<u>US Nuclear Submarines</u> Jim Christley,2012-01-20 The adoption of nuclear power revolutionized submarine design and means that vessels can stay underwater for months, trailing the enemy or training weapons on land targets from secret positions, "always there, never seen." Jim Christley, a former submariner, explores here the influence of Admiral Hyman Rickover in cautiously introducing these stealthy machines of war, and frankly discusses the power and perils of using nuclear reactors at sea. Using unique and detailed artwork, he outlines the many evolving aspects of design within the submarine classes, from the very first nuclear submarine, USS Nautilus, to the classes under construction even now.

Nautilus to Columbia James C. Goodall,2023-11-23 A highly illustrated history of the US Navy's nuclear submarine program, from the postwar years to the 2020 Columbia-class SSBNs. James C. Goodall covers the origins, design and development of the US Navy's fleet of nuclear-powered submarines. This program was developed under the command of Hiram G. Rickover, the "Father of the Nuclear Navy" who oversaw the commissioning of the very first nuclear-powered attack submarine, the USS Nautilus (SSN 571) in 1952. This was a truly revolutionary design. Until the advent of nuclear power, the world's submarine fleets traveled on the surface at night to charge their batteries, and only dove below the surface when enemy ships or planes were spotted. With the development of the USS Nautilus, the US Navy now had the ability to stay submerged for not just hours or days, but to hide out of harm's way for weeks or months at a time This highly illustrated book covers all of the 220+ submarine hulls built and delivered to the US Navy from the USS Nautilus through to the Navy's newest class of submarine, the Columbia class SSBNs. The story of the Nuclear Navy from its origins up to the present day is told through more than 1,300 images from official and archive sources, as well as the author's own personal collection, some of which have never been published before.

Warship under Sail Lorraine McConaghy, 2018-01-01 Ordered to join the Pacific Squadron in 1854, the sloop of war Decatur sailed from Norfolk, Virginia, through the Strait of Magellan to Valparaiso, Honolulu, and Puget Sound, then on to San Francisco, Panama, Nicaragua, and Costa Rica, while serving in the Pacific until 1859, the eve of the Civil War. Historian Lorraine McConaghy presents the ship, its officers, and its crew in a vigorous, keenly rendered case study that illuminates the forces shaping America's antebellum navy and foreign policy in the Pacific, from Vancouver Island to Tierra del Fuego. One of only five ships in the squadron, the Decatur participated in numerous imperial adventures in the Far West, enforcing treaties, fighting Indians, suppressing vigilantes, and protecting commerce. With its graceful lines and towering white canvas sails, the ship patrolled the sandy border between ocean and land. Warship under Sail focuses on four episodes in the Decatur's Pacific Squadron mission: the harrowing journey from the Atlantic to the Pacific Ocean through the Strait of Magellan; a Seattle war story that contested American treaties and settlements; participation with other squadron ships on a U.S. State Department mission to Nicaragua; and more than a year spent anchored off Panama as a hospital ship. In a period of five years, more than 300 men lived aboard ship, leaving a rich record of logbooks, medical and punishment records, correspondence, personal

journals, and drawings. Lorraine McConaghy has mined these records to offer a compelling social history of a warship under sail. Her research adds immeasurably to our understanding of the lives of ordinary men at sea and American expansionism in the antebellum Pacific West.

Frontier Zone; Darkwar Chronicles. Book Two; And Thus Began the Darkwar. Stuart Lynn Sexton,2014-02 Thus began the Darkwar; one tiny freighter carrying a small group of Naval Officers on a covert mission. No, not a mission, really. As Jacob had pointed out, more of a quest. And these were not merely Naval Officers. They truly were friends, who had been through thick and thin together, and would each die, one for the other, if needs be.

Battle Stations Stephen L. Moore,2021-11-02 The true story of the valiant men who gave their all to save the aircraft carrier USS Yorktown—and changed the course of the Pacific War. On June 4, 1942—six months after the attack on Pearl Harbor—Yorktown's crew began the carrier's final battle against Japan's infamous aircrafts. Hotshot fighter pilot Lieutenant Scott McCuskey attacked from the air in his Wildcat, becoming the Navy's second-ever "ace in a day." Carpenter Boyd McKenzie worked tirelessly to repair Yorktown before a fresh air strike. Critically injured gun crew member George Weise fought for his life as the ship threatened to capsize. Meanwhile, Pharmacist's Mate Second Class Warren Heller raced to save the lives of bloodied gunners and sailors by evacuating them before time ran out. The stories of these heroes and many other brave servicemen bring the gripping narrative of Yorktown's final thirty days to life, as she fights in the near back-to-back Battles of Coral Sea and Midway. Through unpublished memoirs

and interviews with Yorktown's last surviving veterans, acclaimed author Stephen L. Moore offers up a new and compelling amount of a pivotal month in World War II while honoring the courage of those who served.

Operation Torch 1942 Brian Lane Herder, 2017-09-21 Following the raid on Pearl Harbor and the entry of the United States into World War II, President Franklin D. Roosevelt identified the European theatre as his country's priority. Their first joint operation with the British was an amphibious invasion of French North Africa, designed to relieve pressure on their new Soviet allies, eliminate the threat of the French navy joining the Germans, and to shore up the vulnerability of British imperial possessions and trade routes through the Mediterranean. Operation Torch was the largest and most complex amphibious invasion of its time. In November 1942, three landings took place simultaneously across the French North African coast in an ambitious attempt to trap and annihilate the Axis' North African armies between the invading forces under General Eisenhower and British Field-Marshall Montgomery's Eighth Army in Egypt. Using full colour artwork, maps and contemporary photographs, this is the thrilling story of this complex operation.

All the Gallant Men Donald Stratton, Ken Gire, 2016-11-22 The New York Times bestselling memoir of survival and heroism at Pearl Harbor "An unforgettable story of unfathomable courage." —Reader's Digest In this, the first memoir by a USS Arizona sailor, Donald Stratton delivers an inspiring and unforgettable eyewitness account of the Pearl Harbor attack and his remarkable return to the fight. At 8:10 a.m. on December 7, 1941, Seaman First Class Donald Stratton was consumed by an inferno. A million pounds of explosives had detonated beneath his battle station aboard the USS Arizona, barely fifteen minutes into Japan's surprise attack on American forces at Pearl Harbor. Near death and burned across two thirds of his body, Don, a nineteen-year-old Nebraskan who had been steeled by the Great Depression and Dust Bowl, summoned the will to haul himself hand over hand across a rope tethered to a neighboring vessel. Forty-five feet below, the harbor's flaming, oil-slick water boiled with enemy bullets; all around him the world tore itself apart. In this extraordinary, never-before-told eyewitness account of the Pearl Harbor attack—the only memoir ever written by a survivor of the USS Arizona—ninety-four-year-old veteran Donald Stratton finally shares his unforgettable personal tale of bravery and survival on December 7, 1941, his harrowing recovery, and his inspiring determination to return to the fight. Don and four other sailors made it safely across the same line that morning, a small miracle on a day that claimed the lives of 1,177 of their Arizona shipmates—approximately half the American fatalaties at Pearl Harbor. Sent to military hospitals for a year, Don refused doctors' advice to amputate his limbs and battled to relearn how to walk. The U.S. Navy gave him a medical discharge, believing he would never again be fit for service, but Don had unfinished business. In June 1944, he sailed back into the teeth of the Pacific War on a destroyer, destined for combat in the crucial battles of Leyte Gulf, Luzon, and Okinawa, thus earning the distinction of having been present for the opening shots and the final major battle of America's Second World War. As the seventy-fifth anniversary of the Pearl Harbor attack approaches, Don, a great-grandfather of five and one of six living survivors of the Arizona, offers an unprecedentedly intimate

reflection on the tragedy that drew America into the greatest armed conflict in history. All the Gallant Men is a book for the ages, one of the most remarkable—and remarkably inspiring—memoirs of any kind to appear in recent years. *Library Journal
