Her Vampire's Mask Julia Ann Ross,2020-05-05 Abigale is attending something she normally wouldn't. No, she wasn't that kind of girl. Yet, here she is. A party in a mansion that is upscale and eloquent. It didn't take long for the masked guests at the masquerade to start doing more than just dancing. Here she was, not used to the sights and sounds going on around her. Wishing she were different, stronger, more confident. In the distance, she doesn't realize that the Lord of the manor, the Man in the Red Mask, had been watching her. That she intrigued him for reasons she will soon find out includes his ravenous needs and a memory of a different time. She will become entangled in his arms and his dark world; for better or for worse...Contains sexual themes/language.

Raven Mask Winter Pennington,2010-09-01 "I stared down at the lifeless body of a boy whose face was all too familiar..." Following the execution of Lukas Morris, Preternatural Private Investigator Cassandra Lyall told herself that she'd learn more about the local werewolf pack's Alpha female. Just as she begins her investigation, she's interrupted by a phone call from friend and ex-colleague, Detective Arthur Kingfisher. The body of a sixteen-year-old boy has been found. It's not just any sixteen-year-old boy, it's Timothy Nelson, a boy Cassandra knew was curious about the preternatural. Cassandra soon realizes that Timothy's death serves as a challenge, but it's not a challenge directed at her. It's aimed at her lover, the Countess vampire of Oklahoma, Lenorre. While Cassandra tries to figure out if Timothy's curiosity was his undoing, the biggest question of all remains unanswered. Is Timothy Nelson dead or undead? The Second Book in the Cassandra Lyall Preternatural Investigator Series.

Nearby, in a vault of a ruined abbey, two coffins have been opened and stakes driven through the hearts of two female corpses, one of which has seemingly just been buried! The professor who found the drowned woman is murdered in a room under constant surveillance, where the killer literally vanishes in a puff of smoke! Rumors of vampirism abound. The main suspect's reflection cannot be seen in a mirror... Owen Burns is called in and sent a clue to a previously unsolved impossible murder, tied to the professor's death... But there are opportunities, too—in the service of a secretive courtesan, in the bed of a beautiful senator, and in the hunt for an ancient assassin. As a vendetta older than Venice itself comes to a climax, Mircea struggles to evade the dangers of his current life, to come to terms with his past, and to uncover the truth hidden behind a city of masks... Now, in *Death Masks*, Jim Butcher's smart-guy private eye may have taken on more than he can handle... Harry Dresden, Chicago's only practicing professional wizard, should be happy that business is pretty good for a change. But he also knows that whenever things are going good, the only way left for them to go is bad. Way bad. Such as: • A duel with the lethal champion of the Red Court, who must kill Harry to end the war between vampires and wizards... • Professional hit men using Harry for target practice... • The missing Shroud of Turin—and the possible involvement of Chicago's most feared mob boss... • A handless and headless corpse the Chicago police need identified... Not to mention the return of Harry's ex-girlfriend Susan, who's still struggling with her semi-vampiric nature. And who seems to have a new man in her life. Some days, it just doesn't pay to get out of bed. No matter how much you're charging.

A Very Nervous Person's Guide to Horror Movies Mathias Clasen, 2021 Films about chainsaw killers, demonic possession, and ghostly intruders. Screaming audiences with sleepless nights or sweat-drenched nightmares in their immediate future. What's going on here? Presumably, almost everybody has experience with horror films. Almost everybody has sat through a terrifying motion picture and suffered the after-effects, such as hypervigilance and sleep disturbances. Some people would even characterize themselves as horror fans. But what about the others-the ones who are curious about horror films, but also very, very nervous about them? This book delves into the science

of horror cinema in an attempt to address common concerns about the genre. Why is the jump scare so effective, and so dreaded? What are the effects of horror films on mental and physical health? Why do horror films so often cause nightmares? Aren't horror films immoral ... and stupid, too? Are horror films bad for children and adolescents? What does the current profusion of horror films say about our society? Should we be concerned? Or can horror films be a force for good-do horror films have health benefits, can they be aesthetically and morally valuable, and might they even have therapeutic psychological and cultural effects? The book addresses these questions in short, readable chapters, peppered with vivid anecdotes and examples and supported by scientific findings. It notes that while horror films can have negative effects, they can also help people confront and manage fear--

Creative Storytelling with Children at Risk, 2017-07-05 This practical book will improve the play skills - through storytelling and storywork - of anyone working with children, especially with children 'at risk', such as looked-after children, or children suffering from trauma or abuse. Strongly rooted in the story tradition - folk tales and fairy tales, myths and legends, the ancient tale as well as the child's own story - this book enables the play worker to create a safe structure in order for children to play and through playing, share stories through movement, painting, clay, sandplay or drama. A narrative approach is an effective means of enabling children to communicate their experiences, fears, hopes and dreams. This book includes guidelines on all the play techniques and advice on unexpected disclosure or extreme reaction. Above all, this book puts the playing back into storywork, whereby the children are able to discover their own strengths and creative skills; to improve their forming of secure attachments with adults; and, to begin to understand their own behaviours and swings of mood and to understand the importance of communication in social skills. For one reason or another, many children in difficulty are excluded: from their school, their family, their social or cultural group. The methods in this book develop a framework of inclusion that brings some joy into the process of storytelling and integrates it as a social and cultural form for the benefit of children who are at risk.
