C-130 Hercules Martin W. Bowman,2017-07-30 “An engaging retrospective on the long-lived and ubiquitous C-130 Hercules tactical airlifter . . . Sweeping in its scope . . . an invaluable reference.” –Aviation History Designed in response to a 1951 requirement, the C-130 Hercules is the most successful military airlifter ever built. Since it first flew in prototype form on August 23, 1954, more than 2,100 have been produced in over eighty different versions. Across its variants, the Hercules serves more than sixty air forces, as well as many civilian cargo operators, in a multiplicity of roles, including air-to-air refueller, gunship, airborne command post, flying hospital, and firefighter. This rugged and easily maintained aircraft entered service in 1956 with the USAF Tactical Air Command. Ten years later, the “Charlie 130” was providing essential logistical support in Vietnam. This period in Southeast Asia was the Hercules’ finest hour. Paradrops, airlift, and evacuation operations were completed around the clock, often at low level, usually under fire and nearly always in bad weather. A generation later, this “Mr. Dependable” was serving with equal distinction in the Gulf War in the role of airlifter, radio-countermeasures, and “psy-ops” platform, gunship and, once again, “block-buster bomber.” The “Herky Bird” or “Fat Albert,” as the C-130 is fondly known, has proved a key component in humanitarian relief operations, as well, in all parts of the world. “Martin’s technical and informative look at their creation and use is absolutely fascinating. An iconic aircraft gets Martin’s VIP treatment in this wonderful book.” –Books Monthly “A history of an aviation great, from the pen of a popular and well-established author of aviation history.” –Firetrench

I Never Liked Those C-130's Anyway Terry Wilbur Smith,Malcolm R. Smith,J. Wilfred Cahill,2003 Your chance to relive a little piece of The Good Old Days and find the answers to these burning questions: Which future Coast Guard Captain said Shit, Mal, let's do a 360 and get out of here. Which Coast Guard astronaut said, when asked to describe his scariest moment, Flying as Malcolm Smith's co-pilot. Which Coast Guard aviator got the blame for putting training wheels and streamers on the commanding officer's and XO's new bicycles. Which Coast Guard aviator threw up in his glove while flying rather than make a mess in the cockpit. This book brings back some of the funniest moments of the Coast Guard during the time period between the Old Guard and the new modern Coast Guard. For more than two decades, Mal has threatened to write a book to chronicle his many colorful experiences during his Coast Guard aviation career. Mal can spin a tale better than any sailor and his exploits in and out of the cockpit are indeed legendary. But the fact is, the closer he gets to the completion of this life-long dream of his, the more nervous I become. I can't wait to read it! RADM David W. Kunkel, COAST GUARD AVIATOR #1726 Malcolm Smith is a master storyteller with a flair for finding humor in everyday activities and recounting his observations with entertaining splendor that leaves you thirsting for another. Since meeting him when I was a teenager in Alaska, I have been absorbed by his colorful renditions and have long awaited this composition. I just hope I'm not the subject in one of his stories. CAPT. E. Darrell Nelson, COMMANDING OFFICER, CGAS KODIAK
