**A History of the U.S.S. Mount Vernon** Mount Vernon (Steamship),1919

**A History of the U.S.S. Mount Vernon** Mount Vernon (Steamship),James Madison Doyle,2008

*The Unknowns* Patrick K. O'Donnell,2018-05-01 The award-winning combat historian and author of Washington's Immortals honors the Unknown Soldier with this "gripping story" of America's part in WWI (Washington Times). The Tomb of the Unknown Soldier is sacred ground at Arlington National Cemetery. Originally constructed in 1921 to hold one of the thousands of unidentified American soldiers lost in World War I, it now receives millions of visitors each year. "With exhaustive research and fluid prose," historian Patrick O'Donnell illuminates the saga behind the creation of the Tomb itself, and the stories of the soldiers who took part in its consecration (Wall Street Journal). When the first Unknown Soldier was laid to rest in Arlington, General John Pershing selected eight of America's most decorated veterans to serve as Body Bearers. These men appropriately spanned America's service branches and specialties. Their ranks include a cowboy who relived the charge of the light brigade, an American Indian who heroically breached mountains of German barbed wire, a salty New Englander who dueled a U-boat for hours in a fierce gunfight, a tough New Yorker who sacrificed his body to save his ship, and an indomitable gunner who, though blinded by gas, nonetheless overcame five machine-gun nests. In telling the stories of these brave men, O'Donnell shines a light on the service of all veterans, including the hero they brought home. Their stories present an intimate narrative of America's involvement in the Great War, transporting readers into the midst of dramatic battles that ultimately decided the conflict.

**Improving the Cost Effectiveness of Hazardous Materials Management**

**Programs Aboard U. S. Navy Dock Landing Ships (LSD's)** Matthew Charles

Hellman,1996-06-01 This thesis analyzes the cost effectiveness of alternatives to the U. S. Navy's current hazardous materials management practices onboard its ships. Numerous recent laws regarding pollution prevention aboard ships as well as significant reductions in Department of Defense spending has led the Navy to seek initiatives to manage hazardous materials in a more efficient and cost effective manner. This thesis deals with reducing wastestream volume and costs and improving the management of the Hazardous Minimization Centers (HMC's). Research was conducted onboard seven U.S. Navy Dock Landing Ships (LSD's): USS ANCHORAGE, USS COMSTOCK, USS FORT FISHER, USS FORT MCHENRY, USS HARPER'S FERRY, USS MOUNT VERNON and USS RUSHMORE. Hazardous material wastestream data was gathered for each ship to determine the significant material contributors to disposal costs. Additionally, information was accumulated concerning the training received by HMC operators to identify potential management weaknesses. Research identified significant cost savings by replacing the currently used baled wiping rags with shop towels provided by a contracted commercial vendor. Also noted was the fact that HMC operators were not receiving the requisite training required to properly manage HMC's. Therefore, training alternatives are addressed to ensure competent management of HMC's.
