**The Last Valkyrie** Lionel Roberts, 1961

*Forged* A.J. Flowers, My sister blew our entire budget on a Porsche. I get it. Valkyries like to make their appearances in style, but I'm supposed to start my first day as a high school student with nothing to eat. All because my sister wanted a fancy ride. It doesn't matter if I'm really a Valkyrie on a mission to reap my first soul. None of my training

prepared me for what life as a human teenager would really be like. Not the boys, the pool parties, or the dead bodies lining up in my wake. This was supposed to be a simple job. Befriend the hottest swimmer on the team. Become his girlfriend, and then take his soul straight to Valhalla. Except I can't do it. I can't take his life. I better become the Valkyrie my sister expects me to be, or I'll be forged into something entirely new. Forged is a YA Fantasy 3-book complete collection ready to binge read! This series includes a love triangle where she will pick one love interest by the end.

*The Valkyrie Genesis* David Pauw, 2021-06-29 Peace was short-lived after the long and bloody War of Ascension: the victors once again ravaged the galaxy as the patriarch of the Condor legions sought power for himself, threatening the galactic systems with civil war and a new dictatorship, as the systems loyal to his control rose up to expand their territory. Now, the Galactic Terran Space Command (GTSC) has risen up to defend their way of life and restore order to the colonies - but the GTSC is at breaking point after a decade of fighting. When a returning long-range Special Operations cruiser accidentally identifies a major security threat, a fleet is hastily assembled to launch a covert operation. Control of the newfound system could mean the turning point of the war as it swings in the balance of victory and defeat. In this monumental campaign, legends are forged through desperate deeds when those who are destined to die, refuse to. A small band of pilots hold the skies above the blood bath below: the Valkyries rise from the ashes! *Valkyrie Genesis: Face of Invasion*, the first book in the *Valkyrie Chronicles* series, introduces the band of pilots who form the core of a new elite squadron defending the skies against enemy forces. Through the trials of combat, they become a family. Valkyrie faces emerge through the fog of war as

blood becomes thicker than water.

**The Valkyrie Hybrid Class [Pfrpg/5e]** Aaron Hollingsworth, Mark Hart, Brian Berg, 2018-02 In rough-hewn worlds shaped by the mighty blows of rival gods, the most a warrior can hope for is a meaningful death. For ages uncounted, the Valkyrie have born these heroic souls to godly realms for divine reward and have even aided such mortals in times of unbalanced strife. Yet as wars the world over swell in magnitude, more Valkyrie are needed to become the Choosers of the Slain. Among the worthiest of mortals, new

Valkyrie are being recruited and empowered to stem the tide of crushing defeat. Their hearts beat like great wings on stormy winds. They move with a swiftness unhindered by vestments of steel. They vanquish foes with the unlocked powers of rage and use divinely granted magic to aid their allies to victory! The valkyrie class is a hybrid class for the Pathfinder RPG (with adaptations for 5E) that reforges shards of the unchained barbarian, the paladin, and the Bestiary valkyrie into a martial class of brutal glory and glorious fury. This sourcebook comes complete with a new class and abilities, archetypes, favored class options, as well as an expanded mythology on where the Valkyrie came from and how they serve the various deities. Onward to glory!

*The Valkyrie Profiles* K. Daniels, 2013-01-11 Vladia Robespierre, newest member of Earth's prestigious Valkyrie Squad, has always struggled to conceal and come to terms with her unfortunate childhood. She and her charismatic half-brother were raised outside the State Rearing Facilities, making normal Terrans afraid to even touch such 'disease ridden, blood babies'. But when war breaks out between Earth and the Lunar Colonies, Vladia finds herself consumed by a far greater danger: the destruction of every one and thing she holds dear. Faced with declassification and death, Vladia seeks an unlikely ally in the squad's robot, Rehel, as she resists the reality that a reign of tyranny looms near- not at the hands of Earth or Luna, but of her own brother's. Set in the not too distant future, *The Valkyrie Profiles* is the first in a trilogy that examines the technological and governmental influences on the degeneration of human relations and the elitism of class division. Although Earth is militaristically strong, its social and cultural collapse has become a disease that now threatens to take down the entire solar system.
