The Great Penguin Rescue Sandra Markle,2020-01-01 Audisee® eBooks with Audio combine professional narration and sentence highlighting for an engaging read aloud experience! African penguins waddle around nesting colonies in lower numbers than ever before. Despite South African government efforts to protect the penguin colonies and their ocean fish supply, young penguins still struggle to survive. Fuzzy chicks waiting for food in open nests may overheat in the sun or become prey. Others simply may not get enough food to survive on their own once their parents leave. But new conservation methods, including rescuing and hand-feeding vulnerable chicks, are giving experts hope. Can volunteers and scientists help save Africa's only penguins before it's too late?

Penguin Named Patience: A Hurricane Katrina Rescue Story Suzanne Lewis,2017-12-13 Read Along or Enhanced eBook: Patience is a South African penguin. She is small at roughly 6 pounds and approximately 20 inches tall; but at 24 years old, she is the penguin in charge of the penguin exhibit at New Orleans's Audubon Aquarium of the Americas. On August 29, 2005, Hurricane Katrina hits, devastating the city and surrounding areas with its catastrophic winds and flooding. The aquarium is severely damaged. With no electricity or relief in sight, the temperature in the aquarium reaches dangerously high degrees, putting the penguins in peril. Patience, and the 18 other penguins, along with some of the other zoo animals, must leave their home and their favorite human, Tom, the penguin keeper. Tom drives his penguins to Baton Rouge where an airplane transfers them to the Monterey Bay Aquarium in California. Here the penguins will recuperate and live until they can return home to New Orleans. After nine long months away from Tom and their home, the aquarium is finally restored. And Patience, who has been patient, and her penguins return to New Orleans to a cheering homecoming.

The Great Penguin Rescue Dyan deNapoli,2011-08-16 On June 23, 2000, a ship en route from Brazil to China foundered off the coast of South Africa, spilling 1,300 tons of oil into the ocean and contaminating the habitat of 75,000 penguins. Local conservation officials immediately launched a massive rescue operation, and 12,500 volunteers from around the globe rushed to South Africa in hopes of saving the imperiled birds. Serving as a rehabilitation manager during the initial phase of the three-month effort, Dyan deNapoli--better known as the Penguin Lady for her extensive work with penguins--and fellow volunteers de-oiled, nursed back to health, and released into the wild nearly all of the over 19,000 affected birds. Now, at the tenth anniversary of the disaster, deNapoli recounts the extraordinary story of the world's largest and most successful wildlife rescue--From publisher description.
