The KGB's Poison Factory Boris

Volodarsky, 2013-11-30 “A cracking good read” and a chilling true story of Russia’s assassination program begun more than a century ago and which continues today (Tennent H. Bagley, former CIA chief of Soviet Bloc counterintelligence). In late November 2006, Alexander Litvinenko—a former lieutenant colonel of the Federal Security Service of the Russian Federation—was ruthlessly assassinated in London by radiation poisoning. The shocking murder was the most notorious crime committed by the Russian intelligence on foreign soil in more than three decades. Here, former Russian military intelligence officer and an international expert in special operations Boris Volodarsky—who was consulted by the Metropolitan Police during the Litvinenko investigation—offers readers a startling narrative of the Russian security services’ history of covert assassination by poisoning. Beginning in 1917 with Lenin and his dreaded Cheka secret police, Russian security services have committed killing after killing both in Russia and across the globe. In *The KGB’s Poison Factory*, Volodarsky proves that the Litvinenko’s poisoning—supposedly ordered by Russian strongman Vladimir Putin—is just one episode in a chain of murders going back decades. Some of these assassinations or attempted assassinations are already known, others are revealed here for the first time. With keen insight, Volodarsky brings readers inside the assassinations of

twenty individuals killed by order of the Kremlin in a revealing tell-all that “will fascinate students as well as general readers interested in international espionage” (Library Journal).

Raising Red Flags N.R. Jenzen-Jones, Jonathan Ferguson, 2014-11-18 This report examines the significant range of arms and munitions carried and employed throughout the conflict by armed individuals on all sides. It also examines, somewhat less extensively, the range of armoured vehicles and aircraft observed in the conflict. This report examines over 100 distinct weapons systems, over 60 different types of munitions, and over 70 different models of armoured fighting vehicles, as well as miscellaneous associated materiel, in the context of the ongoing conflict in Ukraine. Particular attention is paid to items which may indicate flows of arms and munitions into and within the affected areas of Ukraine. Beginning with an assessment of the arms and munitions employed during the initial unrest in Kiev, in February 2012, the report documents relevant materiel up until the time of publication

Frontier Fury Don Pendleton,2010-03-01 A covert airdrop lands Mack Bolan inside the brutal northern Pakistan border territory. From deep within a terrorist cell an informant has leaked crucial information to Stony Man Farm. He knows the location of two of the highest-ranking members of al Qaeda. They are the most wanted men in the world, and they've spent years dodging American troops and plotting further attacks worldwide. Now Bolan is in hostile territory on a mission to eliminate men who will stop at nothing in pursuit of vengeance. And he faces government troops determined to protect the terrorists. With time running out and the enemy closing in, the Executioner must do what no one else has—settle the score.

Assassins Boris Volodarsky,2020-02-19 In November 1998, Alexander Litvinenko, a former Lieutenant Colonel of the Russian security service or FSB, along with several former colleagues, publicly stated that their superiors had instigated an assassination attempt on a Russian tycoon and oligarch. Following his subsequent arrest and failed trials, Litvinenko fled to London where, having been granted asylum, he worked as a journalist and writer, as well as acting as a consultant for the British intelligence services. Eight years later, Litvinenko's past caught up

with him when he was assassinated in London. It was on 1 November 2006 that Litvinenko was suddenly taken ill – so serious was his condition that he was hospitalised. He passed away twenty-two days later. Significant amounts of a rare and highly toxic element were subsequently found in his body. Before his death, Litvinenko had said: “You may succeed in silencing one man but the howl of protest from around the world, Mr Putin, will reverberate in your ears for the rest of your life.” In this examination of the events surrounding Litvinenko’s murder, the author, Boris Volodarsky, who was consulted by the Metropolitan Police during the investigation and remains in close contact with Litvinenko’s widow, details the events surrounding the assassination. He brings the story up to date, referring to the findings of the official British inquiry, on the release of which Prime Minister David Cameron condemned Putin for presiding over “state sponsored murder”. The author proves that the Litvinenko’s poisoning is just one of many. Some of these assassinations or attempted assassinations are already known; others are revealed by him for the first time.

Rebel Trade Don Pendleton, 2012-05-01 A red flag goes up in Washington after pirates murder the innocent crew of a U.S. merchant vessel off the coast of Namibia. Backed by certain authorities and protected from the law, the African rebel group behind the attack believes they are untouchable...but Mack Bolan is about to change that. Sent in to restore balance, Bolan is on a seek-and-destroy mission—eliminate the key players one at a time and burn the organization to the ground. But victory will be no easy feat, as the rebel leader, with no intention of surrendering, quickly calls in reinforcements. Yet the group makes one fatal error—not seeing the Executioner coming.

U.S. Navy Iraq And Afghanistan UXO EOD

Ordnance Identification Guides , The Naval EOD Technology Division (NAVEODTECHDIV) released the Iraq And Afghanistan Ordnance Identification Guides in support of the U.S. Department of Defense humanitarian mine action program. These guide provides information to facilitate international unexploded ordnance (UXO) awareness and identification. These Guides are not intended for use by Explosive Ordnance Disposal (EOD) technicians. Rather, it is designed for other personnel who, of necessity, are trying to identify ordnance in the absence of trained EOD military professionals. They are categorized by major UXO categories, with each section classifying and providing descriptions of specific UXO. These Guides provides detailed information on the following: Bombs Dispensers, clusters and launchers Projectiles Fuzes/firing devices Grenades Rockets Guided missiles Landmines Pyrotechnics Miscellaneous explosive devices Naval mines Depth charges/underwater UXO Scatterables Weapon systems

Road of Bones Don Pendleton, 2012-04-01 Dispatched on a high-priority search-and-rescue mission, Mack Bolan becomes a moving target in the cold heart of Siberia. He's on a motorcycle hell ride along a thousand miles of broken, battered highway. Known as the Road of Bones, it's a mass grave to thousands of slave laborers buried during Stalin's iron rule. A defecting Russian intelligence agent's testimony stands to aim heavy artillery at Russian mobsters in America. To silence her, a hunter-killer team of secret police and gangsters engage in hot pursuit. The enemy has the edge: manpower, weapons and homefield advantage. For Bolan, it's a one-way trip on an open road effectively sealed at both ends by death squads. Every mile survived brings them both either closer to freedom...or ultimate doom.

Cuadernos Ucrainianos. Diario de una invasión

Igort,2023-03-16 Igort, autor de Cuadernos rusos y ucranianos, presenta un emotivo y necesario reportaje gráfico sobre la actual guerra ruso-ucrainiana. Tras arrojar luz sobre el origen y los motivos del conflicto en Cuadernos ucranianos y rusos. Vida y muerte bajo el régimen soviético (Salamandra, 2020), obra premiada internacionalmente, Igort aborda ahora la inevitable continuación de esta primera parte en Cuadernos ucranianos. Diario de una invasión. En este segundo reportaje gráfico, el autor traduce en imágenes el registro de decenas de llamadas telefónicas que mantiene a diario con testimonios de la guerra, que le hablan de la vida de penurias y privaciones, de la pesadilla y del horror, de su nueva realidad. Cuadernos ucranianos. Diario de una invasión es un esfuerzo periodístico formidable y a la vez un homenaje conmovedor a las víctimas anónimas de un conflicto desgarrador.

Bogatír Melinda Ivanov, 2020-01-28 26 600 halott. 30 000 sebesült. Egy háború, ami romlásba döntötte a Szovjetuniót, és mindörökre megváltoztatta a világrendet. Egy parasztfiúból lett sorkatona, aki Afganisztánban megtanulta, hogy a szovjet harcos nem hátrál, nem alkuszik, nem kér, és nem ad kegyelmet. Az ellenség tanította meg a túlélésre azzal, hogy mindent elveszt tőle, amit szeretett; így nem maradt más neki, csak amiben hitt – a saját becsülete. Szovjetnek hős; az afgánoknak gyilkos. Egyetlen szóval: bogatír.
