Nigeria, Echoes of a Century: 1914-1999 Ifeoha Azikiwe,2013 Echoes of a Century discusses fundamental issues in Nigeria's loose federation as well as unresolved national challenges in the past 100 years. It also examines the issue of leadership and its ceaseless manipulation through zoning, federal character, demography, ethnicity and religion that revolve around individuals against national interest; the politics and illusion of oil wealth that has become the nation's albatross; endemic corruption and societal decadence that negate her growth and development, and the clamour for a national conference to renegotiate the country's future.

Purge Nicole Johns,2010-02 Purge is a beautifully crafted memoir that has a Girl, Interrupted feel. In this raw and engaging account of her months in rehab, Nicole Johns documents her stay in a residential treatment facility for eating disorders. Her prose is lucid and vivid, as she seamlessly switches verb tenses and moves through time. She unearths several important themes: body image and sexuality, sexual assault and relationships, and the struggle to piece together one's path in life. While other books about eating disorders and treatment may sugarcoat the harsh realities of living with and recovering from an eating disorder, Purge does not hold back. The author presents an honest, detailed account of her experience with treatment, avoiding the clichd happily-ever-after ending while still offering hope to those who struggle with eating disorders, as well as anyone who has watched a loved one fight to recover from an eating disorder. Purge sends a message: though the road may be rough, ultimately there is hope.

NIGERIA: ECHOES OF A CENTURY Ifeoha Azikiwe,2013-04-17 ONE HUNDRED years past and gone, just like yesterday, and Nigeria is still in transition. Created on the vagaries of British imperialism, Lord Frederick Lugard, on January 1, 1914, unilaterally stitched together, two diametrically opposed Northern and Southern parts of the Niger bend to form an entity he called NIGERIA. Since then, Nigeria has remained changeless but with severe internal

contradictions that threaten the shaky foundation on which it was formed. By the amalgamation of 1914, Nigeria marks her centenary in 2014 – a century that reverberates 46 years of colonial domination, which set the agenda for political instability and internal conflicts; 29 wasted years of incessant bloody military coups and dictatorship, and 25 years of incoherent democratic governance. Echoes of a Century discusses fundamental issues in Nigeria’s loose federation as well as unresolved national challenges in the past 100 years. It also examines the issue of leadership and its ceaseless manipulation through zoning, federal character, demography, ethnicity and religion that revolve around individuals against national interests; the politics and illusion of oil wealth that has become the nation’s albatross; endemic corruption and societal decadence that negate her growth and development, and the clamour for a national conference to renegotiate the country’s future. Could Nigeria have done better as two separate entities as it were, before the amalgamation of 1914, or better still, as three separate nations as envisaged in 1957, against the encumbrances of its present structure, where trust is lacking, and confidence progressively eroding among federating units? With visible cracks on its bonds of unity, rising cases of religious bigotry and fundamentalism, ethnic chauvinism and exclusion, it is argued that should Nigeria eventually survive as one united nation, it may not develop beyond the status of a third world country.
