

Uss Rhode Island

John D. Broadwater

The Navy in Newport Lionel D. Wyld, 2004-04-01
Known widely as the City by the Sea, Newport has a long history of maritime activity. Since the Colonial period, it has been an important seaport for the mercantile trade and a harbor of inestimable value for naval vessels. In 1869, the navy opened the Naval Torpedo Station on Goat Island in Newport harbor. The Naval War College on Coasters Harbor Island and the Naval Training Station soon followed. The navy's Newport presence expanded through two world wars; in the 1940s, the U.S. Naval Operating Base included extensive facilities on both sides of Narragansett Bay. Today, Newport remains a site of naval training, research, and development. The prestigious Naval War College, the Naval Education and Training Center, and the Naval Undersea Warfare Center have kept the navy a leading Rhode Island and southeastern New England employer.

World War II Rhode Island Christian
McBurney, Brian L. Wallin, Patrick T. Conley, John W. Kennedy, Maureen A. Taylor, 2017-05-22 Rhode Island's contribution to World War II vastly exceeded its small size. Narragansett Bay was an armed camp dotted by army forts and navy facilities. They included the country's most important torpedo production and testing facilities at Newport and the Northeast's largest naval air station at Quonset Point. Three special, top-secret German POW camps were based in Narragansett and Jamestown. Meanwhile, Rhode Island workers from all over the state - including, for the first time, many women -

manufactured military equipment and built warships, most notably the Liberty ships at Providence Shipyard. Authors from the Rhode Island history blog smallstatebighistory.com trace Rhode Island's outsized wartime role, from the scare of an enemy air raid after Pearl Harbor to the war's final German U-boat sunk off Point Judith.

Moonlighter Johnny Walton, 2013-09-18 Johnny Walton's brilliantly funny first novel is an artfully written window into 21st Century campus life. It is a coming of age story, an insight into the mind of a young college student 'on the make' and his inevitable falling in love.

Untold Stories from World War II Rhode Island

Christian McBurney, Norman Desmarais, Varoujan Karentz, 2019-10-21 Following the success of *World War II Rhode Island*, author Christian McBurney returns, with new coauthors Norman Desmarais and Varoujan Karentz, to present extraordinary personal stories of local contributions to the war effort. From John F. Kennedy's training as a PT boat commander at Melville to George H.W. Bush's training as a pilot at Charlestown, the smallest state played an oversized role preparing navy officers and sailors. Important innovations are credited here too. Radar used on night-flying aircraft was developed at Jamestown's Spraycliff Observatory and tested at Charlestown, and at Davisville, Seabees developed a pontoon aircraft landing field tested on Narragansett Bay. Scituate was home to the nation's most successful spy listening station. After these and more captivating stories are revealed, the final chapter details existing World War II sites across

the state readers can visit.

USS Monitor John D. Broadwater, 2012 Lavish illustrations (photographs, site drawings, and artifact sketches) complement this informative and highly readable account. Naval warfare buffs, amateurs and professionals involved in maritime archaeology, and Civil War aficionados will be intrigued and informed by *USS Monitor A Historic Ship Completes Its Final Voyage*.

Rhode Island Shipwrecks Charlotte Taylor, 2017-04-24 Rhode Island, the Ocean State, has more shipwrecks per square mile than any other state. The south coast and Block Island are the resting places of many shipwrecks, with many more located in Narragansett Bay. The record of shipwrecks in Rhode Island begins immediately after the arrival of Europeans in the early 17th century with the grounding of a Dutch trading vessel, and thousands more vessels came to grief in its waters in the following centuries, through bad weather, human error, equipment failure, and military action. Some of these shipwrecks were epic disasters, with many fatalities and the total loss of the vessel; others were relatively minor misfortunes in which the ships were salvageable. Many shipwrecks from the 19th century on into the 20th were captured in the dramatic images gathered here. These pictures show the variety of vessels that travelled Rhode Island's waters back when the ocean was the primary transportation corridor and the many ways in which they met misfortune.

the Year ... Rhode Island. Adjutant General's Office, 1900

Building the Mosquito Fleet Richard V. Simpson, 2001 In 1877, the U.S. Navy purchased the fast steam yacht Stiletto from the Herreshoff Manufacturing Company of Bristol, Rhode Island, for automobile torpedo experiments in Narragansett Bay. The submarine service was in its infancy, and interest in the self-propelled torpedo as an undersea weapon flourished. Herreshoff's fast, steam-powered boats were the first of the delivery platforms accepted by the U.S. Navy Department for experiments at the Newport Naval Torpedo Station and service during the Spanish-American War. Dating from the Civil War, the torpedo station on Goat Island in Newport Harbor was the first torpedo armory in the United States, specializing in research, development, and manufacture. **Building the Mosquito Fleet: The U.S. Navy's First Torpedo Boats** traces the important and often dramatic history of the involvement between the U.S. Navy and the Herreshoff brothers' marine yards over a period of more than thirty years. It is a story of enterprise, naval development, and marine manufacturing during a time of experimentation and evolution. Included are dramatic stories of the men who built and tested these dangerous new vessels. This fascinating volume preserves under one cover a concise history of the torpedo boats built by the Herreshoff Manufacturing Company. It describes design and construction innovations introduced by the Herreshoffs and traces the events that led the major navies of the world to take notice of the

Herreshoffs' work.

Hidden History of Rhode Island and the Civil War Frank L Grzyb, 2013-03-05 The smallest state to defend the Union and one far from the battlefield, Rhode Island's stories of the Civil War are often overlooked. From Brown University's John M. Hay, later to become Lincoln's assistant secretary, to the city of Newport's role as the temporary headquarters for the U.S. Naval Academy, the Civil War history of the Ocean State is a fascinating if little-known tale. Few know that John Wilkes Booth visited Newport to meet his supposed fiancée just nine days before he assassinated President Lincoln. The state also contributed several high-ranking officers to the Union effort and, more surprisingly, two prominent officers to the Confederacy. Remarkably, Kady Southwell Brownell also openly served as a soldier in a Rhode Island infantry regiment. Join author Frank L. Grzyb as he investigates Rhode Island's rich Civil War history and unearths century-old stories that have since faded into obscurity.

Ironclad Legacy Gary Gentile, 1993 No matter how strongly constructed, the ironclad, Monitor, can not win the battle against the forces of time and nature. Until its ultimate demise, the best we can

do is watch the wreck as it collapses more each year--like a loved one on her deathbed-- and remember the Monitor for what meaning it has brought into our lives: Politically, historically, and culturally.

End Game Diane Carey,Christie Golden,2012-07-24
Seven years ago the USS Voyager, embroiled in a three-way conflict with Federation Maquis renegades and the Cardassian warship that was pursuing them, took evasive action and found itself flung by means of a strange alien technology to the furthest corner of the galaxy, the unexplored Delta Quadrant, many thousands of lightyears from home. More than 170 episodes later, Captain Kathryn Janeway and her crew have encountered planets, races, civilisations and phenomena unseen by any other Federation eyes. But no matter the space they have explored or the obstacles they have overcome, their goal has always been the same: the impossible journey home. Will the USS Voyager make it back to Federation space and will her crew ever be reunited with those they left behind? Here is the first chance for UK fans to find out in full what happens in the final, emotive conclusion of the Voyager story.

Rhode Island's Civil War Dead Robert Grandchamp,2019-11-08 Rhode Island sent 23,236 men to fight in the Civil War. They served in eight infantry regiments, three heavy artillery regiments, three regiments and one battalion of cavalry, a company of hospital guards and 10 batteries of light artillery. Hundreds more served in the U.S. Army, Navy and Marine Corps. Rhode Islanders participated in nearly every major battle of the war, firing the first volleys at Bull Run, and some of the last at Appomattox. How many died in the Civil War is a question that has long eluded historians. Drawing on a 20-year study of regimental histories, pension files, letters, diaries, and visits to every cemetery in the state, award-winning Civil War historian Robert Grandchamp documents 2,217 Rhode Islanders who died as a direct result of military service. Each regiment is identified, followed by the name, rank and place of residence for each soldier, the details of their deaths and, where known, their final resting places.
