Insomvita Oleksandr Dan,2022-05-15 Can you remember what you dreamt about today? Most people claim they do not dream of anything, like ever, although in truth dreams occur every night. But when we wake up, we forget not only the dream, but also the fact that we had one. That's just how complex a human mind is and how little we know about it. This book tells a story of Robert Blanche, a lawyer with a life split in two – the real one and the world of his dreams. Every night he sees the same dream – his other life in another world. In that world of dreams, he is Trevor, a war correspondent, who doesn't even suspect about a life on the other side of the dream. One day, Trevor visits a psychologist, who induces a state of hypnosis in him, and, suddenly, his life is overturned. The hypnosis session soon leads to a series of shocking events in his life. Inspired by true events. Содержит нецензурную брань.

The Last Gig Norman Green,2009-01-20 A teenage runaway from the Brownsville projects, Alessandra Martillo lived with an indifferent aunt who had taken her in when her mother killed herself, and later, after more than a year on the streets, a caring uncle found her, took her in, and showed her she had a chance. That was many years ago, and now Alessandra's all grown up, working for a sleazy P.I., repossessing cars, and trolling for waitstaff on the take. The cases aren't glamorous, or interesting, but the work pays the bills. And she's good at it---if there's one thing she's learned since leaving the streets, it's how to take care of herself around life's shadier elements. When an Irish mobster named Daniel Mickey Caughlan thinks someone on the inside of his shipping operation is trying to set him up for a fall, it's Al he wants on the job. She's to find the traitor and report back. But just a little digging shows it's more complicated than a simple turncoat inside the family; Al's barely started on the case when she runs into a few tough guys trying to warn her away. Fools. As if a little confrontation wouldn't make her even more determined. Norman Green, critically acclaimed author of four crime novels, debuts a fresh, edgy character in the streetwise Alessandra Martillo, a female take on the P.I.s of yesteryear. Tough as nails and sometimes heartless, smart and altogether too brave for her own good, Al is one of the most interesting lead characters to hit crime fiction in years.

Guerrilla y Contraguerrilla Jehan Morel,2020-09-19 Jehan Morel, experimentado soldado y estudioso de la ciencia militar, expone el intrigante mundo de la guerra de guerrilla y contraguerrilla en este libro absorbente. Basándose en su pericia y experiencia de primera mano en la Indochina francesa y África Central, ha creado un manual parcialmente práctico y un examen en parte histórico de los principales movimientos geopolíticos contemporáneos. Usando una lupa distintiva no occidental, analiza profundamente cómo los diferentes aspectos de la política, la historia, el fundamentalismo religioso, el dinero y las rivalidades étnicas se combinan para culminar en la guerra. Y también te lleva a los lados 'ocultos': financiación, inteligencia, guerra psicológica, engaño, comunicaciones, relaciones públicas y guerra cibernética, que juegan un papel importante en la guerra asimétrica. De ninguna manera es esta la percepción romántica de la guerrilla, en cambio, este libro meticulosamente investigado le da una rara visión de su verdadera naturaleza. Ofrece una visión de su fascinante mundo, donde los rebeldes deben ser apoyados con planificación estratégica y ejecución para lograr sus objetivos perfectamente: proclamar la independencia de un país (mientras está bajo ocupación), ganar la lucha contra el régimen gobernante actual o vencer a un ejército invasor extranjero a través de una guerra de desgaste. La guerra contra la guerrilla también se somete al mismo escrutinio; Los enfoques recomendados cuando se enfrentan a una insurgencia y una idea de su base estructural ideal. Las minucias de las operaciones guerrilleras típicas son capturadas y magníficamente detalladas: el ataque de una patrulla, un puesto avanzado, un convoy de carretera o un convoy fluvial, una base aérea, combates callejeros, combate en la selva y la liberación de un campamento de prisioneros, y astutas operaciones de contraataque en áreas tribales, la selva o África subsahariana, y la crea

INSOMVITA. Психологический триллер с элементами детектива Александр Дан,2022-05-15 В центре сюжета этой книги – история Роберта Бланша, адвоката, жизнь которого разделена на две части. Первая часть – это реальность, вторая – это мир его сновидений. Всякий раз, засыпая, он видит один и тот же сон – свою иную жизнь в другом мире. В мире сновидений его зовут Тревор и он военный журналист. Однажды Тревор посещает психолога, который устраивает ему гипнотический сеанс. Именно этот сеанс приведёт к череде головокружительных событий в его жизни. История основана на реальных событиях.

Целесообразность, возможность и содержание реформы оборота гражданского огнестрельного оружия Коллектив авторов,2021-07-31 В коллективной монографии исследован вопрос о возможности и целесообразности либерализации оборота гражданского оружия в России. Введены критерии выбора решения. Основной из них – это уровень вооруженной преступности в стране. Показан противоположный характер исторических и страновых примеров, их зависимость от национальных особенностей, криминогенной, социально-экономической и политической обстановки в той или иной стране. Обширный анализ российских обстоятельств показал, что в современной России либерализация оборота оружия преждевременна и может существенно ухудшить криминогенную обстановку, что не исключает возможности ее осуществления в будущем. Предложен пакет актуальных законодательных инициатив, совершенствующих оборот гражданского оружия. Для криминологов, государственных управленцев, правоведов, политических и общественных экспертов, преподавателей, студентов и аспирантов юридических и других специальностей.

The Architecture of Modern Italy Terry Kirk,2005-06-02 “Modern Italy” may sound like an oxymoron. For Western civilization, Italian culture represents the classical past and the continuity of canonical tradition, while modernity is understood in contrary terms of rupture and rapid innovation. Charting the evolution of a culture renowned for its historical past into the 10 modern era challenges our understanding of both the resilience of tradition and the elasticity of modernity. We have a tendency when imagining Italy to look to a rather distant and definitely premodern setting. The ancient forum, medieval cloisters, baroque piazzas, and papal palaces constitute our ideal itinerary of Italian civilization. The Campo of Siena, Saint Peter's, all of Venice and San Gimignano satisfy us with their seemingly unbroken panoramas onto historical moments untouched by time; but elsewhere modern intrusions alter and obstruct the view to the landscapes of our expectations. As seasonal tourist or seasoned historian, we edit the encroachments time and change have wrought on our image of Italy. The learning of history is always a complex task, one that in the Italian environment is complicated by the changes wrought everywhere over the past 250 years. Culture on the peninsula continues to evolve with characteristic vibrancy. Italy is not a museum. To think of it as such—as a disorganized yet phenomenally rich museum unchanging in its exhibits—is to misunderstand the nature of the Italian cultural condition and the writing of history itself.

US Combat Shotguns Leroy Thompson,2013-08-20 When a soldier must face multiple opponents at close quarters, few weapons can match the effectiveness of the shotgun. From World War I to the War on Terror, the shotgun has been a devastating weapon in the hands of US troops. For urban combat, prisoner control and shipboard operations, it remains as deadly today as it was a century ago. This book examines various types, from the early combat shotguns through to the riot gun and trench gun versions used in World War I. So effective was the trench shotgun, the Germans complained it violated the “Rules of War” as an inhumane weapon, and threatened to execute troops captured carrying one. More recently during the War on Terror, shotguns have been used to clear cave complexes in Afghanistan and buildings in Iraq, but especially to blow doors open during entries and searches. Featuring specially commissioned full-color artwork, this is the story of the origins, development and the use of the combat shotgun in US service, from the trenches of World War I, to the Korean and Vietnamese Wars and lately the cave complexes of Afghanistan.
