Creating a United Europe of Football Philippe Vonnard, 2020-04-21 This book provides a historical study of the beginnings of the UEFA, demonstrating how the formation of the organisation was linked to the decentralisation experienced by FIFA, the world governing body of football. Vonnard examines why administrators created an association that transcended the barriers of the Cold War, and focused on the development of a network that promoted football outside the constraints of international politics. Finally, he emphasises the role UEFA played in the Europeanisation of the people's game, and in the early years of the European integration process. The research is based on a rich body of new archival material from the UEFA and FIFA Documentation Centres, and various European football federations, as well as reports from a number of leading newspapers of the era, and interviews with football personalities of the 1950s. It will be of interest to students and scholars across the history of sport, international relations, and European studies

The UEFA European Football Championships Jan Andre Lee Ludvigsen, Renan Petersen-Wagner, 2022-12-12 This book explores social and political issues and trends emerging around the UEFA European Football Championships. It presents a contemporary sociology of the European Championships which, despite its significance as a mega-event, has been largely overshadowed by the Olympics and the FIFA World Cup in existing literature. At a time when both sport mega-events and Europe are undergoing dramatic transformations, this book explores a range of case studies and important topics such as changing consumption patterns, new types of sport media, social media, environmental

policies and emergency politics, public opposition and co-hosting. It also situates the European Championships within wider European projects and discourses of European identities, integration and enlargement. Drawing on data from recent and historical European Championships, and looking ahead to the next tournament in Germany in 2024, this book serves to open up new debates within the sociology of sport and the study of mega-events. It is a timely and ground-breaking text which will resonate with students, academics and readers who are interested in football, the sociology of sport, megaevents, digital sociology, European politics and culture or sports business.

Tournament Design László Csató, 2021-01-04 This Palgrave Pivot presents tournament design mainly within the axioms of incentive compatibility and fairness. It illustrates the advantages of an axiomatic approach through various examples, including several FIFA and UEFA tournaments, and uses theoretical tools and simulation methodology in its analysis. Chapter 1 discusses scoring systems of championships with multiple competitions, ranking in Swiss-system tournaments, and tie-breaking rules in round-robin leagues. It is followed by a thorough critical analysis of the current and previous FIFA World Rankings. The broad focus is substantially narrowed in Chapter 2, which turns to the topic of incentive (in)compatibility in multiple qualifiers. It is revealed that UEFA has faced at least three times recently this problem in the qualification to the UEFA Europa League, qualification to the UEFA Champions League, and the draw of the UEFA Champions League groups. Analogously, Chapter 3 discusses incentive (in)compatibility when there is only one group-based tournament but the complex progression rules to the subsequent stage can be designed poorly. Our examples include the qualifying tournaments of recent FIFA World

Cups and UEFA European Championships. Chapter 4 moves to the problem of penalty shootout rules in soccer, where the fairness and complexity of some alternative mechanisms from the literature are evaluated. Fairness remains the central issue in Chapter 5, which presents the challenges of designing a tournament with 24 teams if the number of teams per group cannot exceed four. As expected, there is no perfect solution, and both FIFA and UEFA have introduced a reform in this format recently. Chapter 6 deals with the qualification for the 2020 UEFA European Football Championship. Its tournament design is perhaps the most complicated one that has ever been implemented in the real-world and suffers from serious shortcomings.

60 Years of the Champions League Keir Radnedge, 2015-10 Celebrate the 60th anniversary of the Union of European Football Associations Champions League with this handsome history, including new interviews and a stats section The UEFA (Union of European Football Associations) Champions League celebrated its diamond jubilee in 2005. The first match was played on September 4, 1955, when Sporting Lisbon played Partizan Belgrade. The Yugoslavs advanced to the next round by winning 8-5 on aggregate, but lost to the eventual champions, Real Madrid, giving the first glimmering of the Spanish club's legendary status. Real have won the Champion Clubs Cup/UEFA Champions League (the name changed in 1992) 10 times, three more successes than their nearest rival, Milan. Fully updated, this book covers every season's competition with a full report and statistical summary of the Final up to, and including, the 2015 final in Berlin. There are specially commissioned interviews with a soccer legend from each decade from the 1950s to the present. The book also includes a full statistical section, listing every result and all major

record-holders, both club and individual.

Introduction to UEFA Champions League Gilad James, PhD, The UEFA Champions League is an annual club football competition organized by the Union of European Football Associations (UEFA). It was first introduced in 1955, as the European Cup, and later renamed as the UEFA Champions League in 1992. The competition features 79 teams from 54 UEFA member countries. It is considered the most prestigious club competition in the world, as the best club teams from Europe compete to win the title. To qualify for the tournament, clubs must earn their place through their domestic league position or by winning a domestic cup competition. The competition consists of a group stage followed by knockout rounds, with the winner of the final being crowned the Champions of Europe. Teams such as Real Madrid, Barcelona, and Bayern Munich are among the most successful clubs in the history of the competition, with each club winning the tournament multiple times. The tournament is watched by millions of football fans around the world and generates significant revenue for UEFA and participating clubs.

Where the Cool Kids Hung Out Steven Scragg, 2020-10-12 *Where the Cool Kids Hung Out* is the story of the UEFA Cup's glory years, when it was a tournament that boasted a stronger field of teams than its senior siblings, the European Cup and the European Cup Winners' Cup. Since then it has drifted into its poor current form as the Europa League, the Champions League having siphoned off most of Europe's biggest clubs. Yet the UEFA Cup enjoyed some very stylish years, no more so than during the two-legged final period. It was an era when Ipswich Town swept to glory, Liverpool conditioned themselves to conquer the continent, Tottenham Hotspur twice captured the cup and Dundee United came agonisingly

close. It was also a time when Borussia Mönchengladbach made their name, Real Madrid regenerated as a force and Serie A came to dominate. Drawing on an encyclopaedic knowledge of the tournament plus interviews with players, journalists and fans who lived and loved the competition, Steven Scragg brings you the definitive account of the UEFA Cup's halcyon days.

The EU in International Sports Governance A. Geeraert, 2016-04-12 This book demonstrates that the European Union (EU) can curtail the autonomy of FIFA and UEFA by building upon insights from the principal-agent model. The author argues that EU institutional features complicate control, but do not render the EU powerless, and that FIFA and UEFA can deploy a variety of strategies to mitigate control.

Governance, Citizenship and the New European Football Championships

Wolfram Manzenreiter, Georg Spitaler, 2013-09-13 Over the past decade, European football has seen tremendous changes impacting upon its international framework as well as local traditions and national institutions. Processes of Europeanization in the fields of economy and politics provided the background for transformations of the production and consumption of football on a transnational scale. In the course of such rearrangements, football tournaments like the UEFA Championship or the European Champions League turned into mega-events and media spectacles attracting ever-growing audiences. The experience of participating in these events offers some of the very few occasions for the display and embodiment of identities within a European context. This volume takes the 2008 EUROs hosted by Austria and Switzerland as a case study to analyze the political and cultural significance of the tournament from a multidisciplinary angle. What are the special

features and spatial arrangements of a UEFAesque Europe, in comparison to alternative possibilities of a Europe? Situating the sport tournament between interpretations of collective European ritual and European spectacle, the key research question will ask what kind of Europe was represented in the cultural, political and economic manifestations of the 2008 EUROs. This book was published as a special issue of Soccer and Society.

Introduction to UEFA Euro 2024 qualifying Gilad James, PhD, The UEFA Euro 2024 qualifying is the process through which 55 European nations compete to qualify for the final tournament. The qualifying process has undergone some changes from previous editions, with a new format being implemented. In this format, all 55 teams will be split into ten groups, with the top two teams of each group automatically qualifying for the final tournament. The third-placed team in each group will proceed to the playoffs, where they will compete for the remaining four spots in the final tournament. The qualifying process will see the introduction of the UEFA Nations League playoff route, which will be used to determine the final four teams that will participate in the tournament. This route involves the 16 highest-ranked teams from the Nations League, who failed to qualify from their respective groups, competing against each other for the final four spots in the tournament. The qualifying process is expected to be highly competitive, with some exciting matches expected to be played. The UEFA Euro 2024 qualifying will be an opportunity for some of the best teams in Europe to showcase their skills and secure their place in the final tournament.

The Integrity of the Game and Shareholdings in European Football Clubs Marc

Peterson,2009-09-22 Master's Thesis from the year 2009 in the subject Law - Civil / Private / Trade / Anti Trust Law / Business Law, grade: gut, Tilburg University (Faculty of Law), course: International Business Law, language: English, abstract: The ENIC judgement of the Court of Arbitration for Sports clarified in 1999 that the UEFA regulations on multi-club ownership are necessary to maintain the integrity of football, in particular, the authenticity of results. Under the UEFA regulations, controlling interests in more than one club participating in a UEFA club competition are prohibited. However, it is not only multi-club ownership that may influence the so-called integrity of the game. Investments of clubs in other clubs (cross ownership) and shareholdings of “club-involved” persons in a club different from their own also raise issues. The following paper therefore examines the current regulations on those shareholdings for UEFA competitions (Champions’ League and Europa League) and for national leagues in England, Spain, and Germany. The analysis provides a detailed overview of how the game’s integrity is protected and shows whether improvements seem necessary.

At the core of the book is the statistical review of all 54 UEFA member nations' domestic competitions, not just league tables, but a full results service (with dates, venues, and scorers for every league match), plus appearance information for each club in the league and main cup competition. The last section concentrates on the clubs in the top division of each member nation for the upcoming season, with a map of the country and information on each of their European competition entrants. An appendix gives details of UEFA, an events calendar for UEFA competitions in 2014/15, and the 2016 UEFA European Championship qualifying competition.
