**The Dragon and the Dazzle** Marco Pellitteri, Jean-Marie Bouissou, 2010 Marco Pellitteri examines the growing influence of Japanese pop culture in European contexts in this comprehensive study of manga, anime, and video games. Looking at the period from 1975 to today, Pellitteri discusses Super Mario, Pokémon, kawaii, Sonic, robots and cyborgs, Astro Boy, and Gundam, among other examples of these popular forms. Pellitteri divides this period into two eras (the dragon and the dazzle) to better understand this cultural phenomenon and means by which it achieved worldwide distribution.

**Muse** Denis-Pierre Filippi, 2019-09-24 Charming Coraline is hired as the private tutor to the young son of rich landlords. Her mission is to entertain her too studious pupil, Vernère. He is only a child, but one with a brilliant and indefatigable mind solely focused on books and inventions. To top it off, he is quite unpleasant. Coraline nonetheless tries to understand him while gradually discovering the strange and surprising universe of the mansion, whose nocturnal ambiance seems so amenable for very strange dreams... Muse is a lyrical and titillating ride through reverie and nostalgia, drawn by comics superstar Terry Dodson (Marvel's Uncanny X-Men, DC's Harley Quinn).

**Animation: A World History** Giannalberto Bendazzi, 2015-10-23 A continuation of 1994's groundbreaking Cartoons, Giannalberto Bendazzi's Animation: A World History is the largest, deepest, most comprehensive text of its kind,

based on the idea that animation is an art form that deserves its own place in scholarship. Bendazzi delves beyond just Disney, offering readers glimpses into the animation of Russia, Africa, Latin America, and other often-neglected areas and introducing over fifty previously undiscovered artists. Full of first-hand, never before investigated, and elsewhere unavailable information, *Animation: A World History* encompasses the history of animation production on every continent over the span of three centuries. Volume II delves into the decades following the Golden Age, an uncertain time when television series were overshadowing feature films, art was heavily influenced by the Cold War, and new technologies began to emerge that threatened the traditional methods of animation. Take part in the turmoil of the 1950s through 90s as American animation began to lose its momentum and the advent of television created a global interest in the art form. With a wealth of new research, hundreds of photographs and film stills, and an easy-to-navigate organization, this book is essential reading for all serious students of animation history. Key Features Over 200 high quality head shots and film stills to add visual reference to your research Detailed information on hundreds of never-before researched animators and films Coverage of animation from more than 90 countries and every major region of the world Chronological and geographical organization for quick access to the information you're looking for

Still Just Kidding Cassandra Calin, 2018-07 The first printed collection of comics by web comic sensation Cassandra Calin.

*The Japanese Cinema Book* Hideaki Fujiki, Alastair Phillips, 2020-04-02 The *Japanese Cinema Book* provides a new and comprehensive survey of one of the world's most fascinating and widely admired filmmaking regions. In terms of its historical

coverage, broad thematic approach and the significant international range of its authors, it is the largest and most wide-ranging publication of its kind to date. Ranging from renowned directors such as Akira Kurosawa to neglected popular genres such as the film musical and encompassing topics such as ecology, spectatorship, home-movies, colonial history and relations with Hollywood and Europe, The Japanese Cinema Book presents a set of new, and often surprising, perspectives on Japanese film. With its plural range of interdisciplinary perspectives based on the expertise of established and emerging scholars and critics, The Japanese Cinema Book provides a groundbreaking picture of the different ways in which Japanese cinema may be understood as a local, regional, national, transnational and global phenomenon. The book's innovative structure combines general surveys of a particular historical topic or critical approach with various micro-level case studies. It argues there is no single fixed Japanese cinema, but instead a fluid and varied field of Japanese filmmaking cultures that continue to exist in a dynamic relationship with other cinemas, media and regions. The Japanese Cinema Book is divided into seven inter-related sections: · Theories and Approaches · \* Institutions and Industry · \* Film Style · \* Genre · \* Times and Spaces of Representation · \* Social Contexts · \* Flows and Interactions

The Forever Watch David Ramirez, 2014-04-22 An exciting new novel from a bold up-and-coming sci fi talent, The Forever Watch is so full of twists and surprises it's impossible to put down. All that is left of humanity is on a thousand-year journey to a new planet aboard one ship, The Noah, which is also carrying a dangerous serial

killer... As a City Planner on the Noah, Hana Dempsey is a gifted psychic, economist, hacker and bureaucrat and is considered mission critical. She is non-replaceable, important, essential, but after serving her mandatory Breeding Duty, the impregnation and birthing that all women are obligated to undergo, her life loses purpose as she privately mourns the child she will never be permitted to know. When Policeman Leonard Barrens enlists her and her hacking skills in the unofficial investigation of his mentor's violent death, Dempsey finds herself increasingly captivated by both the case and Barrens himself. According to Information Security, the missing man has simply Retired, nothing unusual. Together they follow the trail left by the mutilated remains. Their investigation takes them through lost dataspaces and deep into the uninhabited regions of the ship, where they discover that the answer may not be as simple as a serial killer after all. What they do with that answer will determine the fate of all humanity in David Ramirez's thrilling page turner.

**Papertoy Monsters** Brian Castleforte, 2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

Mechademia 4 Frenchy Lunning, 2013-11-30 The themes of war and time are intertwined in unique ways in Japanese culture, freighted as that nation is with the multiple legacies of World War II: the country's militarization, its victories and defeats, Hiroshima and Nagasaki, and the uneasy pacifism imposed by the victors. Delving into topics ranging from the production of wartime propaganda to the multimedia adaptations of romance narrative, contributors to the fourth volume in the Mechademia series address the political, cultural, and technological continuum between war and the everyday time of orderly social productivity that is reflected, confronted, and changed in manga, anime, and other forms of Japanese popular culture. Grouped thematically, the essays in this volume explore the relationship between national sovereignty and war (from the

militarization of children as critically exposed in *Grave of the Fireflies* to reworkings of Japanese patriotism in *The Place Promised in Our Early Days*), the intersection of war and the technologies of social control (as observed in the films of Oshii Mamoru and the apocalyptic vision of *Neon Genesis Evangelion*), history and memory (as in manga artists working through the trauma of Japan's defeat in World War II and the new modalities of storytelling represented by *Final Fantasy X*), and the renewal and hybridization of militaristic genres as a means of subverting conventions (in Yamada Futaro's ninja fiction and Miuchi Suzue's girl knight manga).
