How Maine Decides Christian P. Potholm,2024-05-15 Political scholar and avid campaign watcher Christian P. Potholm brings to bear his considerable experience as a political consultant, and his intricate understanding of campaign strategy, in his careful analysis of Maine citizen referenda. In Maine, controversial decisions are often presented directly to voters, so the citizens can decide. Potholm looks at the campaigns from past referenda, delving into the lobbying and manipulation from both sides of each issue. He breaks down tactics and reveals why key votes were either won or lost. It is a fascinating look at this key element of Maine's political system.

Sex Drugs Death Harry McGeough,2011-03-20

The A-Men Return John Trevillian,2011-02 Four years have passed since the destruction of the Phoenix Tower and with it the infamous A-Men. The once-great Dead City is now a no-go zone; abandoned and forgotten. Living in this nightmarish underworld Jack is a twisted shadow of his former self, a lone survivor in a world of warring ganglords and their crazed disciples. Yet something is stirring in the sanctuary of the near-space starstations; a realisation that its governing sentience is dying and the one thing that can save civilisation fell to earth a long, long time ago. From unrelentingly visceral to outrageously comic, this is a harsh and poetic twenty-second century noir fable. Yet beneath the hardboiled action is a philosophical journey of one man's rebirth in a harsh and unforgiving world. It's The A-Men. Only harder, faster: darker.

It has put common sense back Jules Verne where it belongs, on the topmost shelf next to the dusty canister labelled 'discarded non The series is divergent; therefore we may be sense'. Eric T. Bell able to do something with it. o. Heaviside Mathematics is a tool for thought. A highly necessary tool in a world where both feedback and non linearities abound. Similarly, all kinds of parts of mathematics serve as tools for other parts and for other sciences. Applying a simple rewriting rule to the quote on the right above one finds such statements as: 'One service topology has rendered mathematical physics .. .'; 'One service logic has rendered computer science .. .'; 'One service category theory has rendered mathematics .. .'. All arguably true. And all statements obtainable this way form part of the raison d'etre of this series.

Billy Bragg Andrew Collins,2013-02-14 'Love me or hate me. It's a great read' - Billy Bragg He was a punk. He was a soldier. He was a flag-waver for the Labour Party and the miners. He is Billy Bragg, passionate protest folk singer and tireless promoter of political and humanitarian causes around the world. His life encapsulates so much about his generation: born in the late '50s, passions forged by punk, politics shaped by Thatcherism, career inspired by engagement, hope provided by the end of the Cold War and ideology galvanised by what he sees as a 'post-ideological' twenty-first century. He adapts to survive: serious about compassion and accountability, he likes a laugh too, and has never forgotten where he comes from. Still Suitable for Miners is the official Billy Bragg story, tracing his life, family and career at close range from Barking to the present day. This 20th anniversary edition has been updated to include the rise of Corbyn, the unfolding of Brexit, Billy's reclamation of skiffle and his overtures into Americana.

The Best Thing I Ever Did for My Marriage Nancy Cobb,Connie Grigsby,2003-08-08 Marriage has never been easy. But sometimes it takes surprisingly little to yield infinite rewards. This eye-opening book by marriage experts Nancy Cobb and Connie Grigsby contains humorous and profound true stories of turning points in marriages. From brushing her teeth at a different sink to letting her husband finish his sentences, each woman's story expresses the staggering impact that simple actions can have on marriages everywhere. More fulfilling relationships, expanded ministry opportunities, and a more intimate walk with God await the readers of this book when they see how God's best for their marriages may be just one small decision away. Sometimes the smallest thing can turn a marriage around! When Nancy Cobb and Connie Grigsby asked women about the best thing they ever did for their marriages, the responses were daringly honest. Here are fifty eye-opening, often humorous true stories—including contributions from Cynthia Heald, Dee Brestin, Rosemary Jensen, and Donna Otto—that will inspire you with moments that build stronger marriages. Bring down walls between you and your husband Adjust to differences in your personalities Deal with the damage and heartbreak of betrayal Go on living when everything goes terribly wrong God's best for your marriage may be one small decision away!

The Mammoth Book of Tattoos Lal Hardy,2012-03-15 It is now estimated that as much as 10% of the population in the UK and USA carries a tattoo. The huge recent growth in tattoo culture has in turn led to an influx of new talented artists, advancements in pigments and refinement of the equipment used. This giant volume includes the very best of the new work made possible by modern improvements in tattoo art. Here are 500 striking photographic images of tattoos, covering all styles from bold 'tribal' pieces, Chinese characters and hieroglyphs to delicate air-brushed designs, and from all-over 'body suits' to individual motifs - works as distinctive as the bodies they adorn. Featuring the work of the Discovery Channel's L.A. Ink stars Corey Miller, Kim Saigh and Hannah Aitchinson, and London Ink's Nicole Lowe, Louis Molloy and Phil Kyle amongst many others.

Living the Magical Life Suzi Gablik,2002-01-01 This is a compelling account of one woman's journey to reclaim the magical, oracular, and spiritual dimensions of life. After building a personal altar to the Black Madonna, art critic Suzi Gablik finds herself immersed in a world of oracles and synchronicities. Adopting an attitude of openness, trust, and curiosity, she experiments with the reality of divine intervention: relying on oracular signs, numinous clues, guided inspiration, and moments of meaningful coincidence as another way of knowing and appreciating the world. Confronting the challenges of a powerful experience that is filled with paradox and ambiguity, she arrives at a very special place of being able to enjoy, accept, and trust the ultimate inscrutability of the universe. Today many of us live without access to the visionary part of our psyche. We tend to think of life as being unpredictable and random—a series of disconnected events, flowing like an arrow through time. Living the Magical Life opens a doorway to a deeper vision of the world.

Fuzzy Sets, Rough Sets, Multisets and Clustering Vicenç Torra,Anders Dahlbom,Yasuo Narukawa,2017-01-13 This book is dedicated to Prof. Sadaaki Miyamoto and presents cutting-edge papers in some of the areas in which he contributed. Bringing together contributions by leading researchers in the field, it concretely addresses clustering, multisets, rough sets and fuzzy sets, as well as their applications in areas such as decision-making. The book is divided in four parts, the first of which focuses on clustering and classification. The second part puts the spotlight on multisets, bags, fuzzy bags and other fuzzy extensions, while the third deals with rough sets. Rounding out the coverage, the last part explores fuzzy sets and decision-making.

The Wailing on the While David William Kirby, Three 15 year old school kids run away from the violence at home and school to find their own utopia. After making a home in a local squat they discover the world can be a dangerous place. A shocking story which, at times, is hilariously funny. Rape, LSD and gay sex feature in this true story set in the early 1970s. One of the three is faced with a life changing decision and the outcome affects all three.

The Complete Hate Peter Bagge,2020-11-24 The Complete Hate is a three-volume set that includes the original 1990-1998 30-issue run, the nine subsequent Hate Annuals, and tons of other Hate-related comics, illustrations, and ephemera created for books, magazines, comics, toys, and other merchandise. Bagge combined his cartoony drawing style with uncomfortably real Gen X characters, and the comic books resonated with readers. Book One (Hate 1-15), focuses on young Buddy Bradley's travails in early 1990s Seattle. Book Two focuses on Buddy and his girlfriend Lisa Leavenworth's move back to Buddy's native New Jersey (and a switch from black-and-white to full color). Book Three features the final arc of Bagge's magnum opus, as Buddy and Lisa become parents (and buy a garbage dump).

The Three-Body Problem and the Equations of Dynamics Henri Poincaré,2017-05-11 Here is an accurate and readable translation of a seminal article by Henri Poincaré that is a classic in the study of dynamical systems popularly called chaos theory. In an effort to understand the stability of orbits in the solar system, Poincaré applied a Hamiltonian formulation to the equations of planetary motion and studied these differential equations in the limited case of three bodies to arrive at properties of the equations’ solutions, such as orbital resonances and horseshoe orbits. Poincaré wrote for professional mathematicians and astronomers interested in celestial mechanics and differential equations. Contemporary historians of math or science and researchers in dynamical systems and planetary motion with an interest in the origin or history of their field will find his work fascinating.

The Nano Flower Peter F. Hamilton,1998-01-15 A spacewoman divides her spirit in two, leaving one half with her husband who is in outer space, while she takes the other half with her back to Earth. The story is played out in the course of a search for technology to adapt nature to global warming.
