and with the assistance of language interpreters Margarita Reck of Salem-Neufrach, West Germany and Gerhard Hopf of Naples, FL, was able to communicate with the German-speaking engineers and designers. These are the unedited transcriptions of the actual conversations. Very interesting material! Enjoy all 5 parts of this rare and informative conversation collection!

Fighter Aces of the Great War Stephen Wynn, Tanya Wynn, 2020-04-30 A look at the transformation of aerial combat during World War I and the pilots of every country who were celebrated for shooting down enemy aircraft. By the time of the outbreak of the First World War, aviation was only eleven years old. The daddy of battlefield warfare until that point in time had been the cavalry, a position it maintained even as war was declared on the Western Front. Aircraft were not initially seen as an offensive weapon and were instead used by both sides as observation platforms or to take aerial photographs. Even when they were eventually used in an offensive capacity, they did not have machine guns attached to them; if the crew wanted to open fire then they had to use a pistol or rifle. As the war progressed so the use of aircraft changed from being an observational tool, to that of a fighter and bomber aircraft—something that had never been foreseen at the outbreak of the war. This book looks at the fighter aces from all sides. These were pilots who had been credited with shooting or forcing down a minimum of five enemy aircraft, of which there were hundreds. While some of these aces survived, many of them were killed. The most famous fighter ace of all is without doubt the German pilot known as the Red Baron, Manfred von Richthofen. “It’s the legendary stuff I was brought up on, reading about first world war dogfights . . . Stephen Wynn

and Tanya Wynn weave a good tale between them—absolutely enthralling.” —Books Monthly

**Wolfram Von Richthofen** James S. Corum,2008 For this first full-length biography of Wolfram von Richthofen, James Corum has mined the field marshal's extensive diaries, which provide a detailed record of military campaigns, tactical and operational problems, interactions with other commanders, and his assessment of methods and weaponry. He has also drawn on interviews with Former Luftwaffe members and on his unparalleled access to von Richthofen family papers and photos. Cutting through the myths that have grown around von Richthofen's life, Corum's study fills a major gap in the literature and offers new insight into German military culture, Hitler's strategic thinking, and their impact on the German way of war.--BOOK JACKET.
