The Handbook of Constitutional and Energetic Herbal Medicine Andrew Stableford,2021-01-28 A unique and essential textbook bridging the gap between herbal medicine therapeutics and orthodox medicine. Based upon a constitutional approach to treatment, The Handbook of Constitutional and Energetic Herbal Medicine is a synthesis of the traditional herbal approach integrated with biomedical constructs. While this holistic approach to treatment may seem incompatible with the biomedical approach, this is largely due to the lack of understanding of the medical interpretation of holism. In fact, the spirit, mind, body axis can be understood in terms of psycho-physiological processes and principles. It is a matter of interpretation and adaptation of principle. This book will appeal to those involved in both complementary and mainstream medicine seeking a holistic approach which is rational and interpretable in biomedical terms.

His Master's Voice Mohamed Saliou Camara,2005 His Master's Voice refutes the simplistic pattern of condescending criticism versus a complacent justification which often transpires from the debate on post-colonial Africa's general departure from political pluralism toward autocracy under single-party regimes. Hence, it places the debate in the historical context of statecraft and nation-building, whereby the line between pre-colonial heritage, colonial legacy and post-colonial innovations - against all appearances - has chiefly been a thin one.
