**Legal Priorities in Air Transport** Ruwantissa Abeyratne,2019-05-27 Against the backdrop of enormous technological strides, this book argues that the air transport industry must be constantly vigilant in its efforts to employ a legal regime that is applicable to the aeronautical and human aspects of the carriage by air of persons and goods. In this regard, safety and security are of the utmost importance, both in terms of safe air navigation and the preservation of human life. Although the International Civil Aviation Organization (ICAO) addresses legal issues through its Legal Committee, many emerging issues that urgently require attention lie outside the Committee's purview. This book analyzes in detail the items being considered by ICAO's Legal Committee, considers the legal nature of ICAO, and discusses whether or not ICAO's scope should be extended. Since the limited issues currently addressed by ICAO do not reflect the rapidly changing realities of air transport, the book also covers a broad range of key issues outside the parameters set by ICAO, such as: the need to teach air law to a new generation of aviation professionals; combating cyber-crime and cyber-terrorism; the regulation of artificial intelligence; traveller identification; interference with air navigation; human trafficking; unruly passengers; climate change; air carrier liability for passenger death or injury; Remotely Piloted Aircraft Systems (drones); and the cabin crew and their legal implications.

**Law and Regulation of Air Cargo** Ruwantissa Abeyratne,2018-07-23 This book explores the legal and regulatory aspects of the complex air cargo sector, discussing in detail the general principles of the carriage of air cargo; artificial intelligence and air cargo; facilitation; carriage of hazardous goods; human remains; and animals, as well as cargo security; price fixing and anti competitive conduct in air cargo operations; liability issues; the air cargo supply chain and contract of carriage. It also discusses related achievements of the International Civil Aviation Organization; the International Air Transport Association and Airports Council International. The value of goods carried by airlines represents 7.4% of the global Gross Domestic Product. While cargo carried by air accounts for less than 1% of global cargo carriage, airlines carry 35% of the value of world trade, making this industry highly valuable and efficient, and the most reliable way to transport goods throughout the world. On average, airlines transport 52 million metric tons of goods per annum, worth an equivalent of \$6.8 trillion, i.e. \$18.6 billion worth of goods daily.

You Let Some Girl Beat You? Ann Meyers Drysdale,2012-05-15 Annie was one of the best players ever. I didn't say male or female; I said ever.—Bill Russell, former Boston Celtics player Ann Meyers Drysdale is one of the greatest stars in the history of basketball. But her rise wasn't without controversy. Her 1979 NBA bid to play with the Indiana Pacers brought a barrage of criticism. But Ann simply wanted to play among the best. She had

always competed with the guys, and she never let anyone keep her down. In *You Let Some Girl Beat You?* she shares her inspirational story for the first time. A female first in many categories, Meyers Drysdale was the first woman ever signed to a four-year athletic scholarship to UCLA, where she remains the only four-time Bruin basketball All American, male or female. Ann was also the only woman ever asked to compete in ABC Sports' Superstars, pitting her against elite athletes like Mark Spitz, Joe Frazier, O.J. Simpson, and Mark Gastineau. After her athletic career Ann Meyers Drysdale went on to do color commentary on all the national stations. She also married Don Drysdale, legendary pitcher and announcer for the Los Angeles Dodgers, making them the first ever married couple enshrined in their respective sport's Hall of Fame. Today Ann continues to break through barriers. She is the only female vice president in the NBA (she is vice president of the Phoenix Suns), and is also the general manager of the WNBA's Phoenix Mercury, which has won two WNBA championships since she took over four years ago. The New York Times featured her prominently in a piece in August 2011 called *Pioneers Continue to Shepherd Women's Basketball*. Time magazine recently named her one of the ten greatest female athletes of all time.

*Home is Where You Left It* Stephen Marlowe,2014-02-01 In the 22nd century, Earth's natural resources have dwindled to the point of extinction, and as a result, the residents of the planet are on a never-ending quest to find new places to inhabit on other worlds. But some of these planets are already populated by other creatures -- some of whom aren't overly eager to welcome their new neighbors.
