Albert Millspaugh

The Venusian Squeeze Theo Baker,2019-01-25 Jones and his team must race across the surface of Venus carrying fragile cargo through dangerous terrain. But will they reach the finish before the pressure gets to them? Includes fun facts, websites, and other resources.

The Venusian Gambit Michael J. Martinez,2015-05-05 The last chapter of the dimension-spanning Daedalus series brings the 19th and 22nd centuries together for an explosive finale in the jungles of Venus! In the year 2135, dangerous alien life forms freed in the destruction of Saturn's moon Enceladus are making their way towards Earth. A task force spearheaded by Lt. Cmdr. Shaila Jain is scrambling to beat them there while simultaneously trying to save crewmember Stephane Durand, who was infected during the mission to Saturn and is now controlled by a form of life intent on reopening a transdimensional rift and destroying the human race. But Jain doesn't realize that the possessed Stephane has bigger plans, beaming critical data to other conspirators suspiciously heading not for Earth, but for Venus... In 1809—a Napoleonic era far different from our own—the French have occupied England with their Corps Eternelle, undead soldiers risen through the darkest Alchemy. Only the actions of Lord Admiral Thomas Weatherby and the Royal Navy have kept the French contained to Earth. But the machinations of old enemies point to a bold and daring gambit: an ancient weapon, presumed lost in the jungles of Venus. Now, Weatherby must choose whether to stay and fight to retake his homeland or pursue the French to the green planet. And Shaila must decide if it's possible to save the man she loves, or if he must be sacrificed for the good of two dimensions. In the dark, alien jungles of Venus, humanity's fate in both dimensions hangs in the balance—forcing past and present to once again join forces against an ancient terror. From Venus I Came Omnec Onec,2023-06-20 Autobiography of an Extraterrestrial: A Guide to Self-Realization and Ascension by a Woman who came to Earth with a Mission of Love and BrotherhoodOmnec Onec came here to Earth from the Astral Plane of Planet Venus. She came as a child, in a physical body, in a spaceship. She arrived in 1955 and was raised by an Earth family. In her autobiography, Omnec explains the history, culture, and spiritual teachings of the Venusians, who have lived on the Astral Plane for a very long time and who are part of our ancestry. She tells us about her first years of life, which were spent on Venus, and about her Venusian Family. She explains why and how she came to Earth, and the mission that she was to fulfill. As a sister planet to Earth, Venus had already gone through a transformation to a higher consciousness and frequency, similar to what the Earth and many people are now experiencing. Venus at one time had a physical society on its surface as well, Omnec reveals, and in the course of its evolution ascended to a higher plane. The History of Venus, as described by Omnec, and the spirituality of the Venusians, are a Gift of Pure Love. By applying Omnec's teachings, we learn how Transformation into expanded consciousness and ascension into Higher realms can be mastered by people on Earth, in accordance with the Universal Laws of the Supreme Dicty. This book is the authorized re-publication of the original version, as written by Omnec Onec in the late 1960s and as first published in the U.S.A in 1991 by Lt. Col. Ret. Wendelle C. Stevens.

The Venusian Trilogy Omnec Onec,2012-07-01

Omnec Onec: Ambassador from Venus Omnec Onec,Col Wendelle Stevens Ret,2012-02 DO THEY LIVE HERE AMONGST US? Have Aliens Walked In To Earthly Bodies? It s a part of UFO research and the paranormal you seldom hear about, stresses Timothy Green Beckley, editor of the Conspiracy Journal and long time investigator of the unexplained. I have often heard stories of human-looking, Nordic-like, aliens living amongst us, having become part of our society without the knowledge of their neighbors. They are even said to have married humans. One should recall that in Genesis it says that the sons of God in those days mated with the daughters of men, who were lovely and fair, to produce a race of giants. The late Dr. Frank E. Stranges said he once met a man inside the Pentagon who was from another world and could read minds. The visiting stranger had no fingerprints because there was no crime on his home planet nor any wars. A college professor once told me how he had witnessed the landing of a spaceship and saw its alien crew emerge and drive off in an American-made automobile, only to see one of them standing in a supermarket line shortly thereafter. The unique work you are now holding is the personal account of a living human being who was, with her full consent and active cooperation, transported to Earth in a spacecraft from her home planet. She arrived in the company of her paternal uncle after being carefully prepared and conditioned to live here and grow in the physical society of the native life-wave of our own planet. And the remarkable thing is that Omnec Onec is still here, perhaps getting ready to reemerge from hiding once more as our planet s people go through tough times yet again. Before she arrived on this planet, she was carefully conditioned to our density and became physically manifest in an earth-body equivalent to a 7 year old girl. Her uncle and the crew who brought her here introduced her into a Tennessee family who had just lost their own little daughter. And although Omnec had the appearance of a 7 year old, she had the Venusian wisdom and knowledge of her 210 year equivalent at the time of her arrival here in 1955. This then is her story of her early life on Venus, her arrival here in the middle of our first modern excitement over UFOs, her preparation and adaptation to Earth living and its peculiar problems, unknown to her on her home planet. Copies of the first printing of the hardcover edition of this book have been selling for upwards of \$700 on the net. And one copy went in auction for around \$1800.00. Due to a personal relationship with Col Wendelle Stevens (Ret) we are able to make copies of this work available to the vast number of people who have clamored for it but could not obtain a copy at a reasonable cost. IT MUST BE NOTED THAT THIS WORK IS DEFINITELY NOT SCIENCE FICTION - BUT A BOOK FULL OF REMARKABLE TRUTHS THAT CAN ONLY AT THIS TIME BE PRESENTED TO EARTHLY DWELLERS FOR THEIR PERSONAL BETTERMENT!

Venusian Adventure E.C. Tubb,2014-04-30 Venus was a goldmine, a planet rotten with mineral wealth and unexploited resources, and tales filtered back to Earth and Mars, were whispered in the Domes of Mercury and wondered at in the dives of the outer planets. Venus was new and strange and a man, with luck and a little ruthlessness, could make his pile and retire to terrestrial luxury. But what if a man didn't have any luck? What if everything that could go wrong, did go wrong, and left him stranded on a strange alien world? What then?

Echoes of an Alien Sky James P. Hogan,2005-05-01 Eighteen years have passed since the first manned mission to Earth arrived from Venus. With the first colonists already establishing themselves across the bright, sunny world of clear blue skies and wonderlands of towering mountains and ice deserts, Kyal Reen arrives to join the Venusian scientific and archeological teams that are working to reconstruct the story of the mysterious and enigmatic extinct Terran race that once flourished there. Studies of Terran geology, scientific works, and ancient records show that Earth's early peoples witnessed terrifying cataclysmic cosmic events in skies very different from those seen today. In his travels among the Terran ruins, Kyal meets a biologist called Lorili, who is attempting to explain certain baffling similarities between some Terran and Venusian life forms that are irreconcilable with the established fact that Venus is a far younger planet than Earth. Formerly aligned with the Progressive activists back on Venus, Lorili admires the qualities of tenacity and determination written through Terran history. She constructs a theory of Venusians being descended from Terran ancestors. However, even allowing for the greatly exaggerated time scales that Terran science assigned to the processes of biological and planetary evolution, further research shows that there could have been no overlap. The Terrans were extinct long before life emerged on Venus. But there is a different, unexpected answer to the riddle. Lorili and Kyal will have to fight for their theory and their lives. At the publisher's request, this title is sold without DRM (Digital Rights Management).

The Deadly Seeker Albert Millspaugh,2004-06 In the 1970's, a Soviet Union space probe brought back a living Venusian child. Now, the Venusians want it back. They send a deadly seeker, a tall humanoid creature, to find and retrieve the infant, but a navigational error lands the spacecraft in Montana where the seeker goes on a killing spree of both men and livestock. Mike Jenner, Idaho rancher and ex-Army Officer, is determined to destroy the seeker after finding a hired hand hideously killed and then the merciless death of his girlfriend's father. This novel takes you one step beyond the Soviet Union's actual landing of Venera 13 on Venus and its stealthed return vehicle to what the Russians are doing today with the material they retrieved. It takes you with Mike Jenner's fight to overcome his chronic angry and express his love for Ellen Townsend; Air Force Major John Sullivan's attempt to communicate with the Venus space ship and locate and return the Venusian child, a reptilian-like being, from Russia: and Mike and Ellen's battle and annihilation of the deadly seeker.

A Hero's Journal Templeton Walker,2012-01-09 Imagine the world that we live in and all of the people that you know and have ever met. Some are family, others friends and associates, but suppose that 1 out of every twenty of them is something more than a mere man or woman; they are alien beings from the planet Venus, and though they are superior to us in every way they have lived peacefully amongst our kind for the past several decades. But now, a faction of their race has decided that their time for humility has come to its end. They send cyborgs out on a global campaign to capture and detain all of mankind until the day of Harvest, but thanks to your best friends intervention you are one of the few to escape. Such is the plight of the story's main character, Derek, and written in journal form are his personal experiences and thoughts of a world where humans are no longer the dominate species on earth. Taken in by Kiitos family, who are also Venusian, Derek goes through the motions of learning all that he can about their kind, and by chance he discovers that he himself is a Hybrid. Half human and half Venusian, the fact that he has the same capabilities as his full blooded counterparts thrills him to no end, but the responsibility that he feels in regard to his newfound power compels him to reluctantly join in the Rebellion's effort to liberate mankind through war with the tyrannical Conglomerate. Nevertheless, before he has the time to make peace with that decision he is presented with an opportunity to help make the world a better place than it was before; a planet where personal agendas are a thing of the past, political gain plays no part in doing what's right for society and people are once again free to sleep with their doors unlocked. It is a state of being for which Derek has always dreamed of, and all that he has to do in order to bring it to fruition is form a secret alliance with a third party. Blinded by the possibilities, he fools himself into believing that accepting the offer and keeping it a secret is in everyone's best interest, but, when the time comes to fulfill that oath he realizes the ramifications that his treachery may bring. Because his insight comes too late to warn the Rebellion of the intended ambush upon their forces, a personal sacrifice has to be made, but will it be enough to protect them and all of mankind from what lurks on the horizon.

Child of Venus Pamela Sargent,2014-04-01 The Nebula Award-winning author's "masterful SF trilogy" of human colonists terraforming the second planet from the sun comes to a stunning conclusion (Publishers Weekly). Often compared to Kim Stanley Robinson's acclaimed Mars trilogy, the three novels in the Venus saga—Venus of Dreams, Venus of Shadows, and Child of Venus—further establish the Nebula and Locus Award-winning author of *The Shore of Women* as "one of the genre's best writers" (The Washington Post). The Venus Project—making the planet's atmosphere habitable for humans—spans centuries and determines the fate of multiple generations. The great task has already survived the ravages of civil war and continues unabated, overseen by two distinct rival factions: the "Cytherian" human colonists in enclosed settlements on the planet's surface and the "Habbers," cybernetically enhanced human dwellers living in a mobile asteroid orbiting above the planet. Mahala Liangharad is a true child of Venus, conceived from the genetic material of rebels who died long before her birth. Chained to the Project her forebears began centuries earlier, she is restless and dissatisfied with the prospect of spending her entire existence inside a sealed dome. But her life is changed forever when the Habbers receive alien radio signals from six hundred light years away. With all work on Venus abruptly halted, Mahala now faces the most momentous decision of her young life. She can remain behind on the unfinished planet, or leave everything she's ever known and loved to pursue her destiny—and humankind's—to the far reaches of the universe . . .

The Wall of Light Arthur H. Matthews,1996-09

Venus of Shadows Pamela Sargent,2014-04-01 A new generation steps up in the colonization and terraforming of Venus in the Nebula Award-winning author's "masterful SF trilogy" (Publishers Weekly). The Venus Project calls upon the strongest and most courageous to create a prosperous world in the dismal wilderness of Venus. Those who demonstrate the skill and the passion to embark on this adventure must transform the barren planet in the midst of political and cultural unrest. When Risa and Benzi, children of Iris, one of the first people to partake in this project, find themselves in opposing forces on the battlefield, it is their love and perseverance that will determine the destiny of the new land.

Two Golden Age of Flying Saucer Classics Gloria Lee,Dana Howard,2013-12 Gloria Lee learned to fly before she could drive a car. Married to an aeronautical engineer,

she became entranced with the subject of UFOs and became actively engaged in psychic research and the study of esoterica. While endeavoring to develop her own extrasensory perception, she made contact with a mysterious being who claimed to be from the planet Jupiter. Gloria's original contact with the entity, who identified itself as J.W., took place in Los Angeles International Airport, where she was working as a ground hostess at that time. The entire communications and the book were done solely through mental telepathy, for which the Instrument, Gloria Lee, was specifically trained and developed over a period of four years. Lee admits this may seem incredible to some minds, but it must be remembered that some of the Space People are over one million years in advance of our evolution have developed faculties many of us are not even aware exist. Unlike many who wonder what is happening in the sky, Gloria very successfully established a legitimate contact through mental telepathy. Not that the communications were all that successful at first, but some compelling inner force kept her continuing her search despite the fact that her family and friends tried to discourage her from digging deeper into the unknown. My hurt was overcome by the belief that here was Truth, sometimes highly priced, but always well worth the effort for the knowledge gained, she shamelessly noted. On the other hand, Dana Howard's contacts seemed to be highly evolved. In fact, the author of the exceedingly hard to find first edition of *Diane-She Came From Venus* speaks of her alien friends with high reverence as if they might be God's angels: All over the world an auspicious new day is dawning. A triumphant spiritual victory is soon to be won. Many earthlings will live to see it emblazoned across the morning skies commingled with the dazzling radiance of the sunrise. With trumpets and fanfare the New Age will be ushered in. When that wonderful day arrives those from ON HIGH will descend earthward. They will help to release all the human family to a new octave in living. And He shall send His angels with a great sound of the trumpet, and they shall gather together. His elect from the four winds. . . (Matt. 24: 31.) Unlike the odd looking humanoids and grey aliens of today, the saucer pilots of the contactee era were so human in appearance that it is said they could easily blend in with your average American, walking down the streets of Any Town, USA totally undetected. They were mostly Caucasian looking, had long, wavy, blond hair with piercing blue or green eyes. Most of the contactees were male, but as researcher/blogger Regan Lee points out in her postings at orangeorb.blogspot.com/, Dane Howard was an exception. Her story was perhaps a bit more romantic, a bit more New Age, with its talk of cosmic love from the stars, and its visions of a Marian-like space being who materialized before her as early as 1939. In her part of this historic tome, Dana discusses her transformation from a normal person, to one consumed by universal laws, teleportation, space travel, and things most women of the era would not have had an understanding of or liking for. I would dare say Dana Howard was the Shirley MacLaine of her time! As an example of her prose, Dane expresses her feelings about her trip to our sister planet, either as an astral or physical experience we can only deliberate: During flight we seemed to penetrate many dimensions of abstract space. There was no static. No interference. Then something happened. It was a gentle explosion of colors accompanied by an experience akin to an orgasm of spirit and matter. There was no time after that. No space in the usual connotation of space. All was consciousness.
