MICK BRODERICK, KATIE ELLIS

- 📖 **JENSEN V8** Mark Dollery,2016-03-31 The story of Jensen favouring American V8 power began during the 1930s, with the building of their first prototype car. Although this pre-war period was short-lived, this would be the start of what was to eventually become one of the company's main trademarks - the V8 engine. This new book examines the C-V8, Interceptor and FF models as well as Jensen's use of Chrysler, Ford and General Motors engines. The history, design, development and production of these cars is covered and the book is illustrated with 300 colour photographs.

- 📖 **Rocks in Trees** Ronald L. Clark,2017-01-16 In an old growth forest, located in south central Indiana, stands a stately oak tree alongside a meandering brook named Plumb Creek. In the upper branches of this tree is a sizable rock estimated to be in the 500-pound range. How this terrestrial interloper defied gravity and got stuck up in a tree no one knows. One thing is known for sure, rocks don't belong in the tops of trees, they belong on the ground with their brother and sister rocks. This rock in the top of a tree has suggested a metaphor about the human condition of people who also find themselves in places where they shouldn't be. These out-of-place people can best be described as contrarians who consider themselves to be sovereign individuals. Rocks in Trees tells a story about Thaddeus Jones, a guy who always questions why things are the way they are, and his one friend in the world, Roger Barnabas, best known as Rajah. The two young contrarians undertake a quixotic mission to rid sovereign mankind from freedom-smothering government that then can result in a utopic commonwealth of man.
- 📖 **Trauma and Disability in Mad Max** Mick Broderick,Katie Ellis,2019-08-27 This book explores the inter-relationship of disability and trauma in the Mad Max films (1979-2015). George Miller's long-running series is replete with narratives and imagery of trauma, both physical and emotional, along with major and minor characters who are prominently disabled. The Mad Max movies foreground representations of the body - in devastating injury and its lasting effects - and in the broader social and historical contexts of trauma, disability, gender and myth. Over the franchise's four-decade span significant social and cultural change has occurred globally. Many of the images of disability and trauma central to Max's post-apocalyptic wasteland can be seen to represent these societal shifts, incorporating both decline and rejuvenation. These shifts include concerns with social, economic and political disintegration under late capitalism, projections of survival after nuclear war, and the impact of anthropogenic climate change. Drawing on screen production processes, textual analysis and reception studies this book interrogates the role of these representations of disability, trauma, gender and myth to offer an in-depth cultural analysis of the social critiques evident within the fantasies of Mad Max.
- 📖 **Ford Midsize Muscle - Fairlane, Torino & Ranchero** Marc Cranswick,2016-06-01 This book details the evolution of Ford's family car through the golden era of Detroit. It tells how Henry took the no-frills Fairlane, added more zing to create the Torino, and satisfied America's luxury desires with the LTD II; and follows the evolution of Ford's midsize muscle cars, to the creation of the first car-based pickup - the Ranchero.
- 📖 **The Cocktail Guide to the Galaxy** Andy Heidel,2017-09-26 Nerds unite! For the first time ever comes a book that unites two of the best things in the world: nerd culture, and booze. Because if anything is true, it's that nerds are awesome, and many of us like to throw back an adult beverage or two while re-watching Firefly for the seventeenth time. The Cocktail Guide to the Galaxy has something for all fans, from Agents of Shield to X-Men. With over a hundred delicious and easy-to-make recipes, this is going to be the go-to book for anyone who loves nerdy pop culture (and drinking). All of the cocktails are created and field tested by the owner of The Way Station, everyone's favorite Doctor Who themed bar, so you can be assured that these drinks will quench whatever thirst you've got. Martini; the Mai Tai Fighter; Blade Rummer; the Felicia Laundry Day; the Flux Incapacitator; Close Encounters of the Third Lime; Cognac the Barbarian; the Sonic Screwdriver; Beer is the Mind Killer; the Shirley Temple of Doom; the Well Wheaton; Klingon Bloodwine; and The Vermouth is Out There.
- 📖 **Applied Ballardianism** Simon Sellars,2019-01-15 An existential odyssey weaving together lived experience and theoretical insight, this startling autobiographical hyperfiction surveys and dissects a world where everything connects and global technological delirium is the norm. The mediascapes of late capitalism reconfigure erotic responses and trigger primal aggression; under constant surveillance, we occupy simulations of ourselves, private estates on a hyperconnected globe; fictions reprogram reality, memories are rewritten by the future... Fleeing the excesses of 1990s cyberculture, a young researcher sets out to systematically analyse the obsessively reiterated themes of a writer who prophesied the disorienting future we now inhabit. The story of his failure is as disturbingly psychotropic as those of his magus—J.G. Ballard, prophet of the post-postmodern, voluptuary of the car crash, surgeon of the pathological virtualities pulsing beneath the surface of reality. Plagued by obsessive fears, defeated by the tedium of academia, yet still certain that everything connects to Ballard, his academic thesis collapses into a series of delirious travelogues, deranged speculations and tormented meditations on time, memory, and loss. Abandoning literary interpretation and renouncing all scholarly distance, he finally accepts the deep assignment that has run throughout his entire life, and embarks on a rogue fieldwork project: Applied Ballardianism, a new discipline and a new ideal for living. Only the darkest impulses, the most morbid obsessions, and the most apocalyptic paranoia can uncover the technological mutations of inner space. An existential odyssey inextricably weaving together lived experience and theoretical insight, this startling autobiographical hyperfiction surveys and dissects a world where everything connects and global technological delirium is the norm—a world become unmistakably Ballardian.
- 📖 **Jensen Interceptor** John Tipler,2005-03-04 The Interceptor was launched by specialist British car producer Jensen in 1965. It was intended to be a rival to grand tourers from the likes of Aston Martin and Jaguar, and with its good looks and powerful Chrysler V8 engine it acquitted itself well. But changing fortunes at Jensen and the oil crisis of the 1970s killed the car off. But it rose again in 1983 and was produced until 1993. This highly illustrated book covers the Interceptor in all its guises, and also includes the Jensen FF - the car's trend-setting four-wheel-drive version.

- 📖 **The Australian Film Revival** Susan Barber,2023-01-26 The Australian Film Revival: 70s, 80s, and Beyond explores the matrix of forces - artistic, cultural, economic, political, governmental, and ideological - that gave rise to, shaped, and sustained this remarkable film movement. This engaging new study brings fresh perspectives, insights, and innovative approaches to a variety of films from a diversity of filmmakers. Areas of focus include the complex and contentious subjects of masculinity, femininity and feminism, the maternal, as well as the indigenous road film and the protean Australian gothic. During the formative years of the revival, Australian films seemed to emerge from out of the blue in terms of global film history, with many features including Picnic at Hanging Rock (1975), Caddie (1976), The Last Wave (1977), The Chant of Jimmie Blacksmith (1978), and My Brilliant Career (1979) receiving international distribution and
