Hebrew Idioms Found in the Bible Mark Uraïne, 2017-05-26 Language is a curious thing. We know that God communicates to us through His Word - the Bible. He reaches out in words of a distant language; one that we don't understand. This book attempts to communicate those cultural idioms and expressions that we so often glaze over, or misinterpret.

Go, and Sin No More Mark Uraïne, 2019-07-15 We may be surprised to find that our paradigm of sin is rooted in Greek philosophy, and not in Hebraic concepts held by the authors of the Bible. The theology of sinful nature is a Hellenized version of the Hebrew yetzer ha'ra. This book brings light to this historical perspective and will challenge the reader to reexamine their paradigm. As communicated by God to Cain in Genesis 4:7, we can overcome sin, or be ruled by it. It is a choice, not a destiny we are born unto.

The Lost Sheep of the House of Israel Mark Uraïne, 2020-05-25 As prophesied in the Old Testament, the tragedy of divorce occurred and a plan of redemption was to come. This plan was fulfilled in the life and death of Jesus. As the Son of God, Jesus had the full authority of His Father to release the house of Israel from the law of divorce through His death. Lo, I come to do thy will, O God. He was sent forth from God to carry out this redemptive plan of salvation. This book surfaces the story of unification between the Gentile house of Israel and the Jewish nation of the house of Judah. It challenges common Christian theology that has been long established to restore the Hebraic understanding.

Geopolitical Imagination Mikhail Suslov, 2020-11-02 In his timely book, Mikhail Suslov discusses contemporary Russian geopolitical culture and argues that a better knowledge of geopolitical concepts and fantasies is instrumental for understanding Russia's policies. Specifically, he analyzes such concepts as "Eurasianism," "Holy Russia," "Russian civilization," "Russia as a continent," "Novorossia," and others. He demonstrates that these concepts reached unprecedented ascendancy in the Russian public debates, tending to overshadow other political and domestic discussions. Suslov argues that the geopolitical imagination, structured by these concepts, defines the identity of post-Soviet Russia, while this complex of geopolitical representations engages, at the same time, with the broader, international criticism of the Western liberal world order and aligns itself with the conservative defense of cultural authenticity across the globe. Geopolitical ideologies and utopias discussed in the book give the post-Soviet political mainstream the intellectual instruments to think about Russia's exclusion—imaginary or otherwise—from the processes of a global world which is re-shaping itself after the end of the Cold War; they provide tools to construct the self-perception of Russia as a sovereign great-power, a self-sufficient civilization, and as one of the poles in a multipolar world; and they help to establish the Messianic vision of Russia as the beacon of order, tradition, and morality in a sea of chaos and corruption.

Three Revolutions: Mobilization and Change in Contemporary Ukraine II Pawel Mink, Georges Reichardt, Iwona Reichardt, Adam Kowal, 2019-11-30 The second part of this multi-volume project assembles a series of recollections and debates on the Ukrainian revolutions of 1990,

2004, and 2013–2014. After an introduction to the methodology of oral history, it presents twenty interviews with participants and eyewitnesses of the events in Ukraine, and documents a series of workshop discussions conducted at a symposium held in 2017. In these workshops, activists and observers of each of the three revolutions exchanged and compared their memories, analyses, and evaluations. This volume thus not only provides a comprehensive collection of firsthand accounts of the three historic Ukrainian upheavals, but also reveals the interrelations between them. The volume documents assessments from Barbara Krauz-Mozer, Markiyan Ivashchyshyn, Natalia Klymovska, Vakhtang Kipiani, Mykola Kniazhycki, Natalya Zubar, Yulia Tymoshenko, Aleksander Kwæniowski, Viktor Taran, Markiyan Matsekh, Yulia Tychkivska, Leonid Findberg, Yulia Mostova, Oksana Zabuzhko, Eduard Drach, Michailo Cherenkoff, Andriy Dudchenko, Oleg Mahdych, Rebecca Harms, Herman van Rumpoy, and Jacek Saryusz-Wolski.

Gunfights & Gunfighters Gordon A. Hunsaker, 2010-03-02 Amid the backdrop of World War II, race riots, and police corruption, a white police officer in Phoenix, Arizona, guns down an on-duty, black cop from his same department. The community's residents pick sides, and while the second trial ends in an acquittal, the battle isn't over. The detective, Frenchy Navarre, returns to duty but is shot dead when he encounters Officer Joe Davis, the slain officer's partner. This is just one of the fascinating tales told by Gordon A. Hunsaker, who also recalls: Surviving his youth on the streets of Los Angeles Fighting in the jungles of Southeast Asia during the Vietnam War A series of stories that cops normally only tell each other Piloting helicopters and airplanes while on the job Battling his toughest opponent cancer And much more! This compilation of musings, observations, and police lore is insightful, thought-provoking and, at times, just darn spooky. Any Arizona resident, law enforcement officer or lover of history will be thrilled to enter the exciting world of Gunfights & Gunfighters.

Socio-Economic Foundations of the Russian Post-Soviet Regime Simon Kordonsky, 2016-05-01 This monograph discloses the estate-based social structure of contemporary Russia by way of outlining the principles of the USSR's peculiar estate system, and explaining the new social estates of post-Soviet Russia. Simon Kordonsky distinguishes and describes in particular the currently existing Russian service and support estates. He introduces the notions of a resource-based state and resource-based economy as the political and economic foundations for Russian society's estate structure. His study demonstrates, moreover, how the method of inventing and institutionalizing threats plays a dominant role in the mode of distribution of scarce resources in such a social system. The book shows fundamental differences between resource- as well as threat-based economies, on the one side, and traditional risk-based economies, on the other, and discloses what this means for Russia's future.

Three Revolutions: Mobilization and Change in Contemporary Ukraine I Pawel Mink, Georges Reichardt, Iwona Kowal, 2019-10-31 Volume One of Three Revolutions presents the overall research and discussions on topics related to the revolutionary events that have unfolded in Ukraine since 1990. The three revolutions referred to in this project include: the Revolution on Granite (1990); the Orange Revolution (2004–2005); and the Euromaidan Revolution (2013–2014). The project's overall goal was to determine the extent to which we have the right to use the term “revolution” in relation to these events. Moreover, the research also uncovered the methodological problems associated with this task. Lastly, the project investigated to what extent the three revolutions are connected to each other and to what extent they are detached. Hence, the research in this volume not only discusses the theoretical aspects but also provides new analyses on such issues as religion, memory, and identity in Ukraine.
