I Christen Thee, Nebraska Monty McCord,2005 The fascinating account of U.S. Navy ships named Nebraska comes to life with *I Christen Thee, Nebraska*. Author Monty McCord deftly illustrates the historical significance of these ships in the Navy. Even as early as the Civil War, three ships carried the name Nebraska. Over forty years later in 1907, the USS Nebraska (BB-14) was one of sixteen battleships that steamed around the world with President Theodore Roosevelt's Great White Fleet (1907-1909). McCord re-creates daily life on these ships with accounts of operations, the sailors' hardships, recreation, and humor in the early steel Navy. During the 1970s, construction began on a new class of ballistic missile submarines that would include the USS Nebraska (SSBN-739). The Nebraska (BB-14) was the fourteenth battleship built, and, coincidentally, the submarine Nebraska was the fourteenth of its class. This massive submarine was commissioned in 1993 and continues to serve a deterrent mission. McCord also delves into the colorful histories of other Navy ships named after Nebraska people and places, offering a distinct look at a relatively unknown piece of American history.

U.S. Navy Minecraft Ken W. Sayers,2023-01-20 In modern naval warfare, offensive and defensive mine operations and the ships that perform them often take a back seat to the more glamorous carrier strike groups, strategic deterrence patrols and anti-submarine operations. Despite their relatively small size and numbers, minecraft have enormous strategic and tactical value. With more than 200 photos, this book details the histories and specifications of more than 2,200 vessels that have served as minelayers and minesweepers, from World War I to today. Rare examples include the U.S. Navy's only purpose-built mine-laying submarine, and the remarkable 36-foot mini minesweeper.

U.S.S. Cod (SS-224) J. T. McDaniel,2005 Today tied up on the Cleveland, Ohio waterfront, U.S.S. Cod is the lowest numbered surviving World War II American fleet submarine. During the war, Cod made a total of seven war patrols, operating from Australia, Hawaii and Guam. This book contains the complete text of the war patrol reports submitted by her three wartime commanding officers, Commander James C. Dempsey, Commander James A. Adkins, and Lieutenant Commander Edwin M. Westbrook, Jr. Also included is an Introduction and notes by popular submarine novelist and historian J.T. McDaniel.

Barges to Battleships: Puget Sound Military Shipbuilding David Shirlaw,2020-04-10 Puget Sound was once one of the nation's leading military shipbuilders. During times of war, the builder's ranged from large corporations and public facilities right down to McNeil Island Federal Penitentiary. In Peacetime, many yards flourished with Bellingham referred to as The Minesweeper Capital of the World in the 1950s.

The Ship That Wouldn't Die Don Keith,2016-04-05 Acclaimed naval historian Don Keith tells one of the most inspiring sea stories of World War II: the Japanese attack on the American oiler USS Neosho and the crew's struggle for survival as their slowly sinking ship drifted on the treacherous Coral Sea. May 1942: the United States closed in for the war's first major clash with the Japanese Navy. The Neosho, a vitally important but minimally armed oil tanker was ordered away from the impending battle. But as the Battle of the Coral Sea raged two hundred miles away, the Neosho was attacked, setting the ship ablaze and leaving it listing badly. Scores of sailors were killed or wounded, while hundreds bobbed in shark-infested waters. Fires on board threatened to spark a fatal explosion, and each passing hour brought the ship closer to sinking. It was the beginning of a hellish four-day ordeal as the crew struggled to stay alive and keep their ship afloat. Only four of them would survive to be rescued after nine days. Working from eyewitness accounts and declassified documents, Keith offers up vivid portraits of Navy heroes in this tale of a ship as tough and resilient as its crew. *The Ship That Wouldn't Die* captures the indomitable spirit of the American sailor—and finally brings to the surface one of the great untold sagas of the Pacific War.

Strike Able-Peter John A. Butler,1995 In January 1950, shortly after leaving Norfolk, Virginia, the USS Missouri ran aground in the Chesapeake Bay. The mishap captured the curiosity of Americans from coast to coast, and as the nation looked on an embarrassed Navy frantically tried to refloat the warship - for two weeks. The eventual recovery set lasting records in the history of organized marine salvage. This book provides a minute-by-minute account of the grounding, the root cause of which has never before been made public.

Frigates John Hamilton,2012-08-15 Patrol the world's oceans in one of our nation's greatest military ships! Frigates explores the history, capabilities, and technology of this modern marvel, including heroic sailors who have served on the ship. Aligned to Common Core Standards and correlated to state standards. A&D Xtreme is an imprint of Abdo Publishing, a division of ABDO.

FFG-7 Model Glenn Hoover,2019-12-29 This book contains detailed instructions on building the FFG-7 USS Oliver Hazard Perry 1/350 scale model ship from Academy. I've broken down the kit's instruction to individual steps for each piece. I've also integrated the instructions for the aftermarket kit from Pontos (35019F1). This book provides a little history of the Frigate, a detailed list of tools that I used to build this model, along with a list of paints. The actual instruction section contains 1268 steps and 185 plus figures over 243 pages that tell you what to dry fit, glue, and/or paint for each individual piece. Each step instruction shows the source (i.e., either Academy of Pontos) along with a block to mark that you completed the step. The steps for the Pontos kit are colored gray making it easy to skip if you just have the kit. There are several pages of in-process photos with assembly tips and the final photos of my build for reference. This book is a great checklist to make your build go smoothly. Of course, you can feel free to use different tools, paint, weathering, etc. or even add your own diorama. I hope you find this book useful. See a 16-page sample along with photos of finished models and other books at glennhoovermodels.com.

History Lover's Guide to Omaha, A Eileen Wirth and Carol McCabe,2021 In Omaha, an evening stroll can provide passage into a fascinating past. Travel from a madam's elaborate grave in North Omaha to the site of the first U.S. airmail flight in Aksarben. Chase down the echoes of a Duke Ellington performance at the Dreamland Ballroom in the Jewell Building. Stow away on a tour that treats the whole city like a museum. Colorful street murals and Gilded Age mansions stand in as exhibits alongside the more traditional offerings of state markers and archival collections. Gain fresh appreciation for familiar landscapes and famous landmarks as Eileen Wirth and Carol McCabe move through Omaha neighborhood by neighborhood.

Cups Up George T. Malvaney,2018-04-30 George T. Malvaney's life epitomizes the old maxim that You cannot make this stuff up. Combine a young Klansman from Mississippi, an armed coup attempt in the Caribbean, a stay in prison, and a life-changing epiphany, and you have but half of this swashbuckling tale. Throw in the worst man-made ecological disaster in the history of the United States, and you have unleashed Malvaney's full life story. The Klansman, the soldier of fortune, the wild-eyed prisoner transforms into a renowned leader of the Mississippi Gulf Coast cleanup effort in the wake of the BP Deepwater Horizon oil spill. In his too-crazy-not-to-be-true memoir, Malvaney chronicles what easily should be several lifetimes of adventure--and misadventure. Growing up in a close-knit family in Jackson, Mississippi, the young Malvaney preferred woods and swamps to the drudgery of high school. He dropped out, enlisted in the Navy, and shortly afterwards joined the Ku Klux Klan. While onboard, he organized a branch of the Klan, corrupting and endangering his crewmen. After his discharge, he answered a mercenary call to take part in an invasion of Dominica, a Caribbean fiasco known as the Bayou of Pigs. That madness landed him in a federal penitentiary. And there, somehow, he vowed to turn his life around. *Cups Up*, a title drawn from the wake-up call shouted at prisoners, is a story of perseverance, cleansing, and redemption. It chronicles the roller coaster life of a high school dropout, ex-Klansman, ex-mercenary, ex-felon, and ex-con, who went on to become a college graduate, a hardnosed environmental regulator, and a widely respected top executive in a company with more than a thousand employees.

Review of the U.S. Navy Environmental Health Center's Health-Hazard Assessment Process National Research Council,Commission on Life Sciences,Board on Environmental Studies and Toxicology,Committee on Toxicology,Subcommittee on Toxicological Hazard and Risk Assessment,2000-09-23 A large number of chemicals are used on land at shore facilities, in the air in combat and reconnaissance aircraft, on seas around the world in surface vessels, and in submarine vessels by the navy and marine corps. Although the chemicals used are for the large part harmless, there is a significant amount of chemicals in use that can be health hazards during specific exposure circumstances. The Navy Environmental Health Center (NEHC) is primarily tasked with assessing these hazards. The NEHC completes its tasks by reviewing toxicological and related data and preparing health-hazard assessments (HHAs) for the different chemicals. Since the NEHC is continually asked to develop these HHAs, the National Research Council (NRC) was asked to assess independently the validity and effectiveness of NEHC's HHA process, in order to determine whether the process as implemented provides the Navy with the best, comprehensive, and defensible evaluations of health hazards and to identify any elements that might require improvement. The task was assigned to the Board on Environmental Studies and Toxicology's Committee on Toxicology's (COT's) Subcommittee on Toxicological hazard and Risk Assessment. Review of the U.S. Navy Environmental Health Center's Health-Hazard Assessment Process presents the subcommittee's report. The report is the work of expertise in general toxicology, inhalation toxicology, epidemiology, neurotoxicology, immunotoxicology, reproductive and developmental toxicology, pharmacology, medicine, risk assessment, and biostatistics. It is based on its review of documents provided by NEHC, presentations by NEHC personnel, and site visits to NEHC in Norfolk, Virginia and an aircraft carrier in San Diego, California.

Nebraska Warbird Survivors 2002 Harold Skaarup,2002-01-16 The purpose of this handbook is to provide aviation enthusiasts with a simple checklist on where to find the surviving retired military aircraft that are preserved in the state of Nebraska. The majority of the "Nebraska Warbird Survivors" found in this book can be viewed at the Strategic Air and Space Museum near Omaha. Aircraft displayed include a Lockheed SR-71, B-52 Stratofortress, B-17 Flying Fortress, B-29 Superfortress, B-36J Peacemaker, and the B-58 Hustler. Aircraft displayed as "gate guardians" at Nebraska Air National Guard installations and in a number of cities throughout the state are also listed, including an RF-84 Thunderjet, a Corsair II, and an A-4 Skyhawk. The museum staffs and volunteer organizations in Nebraska have done a particularly good job of preserving the great variety of American combat veteran aircraft, illustrated here. Hopefully, as more aircraft are recovered from their crash sites and restored, traded or brought back from private owners, they too will be added to the record. The book lists the aircraft alphabetically by manufacturer, number and type. This list is also appended with a brief summary of the aircraft presently on display within the state and a bit of its history in the US military.
