Urban Politics of a Sporting Mega Event Małgorzata Zofia Kowalska, 2017-09-12 This book looks at the UEFA European Championship (Euro 2012) as both a crowning achievement of, and a way to sustain, the urban entrepreneurial strategy of Poznań, Poland. As the host city of the tournament almost 25 years after Poland's transformation from a centrally planned to a market economy in 1989, the author focuses on how the local myths and traditions of resourcefulness were invoked to embed an entrepreneurial urban strategy. The book also observes how the very same tradition of resourcefulness was used by the opposition to challenge the urban policies. Contrary to the authorities' expectations, Euro 2012 triggered a discussion about the extent to which large business- and leisure-oriented urban strategy corresponds to local regime of value. *Urban Politics of a Football Mega Event* will be of interest to students and scholars across a range of subjects, including anthropology, ethnography, sociology of sport, geography, history, political science and European

studies.

The UEFA European Football Championships Jan Andre Lee Ludvigsen, Renan Petersen-Wagner, 2022-12-12 This book explores social and political issues and trends emerging around the UEFA European Football Championships. It presents a contemporary sociology of the European Championships which, despite its significance as a mega-event, has been largely overshadowed by the Olympics and the FIFA World Cup in existing literature. At a time when both sport mega-events and Europe are undergoing dramatic transformations, this book explores a range of case studies and important topics such as changing consumption patterns, new types of sport media, social media, environmental policies and emergency politics, public opposition and co-hosting. It also situates the European Championships within wider European projects and discourses of European identities, integration and enlargement. Drawing on data from recent and historical European Championships, and looking ahead to the next tournament in Germany in 2024, this book serves to open up new debates within the sociology of sport and the study of mega-events. It is a timely and ground-breaking text which will resonate with students, academics and readers who are interested in football, the sociology

of sport, megaevents, digital sociology, European politics and culture or sports business.

Exploring the cultural, ideological and economic legacies of Euro 2012 Peter Kennedy, Christos Kassimeris, 2016-03-22

European National football came together in the summer of 2012 for the 14th occasion. This book sets out to examine the enduring social tensions between supporters and authorities, as well as those between local, national and European identities, which formed the backdrop to the 14th staging of the European National football tournament, Euro2012. The context of the tournament was somewhat unique from those staged in previous years, being jointly hosted for the first time by two post-Communist nations still in the process of social and economic transition. In this respect, the decision to stage Euro 2012 in Poland and Ukraine bore its own material and symbolic legacies shaping the tournament: the unsettling of neo-liberal imaginings and emergent 'East-West' fears about poor infrastructure, inefficiencies and corruption jostled with moral panics about racism and fears surrounding the potentially unfulfilled consumerist expectations of west European supporters. The book seeks to explore the ideologies and practices invoked by competing national sentiments and examine the social tensions,

ambiguities and social capital generating potentials surrounding national, ethnic, European identity, with respect to national football teams, supporters and supporter movements. This book was published as a special issue of Soccer and Society.

Destination Brand-Building and Major Sporting Events. The Case of Poland and the UEFA Euro 2012 Charlotte Brodtkorb, 2018-11-14 Seminar paper from the year 2012 in the subject Sport - Sport Economics, Sport Management, grade: 1,3, European Business School London / Regent's College, course: EVM6A5- Contemporary Issues in Event Management, language: English, abstract: This report examines how Poland capitalised on the opportunities associated with the country's co-hosting of the UEFA EURO 2012 with regards to building a destination brand and identifies strategies that may be implemented in order to further establish and strengthen this brand. In the course of this report the 6Ts of creative destination reputation are applied to Poland specifically in the context of the country's co-hosting of a major international football event in 2012. It also gives some historical background on the development of the tourism sector in Poland in the last decades and examines and analyses both outcomes of the UEFA 2012 and the associated destination brand-building

campaign Feel Invited for the country. Poland's co-hosting of the EURO 2012 has provided the local Destination Marketing Organisation with opportunities to be exploited in terms of building competitive destination brand for the country. This report explores how these opportunities were exploited, taking into account the image of Poland that was held within its target markets for international tourism before and after the event. Finally, it assesses the success of the brand-building initiative during EURO 2012 and gives recommendations with regards to possible future challenges in destination branding the Polish Tourism Organisation should be aware of, as well as how this awareness may influence upcoming campaigns.

Evaluation of the Impact of a Mega-sporting Event Justyna Garbacz, 2014-04-28 This unique book aim to evaluate the impact of UEFA EURO 2012, an inimitable event for Warsaw residents' and a big challenge for a developing economy like Poland. EURO 2012 was a great experience for the Polish people, and one which engendered a raft of positive emotions and a surge of national pride. The objective of this book is to discover how residents of Warsaw perceived the impacts of EURO 2012. The results show that, although the residents did not perceive the economic benefits

of the tournament as being spread uniformly, a large majority appreciated its role in promoting Warsaw as a tourist destination and enhancing the international identity of the city. Whereas they generally displayed positive attitudes toward EURO 2012 in terms of lifting their pride and bringing the community closer together, they did also note some negative impacts caused by the event, such as traffic congestion and higher prices. A majority of the residents agreed that the positive impacts of EURO 2012 outweighed its negative impacts, which is the most important finding of the empirical study.

Euro 2012 Economic Impact on Host Cities in Poland Krystian Zawadzki, 2013 The UEFA European Championship (Euro) is among the world's most important sporting events staged nowadays. Apart from tremendous excitement among football fans, such a major event has a number of other implications, above all of economic nature. This study, as one of the few concerned with the Polish circumstances, is intended to determine what significance should be attributed to stage the Euro 2012 in Polish host cities. Aware of the difficulty in finding an unequivocal answer, the Author

focused on four isolated areas of impact, namely: sports infrastructure, other infrastructure, tourist traffic and the labour market.

Introduction to UEFA Euro 2024 qualifying Gilad James, PhD,
The UEFA Euro 2024 qualifying is the process through which 55 European nations compete to qualify for the final tournament. The qualifying process has undergone some changes from previous editions, with a new format being implemented. In this format, all 55 teams will be split into ten groups, with the top two teams of each group automatically qualifying for the final tournament. The third-placed team in each group will proceed to the playoffs, where

they will compete for the remaining four spots in the final tournament. The qualifying process will see the introduction of the UEFA Nations League playoff route, which will be used to determine the final four teams that will participate in the tournament. This route involves the 16 highest-ranked teams from the Nations League, who failed to qualify from their respective groups, competing against each other for the final four spots in the tournament. The qualifying process is expected to be highly competitive, with some exciting matches expected to be played. The UEFA Euro 2024 qualifying will be an opportunity for some of the best teams in Europe to showcase their skills and secure their place in the final tournament.

Euro Summits Jonathan O'Brian, 2021-05-03 Panenka's pearl of a penalty in Belgrade, van Basten's volley of a lifetime in Munich, Gazza's agonising near-miss at Wembley: over its six decades, the UEFA European Championship has thrown up many of the most memorable stories in football lore. Now it gets the history it deserves. Euro Summits is the first full retelling of the tournament, from its tentative beginnings in the late 1950s to its elephantine expansion in the mid-2010s. Taking in the USSR's early success, the grim violence of 1968, France's cavalier feats on

home soil in 1984, the sensational triumphs of no-hopers Denmark and Greece, Spain's modern-day dominance, all the way up to Portugal's shock victory in 2016, it's a panoramic portrait of an event that captures a whole continent's imagination every four years. Dramatic, detailed and teeming with compelling personalities like Michel Platini, Guenter Netzer, Hristo Stoichkov, Zinedine Zidane, Wayne Rooney and Cristiano Ronaldo, this is the complete story of a footballing event second only to the World Cup.

Football in Neo-Liberal Times Peter Kennedy, David Kennedy, 2016-02-05 This book offers an original Marxist critique of the European football business. It argues that the Marxist account

of the difference between profits and surplus value is crucial to an understanding of the fluid and contradictory nature of the commodification of football. Section one analyses the nature of modern professional football and section two highlights attempts, via government agency and football clubs, to corral fans into ever greater identification with business logic aimed at breaking traditional social relations. Section three draws on a number of cases studies across Europe, to analyse how some fans are attempting to mount a counter ideological response to the assault of neo-liberalism on the game.

Major Sporting Events John Harris, Fiona Skillen, Matthew

McDowell, 2018-12-07 Sport has long been used as a tool for political gain and many major sporting events are now often framed as a panacea to help combat issues such as rising obesity rates,

decreasing physical activity levels and wider urban decline. In reality though, fostering a temporary 'feel-good factor' is the most that many of these events can ever achieve even though a number are now sold on the popular rhetoric of legacy. Drawing upon a range of events and the work of international scholars from a variety of disciplinary backgrounds, this collection offers insights into the ways in which events outside of the big two are (re)positioned as part of the wider sporting landscape. The chapters originally published as a special issue in *Sport in Society*.
