**The Village Chief** Steve Cleland,2020-02-25 IT TAKES A VILLAGE... It takes a village to coach youth sports. If you're the head coach, your role is village chief. You are responsible for bringing out the best in you, the assistant coaches, the parents, and the league, to help teach young people to work together. Coach Steve Cleland has coached youth sports teams for three decades, winning a few trophies and accolades along the way. In this practical and easy-to-apply book, Coach Cleland shows you how to become your village's chief, and why that role leads to the most positive outcomes for all. He covers winning on and off the field, showing you what it takes to make a difference in each team member's life. His guidance is tried-and-true, and he has helped dozens of teams of all ages across North America. Whether you coach five-year-olds on a neighborhood soccer team, an All-Star team of ten-year-olds, or sixteen-year-olds on a travel team, this book has everything you need to become the chief your village needs.

**The Authorship of Place** Dennis Lo,2020-09-14 The Authorship of Place is the first monograph dedicated to the study of the politics, history, aesthetics, and practices of location shooting for Taiwanese, Mainland Chinese, and coproduced art cinemas shot in rural communities since the late

1970s. Dennis Lo argues that rural location shooting, beyond serving aesthetic and technical needs, constitutes practices of cultural survival in a region beset with disruptive and disorienting social changes, including rapid urbanization, geopolitical shifts, and ecological crises. In response to these social changes, auteurs like Hou Xiaoxian, Jia Zhangke, Chen Kaige, and Li Xing engaged in location shooting to transform sites of film production into symbolically meaningful places of collective memories and aspirations. These production practices ultimately enabled auteurs to experiment with imagining Taiwanese, Mainland Chinese, and cross-strait communities in novel and contentious ways. Deftly guiding readers on a cross-strait tour of prominent shooting locations for the New Chinese Cinemas, this book shows how auteurs sought out their disappearing cultural heritage by reenacting lived experiences of nation building, homecoming, and cultural salvage while shooting on-location. This was an especially daunting task when auteurs encountered the shooting locations as spaces of unresolved historical, social, and geopolitical contestations, tensions which were only intensified by the impact of filmmaking on rural communities. This book demonstrates how these complex circumstances surrounding location shooting were pivotal in shaping both representations of the rural on-screen, as well as the production communities, institutions, and industries off-screen. Informed by cutting-edge perspectives in cultural geography and media anthropology, *The Authorship of Place* both revises

Chinese-language film history and theorizes groundbreaking approaches for investigating the cultural politics of film authorship and production. "This extraordinary book discusses the uses of location shooting in films by contemporary Taiwanese and Mainland Chinese directors ranging from Li Xing to Jia Zhangke. It highlights the ways in which place, memory, and identity stances respond to social changes and geopolitical disparities. In a world full of uncertainty, the argument about the imaginary homeland as an experienced cinematic reality only renders it more urgent and universally relatable." –Ping-hui Liao, University of California, San Diego "The Authorship of Place is certainly a welcome intervention into the study of Chinese cinemas and their auteurs that further contributes to the wider study of location shooting as well as cultural geographies and place-based imaginaries of film. It is rare to find a book dealing with space/place in and around cinema that is this inventive and nuanced in its methodologies."

**The 'Bedes' of Bengal** Carmen Brandt ,2018-09 In the Bengali speaking regions of Bangladesh and India, the Bengali term bede today often evokes stereotypical imaginations of itinerant people. Of highly contested origin, the term has in the last two hundred years become the pivotal element for categorising and portraying diverse service nomads of the Bengal region. Besides an analysis of their portrayal in ethnographic and Bengali fictional literature, this book traces causes, reasons, and processes that have led to an increasing perception of these so-called 'Bedes' as being ethnically different from the sedentary majority population.
