The USS Carondelet Myron J. Smith, Jr.,2010-04-13 The USS Carondelet had a revolutionary ship design and was the most active of all the Union's Civil War river ironclads. From Fort Henry through the siege of Vicksburg and from the Red River campaign through the Battle of Nashville, the gunboat was prominent in war legend and literature. This history draws on the letters of Ensign Scott Dyer Jordan and Rear Adm. Henry Walke's memoirs.

The Story of a Civil War Gunboat Virgil Carrington Jones,Harold L. Peterson,1971 Historical narrative on the activities of the U.S.S. Cairo which was sunk in the Yazoo River by a Confederate torpedo in Dec. 1862, comprising a narrative of her wartime adventures by Virgil Carrington Jones and an account of her raising in 1964 by Harold L. Peterson. Also discusses the thousands of priceless artifacts found within her.

Tinclads in the Civil War Myron J. Smith, Jr.,2012-11-21 Once the Union Army gained control of the upper rivers of the Mississippi Valley during the first half of 1862, slow and heavy ironclads proved ineffective in patrolling the waters. Hastily outfitted steamboats were covered with thin armor and pressed into duty. These “tinclads” fought Confederate forces attacking from the riverbanks, provided convoy for merchant steamers, enforced revenue measures, and offered tow, dispatch, and other fleet support services. This history documents the service records and duties of these little-known vessels of the Union fleet.

The Civil War on the Mississippi Barbara Brooks Tomblin,2016-06-14 The naval historian presents a “well-written, fast-paced” study of Civil War riverine combat based on the personal accounts of officers and sailors (Civil War News). As one of the most important transportation systems in the country, the Mississippi River became a strategically vital asset to both sides of the Civil War. The Confederacy relied on the river for cotton exportation as well as food and military supplies. The Union sought control of the river not only to disrupt Southern transport, but also to bisect the South as part of the Anaconda Plan. Drawing heavily on the diaries and letters of officers and common sailors, Barbara Brooks Tomblin explores the Union navy’s fight to win control of the Mississippi. Her approach provides fresh insight into major battles such as Memphis and Vicksburg as well as the fascinating perspectives of ordinary sailors who engaged in brown-water warfare. These men speak of going ashore in foraging parties, assisting the surgeon in the amputation of a fellow crewman's arm, and liberating supplies of whiskey from captured enemy vessels. They also offer candid assessments of their commanding officers, observations of the local people living along the river, and their views on the war. The Civil War on the Mississippi provides a comprehensive account of the action on the western rivers as well as a synthesis of vivid first-person accounts from the front lines.

The Howling Storm Kenneth W. Noe,2020-10-07 Finalist for the Lincoln Prize! Traditional histories of the Civil War describe the conflict as a war between North and South. Kenneth W. Noe suggests it should instead be understood as a war between the North, the South, and the weather. In *The Howling Storm*, Noe retells the history of the conflagration with a focus on the ways in which weather and climate shaped the outcomes of battles and campaigns. He further contends that events such as floods and droughts affecting the Confederate home front constricted soldiers’ food supply, lowered morale, and undercut the government’s efforts to boost nationalist sentiment. By contrast, the superior equipment and open supply lines enjoyed by Union soldiers enabled them to cope successfully with the South’s extreme conditions and, ultimately, secure victory in 1865. Climate

conditions during the war proved unusual, as irregular phenomena such as El Niño, La Niña, and similar oscillations in the Atlantic Ocean disrupted weather patterns across southern states. Taking into account these meteorological events, Noe rethinks conventional explanations of battlefield victories and losses, compelling historians to reconsider long-held conclusions about the war. Unlike past studies that fault inflation, taxation, and logistical problems for the Confederate defeat, his work considers how soldiers and civilians dealt with floods and droughts that beset areas of the South in 1862, 1863, and 1864. In doing so, he addresses the foundational causes that forced Richmond to make difficult and sometimes disastrous decisions when prioritizing the feeding of the home front or the front lines. The Howling Storm stands as the first comprehensive examination of weather and climate during the Civil War. Its approach, coverage, and conclusions are certain to reshape the field of Civil War studies.

Joseph Brown and His Civil War Ironclads Myron J. Smith, Jr., 2017-05-02 A Scottish immigrant to Illinois, Joseph Brown made his pre-Civil War fortune as a miller and steamboat captain who dabbled in riverboat design and the politics of small towns. When war erupted, he used his connections (including a friendship with Abraham Lincoln) to obtain contracts to build three ironclad gunboats for the U.S. War Department--the Chillicothe, Indianola and Tuscumbia. Often described as failures, these vessels were active in some of the most ferocious river fighting of the 1863 Vicksburg campaign. After the war, Captain Joe became a railroad executive and was elected mayor of St. Louis. This book covers his life and career, as well as the construction and operational histories of his controversial trio of warships.

The Civil War on the Mississippi Barbara Brooks Tomblin, 2016-06-14 Flowing from its source in northern Minnesota to the Gulf of Mexico, the Mississippi River borders or passes through ten different states and serves as one of the most important transportation systems in the United States. During the Civil War, both sides believed that whoever controlled the river would ultimately be victorious. Cotton exports generated much-needed revenue for the Confederacy, and the Mississippi was also the main conduit for the delivery of materials and food. Similarly, the Union sought to maintain safe passage from St. Louis, Missouri, to Cairo, Illinois, but also worked to bisect the South by seizing the river as part of the Anaconda Plan. Drawing heavily on the diaries and letters of officers and common sailors, Barbara Brooks Tomblin explores the years during which the Union navy fought to win control of the Mississippi. Her approach provides fresh insight into major battles such as Memphis and Vicksburg, but also offers fascinating perspectives on lesser-known aspects of the conflict from ordinary sailors engaged in brown-water warfare. These men speak of going ashore in foraging parties, assisting the surgeon in the amputation of a fellow crewman's arm, and liberating supplies of whiskey from captured enemy vessels. They also offer candid assessments of their commanding officers, observations of the local people living along the river, and their views on the war. *The Civil War on the Mississippi* not only provides readers with a comprehensive and vivid account of the action on the western rivers; it also offers an incredible synthesis of first-person accounts from the front lines.

Naval Battles of the Civil War Coloring Book Peter F. Copeland, 1996-01-29 Forty illustrations of ships, weapons and tactics as well as the burning of the Norfolk Navy Yard, the battle of the Monitor and the Merrimac, the surrender of Vicksburg, more.

Civil War Biographies from the Western Waters Myron J. Smith, Jr., 2015-02-06 From 1861 to 1865, the Civil War raged along the great

rivers of the Ohio and Mississippi valleys. While various Civil War biographies exist, none have been devoted exclusively to participants in the Western river war as waged down the Mississippi to the mouth of the Red River, and up the Ohio, the Tennessee and the Cumberland. Based on the Official Records, county histories, newspapers and internet sources, this is the first work to profile personnel involved in the fighting on these great streams. Included in this biographical encyclopedia are Union and Confederate naval officers down to the rank of mate; enlisted sailors who won the Medal of Honor, or otherwise distinguished themselves or who wrote accounts of life on the gunboats; army officers and leaders who played a direct role in combat along Western waters; political officials who influenced river operations; civilian steamboat captains and pilots who participated in wartime logistics; and civilian contractors directly involved, including shipbuilders, dam builders, naval constructors and munitions experts. Each of the biographies includes (where known) birth, death and residence data; unit organization or ship; involvement in the river war; pre- and post-war careers; and source documentation. Hundreds of individuals are given their first historic recognition.

St. Louis in the Civil War Dawn Dupler and Cher Petrovic, 2014 On May 10, 1861, Union troops surrounded Camp Jackson, a military encampment where Confederate leaders were accused of conspiring to seize the St. Louis Arsenal, the largest store of munitions west of the Mississippi. The state militia, which numbered more than 600 men, answered the call of Missouri's pro-Southern governor Claiborne Fox Jackson to assemble but found themselves outnumbered 10 to 1 and were forced to surrender. As federal forces marched them through St. Louis, an angry crowd gathered. Gunfire crackled, leaving more than 24 people dead. St. Louis epitomized the growing tensions between the North and South. The city's strategic position enabled James Eads's shipyards to build ironclads, Jefferson Barracks to muster troops, and Gratiot Street Prison to hold POWs. The list of notables with ties to St. Louis reads like a who's who of the Civil War: Robert E. Lee, Ulysses S. Grant, Jefferson Davis, William T. Sherman, Nathaniel Lyon, James Longstreet, George Pickett, and others.
