Thankful Elaine Vickers,2021-09-07 Stunning, diorama illustrations bring to life this “wonderfully evocative” (BookPage) lullaby of a picture book about celebrating everyday things that make life wonderful. I am thankful for a home where I am safe and warm. Thankful for parents who read me stories and comb my hair gently, gently. Who whisper the same poem every night when they tuck me in. When the first snow falls, a little girl writes down the things she’s thankful for on strips of paper and links them together. As one idea leads to another, her chain grows longer. There’s so much good in her life: a friend, things that are warm, things that are cold, color, things that can be fixed. This beautiful story is a much-needed reminder to observe and honor life’s small joys.

Fadeaway E. B. Vickers,2021-03-23 When a high school basketball star goes missing, a town's secrets are exposed in this edge-of-your seat, addictive read. At 8:53 pm, thousands of people watched as Jake Foster secured the state title for his basketball team with his signature fadeaway. But by the next morning, he's disappeared without a trace. Nobody has any idea where he is: not his best friend who knows him better than anyone else, not his ex-girlfriend who may still have feelings for him, not even his little brother who never expected Jake to abandon him. Rumors abound regarding Jake's whereabouts. Was he abducted? Did he run away to try to take his game to the next level? Or is it something else, something darker--something they should have seen coming? Told from the points of view of those closest to Jake, this gripping, suspenseful novel reminds us that the people we think we know best are sometimes hiding the most painful secrets.

Vickers Guide Larry Vickers,James Rupley,2015-07-01 Formally adopted by the U.S. Army in 1911 and continuing in service for over 100 years, the Government Model 1911 pistol has undergone remarkably few changes throughout its long history yet remains relevant today. Known by many simply as America's Pistol, the 1911 has been trusted by soldiers on battlefields spanning two centuries, carried by law enforcement, refined in small custom shops across the U.S., and revered by firearms enthusiasts and collectors as a work of art. Larry Vickers - renown combat veteran, firearms instructor and small arms expert - takes you on a one of a kind tour of some of history's finest examples of the 1911, as he shares pistols from his own personal collection as well as those of his friends and other firearms specialists. Along the way, he gives the reader a glimpse into the secretive world of U.S. Special Operations weapons development, highlights the details of some of history's most valued production and custom guns, and opens the door to premiere 1911 builders and custom shops. Included are rare and unique pistols made by Colt, Kimber, Pachmayr, Springfield Armory, STI, Wilson Combat, and a number of custom builders such as Jason Burton, Jim Garthwaite, John Harrison, Richard Heinie, Paul Liebenberg, Steve Nastoff, Wayne Novak, Armand Swenson and Larry Vickers. Additional insight is provided by firearms expert and instructor Ken Hackathorn, world champion shooter Rob Leatham and custom builder Jason Burton.Vickers Guide: 1911 presents this highly curated collection of 1911 handguns in never before seen detail on larger than life, wide format, full color prints in a linen covered hardback. Vickers Guide: 1911 is the next best thing to having these exceptional collector's grade handguns in your own personal collection, and is a must-have for any serious firearms enthusiast. Secret World of Vickers Guided John Forbat,2012-05-30 Based on the author's own involvement as an engineer at the company through the 1950s and early 1960s and on more recent research of the archives at Brooklands Museum and the PRO, this book explains the successes and failures of leading-edge developments at Vickers, in the early days of guided weapons. John Forbat explains missile and avionics systems and trials, with diagrams and photographs, and tells the story of the company and its individuals. Projects covered in depth include Red Rapier, Blue Boar, Red Dean and Vigilant anti-tank missile, of which the author has first-hand experience as he started working for Vickers as a graduate apprentice assembling airplanes and soon graduated into Special Projects where he was responsible for many of the trials.

Vickers Wellington Units of Bomber Command Michael Napier,2020-07-23 The Vickers Wellington was one of very few aircraft types to have been in production and frontline service throughout World War II, and more than 10,000 Wellingtons were built in the period. They took part in the first RAF bombing mission of the conflict when, on 4 September 1939, 14 examples from Nos 9 and 149 Sqns undertook a daring daylight attack on the Kiel Canal. However, after suffering high losses on follow-up raids, Wellingtons were withdrawn from daytime missions and began to operate at night from May 1940. They subsequently took part in raids against the Italian port city of Genoa in July 1940, and against Berlin the following month, followed by key missions in the 'Battle of the Barges' in September and October, as the RAF targeted the Germany's invasion fleet being assembled in French Channel ports. When RAF's strike force expanded the next year following the introduction of the improved Wellington II, the 21 squadrons equipped with the Vickers aircraft, which included Polish-, Canadian- and Australian-manned units, formed the backbone of the Bomber Command night bombing force. Over the next two years Wellingtons participated in all the major operations by Bomber Command, including the daylight raid against German battleships in Brest harbour in July 1942 and the first three 'Thousand Bomber' raids in the summer of 1942. This illustrated study explores the design, development, and deployment of the Vickers-Wellington type, charting its role in World War II from its earliest missions to its use in training after its withdrawal from frontline bomber missions in 1943. The text is supported by stunning full-colour artwork.

Farmers and Fishermen Daniel Vickers,2014-01-01 Daniel Vickers examines the shifting labor strategies used by colonists as New England evolved from a string of frontier settlements to a mature society on the brink of industrialization. Lacking a means to purchase slaves or hire help, seventeenth-century settlers adapted the labor systems of Europe to cope with the shortages of capital and workers they encountered on the edge of the wilderness. As their world developed, changes in labor arrangements paved the way for the economic transformations of the nineteenth century. By reconstructing the work experiences of thousands of farmers and fishermen in eastern Massachusetts, Vickers identifies who worked for whom and under what terms. Seventeenth-century farmers, for example, maintained patriarchal control over their sons largely to assure themselves of a labor

force. The first generation of fish merchants relied on a system of clientage that bound poor fishermen to deliver their hauls in exchange for goods. Toward the end of the colonial period, land scarcity forced farmers and fishermen to search for ways to support themselves through wage employment and home manufacture. Out of these adjustments, says Vickers, emerged a labor market sufficient for industrialization.

Herron Island, Washington Marques Vickers,2017-05-06 Marques Vickers’ “Herron Island, Washington” is a photographic survey showcasing the diminutive island with a land area of 300 acres and population of 150. Located along the Case Inlet of Southern Puget Sound, the island’s dimensions are estimated at one and a quarter miles in length by one half mile in width. Vickers’ nearly 150 images capture the prominent north and south coastline beaches, interior residential terrain and roundtrip ferry transfers from the mainland peninsula. The island is abundant with deer, eagles, seals, seagulls, Pacific geoducks (large clams), beach, flora, fauna and spectacular views of the Puget Sound straits. Despite Herron Island’s luster, safety and tranquility, it remains virtually unknown to western Washington residents and beyond. Herron Island was initially discovered in 1792 as part of Lieutenant Peter Puget’s expedition, under the command of Captain George Vancouver. The original landing party was greeted with inhospitable weather conditions and the island remained unoccupied for nearly fifty years. An American naval exploration party led by Lieutenant Charles Wilkes re-explored and re-charted Puget Sound including the island in 1841. The island’s name was changed from Wednesday Island to Herron Island in recognition of one of Wilkes’ crew members. Little background has been documented about Seamon Herron. Another century passed with reportedly only a sole caretaker habitant. The island was privately purchased during the 1950s. Herron Island was incorporated on April 30, 1958 as a non-profit, non-stock Washington Corporation composed of the owners and purchasers of island property. Buildable lots were partitioned and resold for development. The island is currently self-sustaining and does not receive local, state or federal funding. Over the decades, the interior has been graded and roads connect the island throughout. A community building, fire station and water system has been established for residents. Access to the island is available exclusively via a daily operating ferry and limited by invitation only from an island resident most of the year. The crossing requires approximately ten minutes to the mainland dock.
