### **BuNos! Disposition of World War II USN, USMC and USCG Aircraft Listed by Bureau**

**Number** Douglas E. Campbell, 2012-02-01 A snapshot in time. After thousands of hours of research and data entry over a 35-year period, the information on the disposition of some 25,000 US Navy, US Marine Corps and US Coast Guard aircraft needs to be published. These aircraft mainly represent those built and lost during World War II - between 7 December 1941 and 15 August 1945 - but this book also contains aircraft built before WWII that were lost during WWII or disposed of after WWII (lost during the Korean War, lost on training exercises, sold to private investors, currently located in museums and even some still proudly sitting as gate guards across the US, etc.).

At the Helm of USS America James E. Wise, Jr., Scott Baron, 2014-08-22 Only the best officers are given command of U.S. Navy ships, and only the elite of these are selected for aircraft carriers. The USS America was the third of four Kitty Hawk-class super-carriers. Commissioned in 1965, decommissioned in 1996, she served three times in Vietnam, and once each in Libya, the Persian Gulf and Bosnia. This book profiles the 23 men who commanded the America and her crew of 5,000 during 31 years. Most of them were combat veterans—World War II, Korea, Vietnam, Mayaguez Rescue Operations, Lebanon, Haiti, Libya, Bosnia, and Desert Storm. Four were Naval Academy graduates; seven were test pilots; one became Inspector General of the Navy; one wore both Navy wings and submariner dolphins; and one was a prisoner of war in Vietnam for nearly six years. Two retired as admirals—one was Chief of Naval Operations—five as vice admirals, and 11 as rear admirals. Each profile gives a career account based on official biographies, published memoirs, and interviews with the commanders or their families.

### **Connecting Grammaticalisation** Jens Nørgård-Sørensen, Lars Heltoft, Lene Schøsler, 2011-12-21

This monograph presents a view on grammaticalisation radically different from standard views centering around the cline of grammaticality. Grammar is seen as a complex sign system, and, as a consequence, grammatical change always comprises semantic change. What unites morphology, topology (word order), constructional syntax and other grammatical subsystems is their paradigmatic organisation. The traditional concept of an inflexional paradigm is generalised as the structuring principle of grammar. Grammatical change involves paradigmatic restructuring, and in the process of grammatical change morphological, topological and constructional paradigms often connect to form complex paradigms. The book introduces the concept of connecting grammaticalisation to describe the formation, restructuring and dismantling of such complex paradigms. Drawing primarily on data from Germanic, Romance and Slavic languages, the book offers both a broad general discussion of theoretical issues (part one) and three case studies (part two).

Tailhook, Eagles in Flight Randy W. Baumgardner, 1998 Understanding the role of women in Latin American history demands a full examination of their activities in the region's political, economic, and domestic spheres. Toward this end, historian Gertrude M. Yeager has assembled the multidisciplinary collection *Confronting Change, Challenging Tradition*. The essays in this volume explore the ways in which Latin American women have shaped-and have been shaped by-the traditional practices and ideologies of their cultures. The selections are arranged in two sections: Culture and the Status of

Women, and Reconstructing the Past.

*Studies in Aramaic Poetry (c. 100 B.C.E.-c. 600 C.E.)* Rodrigues Pereira,2018-07-17 The paucity of material, which has limited the study of Aramaic for too long, is gradually being alleviated. An ever growing body of well-edited texts is being made available to the scholarly world. These publications have provoked a number of important and penetrating linguistical and grammatical studies. Generally, however, corresponding literary studies of these texts are still lacking. The present work is an attempt to add a literary approach to the earlier analyses. The study deals with Aramaic poetry of the period between c. 100 B.C.E. and c. 600 C.E. The discussion of the textual material is organized in a number of levels, one superimposed upon the other. The basis is formed by a close exegetical and literary reading of the poems to elucidate essential elements of content, style and form. Particular attention is paid to structure and composition as a function of the content of the poems, and to the use made by the poets of stylistic devices as structural elements.
