*Vorpal Blade* John Ringo, Travis S. Taylor, 2007-09-01 TO THE STARS<sup>3</sup>/<sub>4</sub> WITH GUNS AND DUCT TAPE LTC William Weaver, PhD. (Call me Bill...) and SEAL Chief Miller, the heroes who saved Earth from alien menace in *Into the Looking Glass*, are back and this time Bill's got himself a ship! The former SSBN Nebraska has been converted, using mostly shade-tree mechanics and baling wire, into a warp ship, Naval Construction Contract 4144, ready to go where no Adar, SEAL or academic has gone before! Yay for the heroes! But who cares for the poor Security guys, Force Recon Marines who are kept in the dark and fed manure all day That is until they land on an alien planet, get partially wiped out and then load back up again. It's a dog's life in the Space Marines but somebody's got to save the academics and the universe<sup>3</sup>/<sub>4</sub> at the cost of horrendous casualties. Ranging in topics from the best gun to kill armored space monsters to particle physics to cosmology, *Vorpal Blade* is a return to the good old days of SF when the science problems were fun, the women were smart, tough and beautiful, and the beasts were ugly. The monkeys are out in the space lanes and ready to rock. As soon as they find the duct tape. At the publisher's request, this title is sold without DRM (Digital Rights Management).

nightmares of the dreadful killings, takes the lead in their desperate search to put an end to the bloodshed and puts herself in extreme danger...

**Into the Looking Glass** John Ringo,2005-06-01 WORST TWO OUT OF THREE When a 60 kiloton nuclear explosion destroys the University of Central Florida, terrorism is the first suspect. But terrorists don't generally leave doorways to another world in their wake. Or, rather, a generator of doorways to multiple other worlds. With time of the essence, the Secretary of Defense scrounges up the nearest physicist with a high level security clearance. With doctorates

in everything from nuclear physics to electrical engineering, William Weaver, PhD, is the egghead's egghead. On the other hand, with skills in everything from mountain biking to screaming electric guitar, he's also fast enough and tough enough to survive when the alien gates start disgorging demons. As a snap decision, he appears to be the perfect choice, smart, tough and capable. Now if he could only patch things up with his girlfriend, get his boss off his back and get his cellphone bill paid. Oh, yeah, and figure out why the heck these gates keep opening. Okay, so sometimes he's got priority issues. As the gates spread and evil aliens spread with them, it is up to Weaver and SEAL Command Master Chief Miller to find a way to stop the proliferation and close the hostile gates. The problem being that the only way they can see to save the earth is destroy it. Then there's not going to be any more girlfriends or cellphones or bosses . . . Hmmm... Okay, two out of three of those are bad. They're really, really bad. Bad on toast. Bad like the Pacific is watery. Every day a Monday, bad. One and a half at the very least. Worst two out of three. Gotta prioritize. Guess Weaver and Miller are just gonna have to save the world. At the publisher's request, this title is sold without DRM (Digital Rights Management).

Manxome Foe John Ringo, Travis S. Taylor, 2008-02-01 Startling Innovations. Cool Space Ships. Evil Alien Butt Blasted to Smithereens! Outpost Attack! Gateway HD 36951 lies in ruins. All survivors slaughtered. A single, truncated message sent back to Earth. Something very bad indeed is afoot, and the A.S.S. Vorpall Blade (reanuclear submarine converted to warp-drive space ship) is sent to investigate. But the ferocious, voracious enemy Dreen wait for no man (or other carbon-based lifeform), and the Blade and her crew are soon the only hope for an alien species pushed to the brink of extinction. Turn back and abandon a new ally or face a heavily-armed

Dreen destroyer head on. For the Blade's rough-and-ready crew, it's no contest. And now, with an infusion of technical know-how from humanity's new ally, chaos itself has become a weapon! Claws That Catch John Ringo, Travis S. Taylor, 2008-11-01 The Galaxy at Risk! Humans have come a long ways since the looking glass gates first appeared and an alien menace turned a motley crew of scientists, sailors and force recon Marines into battle-hardened space adventurers. Now with other species running scared, it's up to humans to take the lead and mold a weapon capable of checking the Dreen's galactic cancer that has so far proved unstoppable. Their arsenal A hodge-podge of powerful technologies begged, borrowed and/or looted from across the galaxy and cobbled together on what has to be the strangest ship ever to ply the starways: the good ship Vorpal Blade II! *VORPAL SWORD.* WILL. SWEENEY,2018

Jabberwocky and Other Poems Lewis Carroll,2012-03-05 Includes 38 nonsense verses and parodies: The Walrus and the Carpenter, Father William, My Fancy, A Sea Dirge, Hiawatha's Photographing, The Mad Gardener's Song, Poeta Fit, non Nascitur, and many others.

*Live Free or Die* John Ringo,2023-07-04 Will the People of Earth Bow Down to Alien Overlords—or Will They Fight Back? First Contact Was Friendly When aliens trundled a gate to other worlds into the Solar System, the world reacted with awe, hope, and fear. The first aliens to come through, the Glatun, turned out to be peaceful traders, and the world breathed a sigh of relief. Who Controls the Orbitals, Controls the World When the Horvath came through, they announced their ownership of us by dropping rocks on three cities and gutting them. Since then, they've held Terra as their own personal fiefdom. With their control of the orbitals, there's no way to win and Earth's governments have accepted the status quo. Live Free or Die To free the world from the grip of the Horvath is going to take an unlikely hero. A hero unwilling to back down to alien or human governments, unwilling to live in slavery, and with enough hubris, if not stature, to think he can win. Fortunately, there's Tyler Vernon. And he has bigger plans than just getting rid of the Horvath. *Troy Rising* is a book in three parts—Live Free or Die being the first part—detailing the freeing of Earth from alien conquerors, the first steps into space using off-world technologies and the creation of Troy, a thousand-trillion-ton battle station designed to secure the Solar System.

Problem Child (The Sisters Grimm #3) Michael

Buckley,2017-05-02 With the help of a long lost relative, and a little magic, Sabrina Grimm and her sister Daphne try to find out who has

kidnapped their parents and rescue them.

*The Hedgehog and the Fox* Isaiah Berlin, 2013-06-02 The fox knows many things, but the hedgehog knows one big thing. This ancient Greek aphorism, preserved in a fragment from the poet Archilochus, describes the central thesis of Isaiah Berlin's masterly essay on Leo Tolstoy and the philosophy of history, the subject of the epilogue to *War and Peace*. Although there have been many interpretations of the adage, Berlin uses it to mark a fundamental distinction between human beings who are fascinated by the infinite variety of things and those who relate everything to a central, all-embracing system. Applied to Tolstoy, the saying illuminates a paradox that helps explain his philosophy of history: Tolstoy was a fox, but believed in being a hedgehog. One of Berlin's most celebrated works, this extraordinary essay offers profound insights about Tolstoy, historical understanding, and human psychology. This new edition features a revised text that supplants all previous versions, English translations of the many passages in foreign languages, a new foreword in which Berlin biographer Michael Ignatieff explains the enduring appeal of Berlin's essay, and a new appendix that provides rich context, including excerpts from reviews and Berlin's letters, as well as a startling new interpretation of Archilochus's epigram.

*Lewis Carroll* Lewis Carroll, 2000 With fantastic characters and enchanting language, Lewis Carroll created magical wonderlands children have always loved to visit. These 26 selections from his classic works have never lost their fascination. Softly realistic, period-style watercolors effectively highlight the mood of each selection....vocabulary or context notes on just about every page, and the book opens with a brief but illuminating biography.--School Library Journal. The illustrations are well-matched to Carroll's texts.

Colorful watercolors provide plenty of action and excitement on every page.--Lorgnette.

**The Astonishment of Words** Victor Proetz, 1972-01-01 One, two! one, two! And through and through The vorpal blade went snicker-snack! He left it dead, and with its head He went galumphing back. Un deux, un deux, par le milieu, Le glaive vorpal fait pat-à-pan! La bête défaite, avec sa tête, Il rentre gallomphant. Eins, Zwei! Eins, Zwei! Und durch und durch Seins vorpals Schwert zerschniferschnück. Da blieb es todt! Er, Kopf in Hand, Geläufig zog zurück! The late Victor Proetz was by vocation a visual artist who created many distinguished architectural and decorative designs. His favorite avocation, however, was to explore the possibilities (and impossibilities) of words, especially words in translation, and to share his discoveries. As Alastair Reid says in his foreword, He turned words over in his head, he listened to them, he unraveled them, he looked them up, he played with them, he passed them on like presents, all with an unjaded astonishment. What, Proetz wondered, do some of the familiar and not-so-familiar works of English and American literature sound like in French? In German? How, he asked, do you say 'Yankee Doodle' in French—if you can? And How do they say 'Hounyhnhnm' and 'Cheshire Cat' and things like that in German? And, in either language, How, in God's name, can you possibly say 'There she blows!'? This book, unfortunately left incomplete on his death in 1966, contains many of his answers. They are given not only in the assembled texts and translations but also in his wry, curious, sometimes hilarious commentaries. None of it is scholarly in any formal, academic sense—and yet, Reid reminds us, his is precisely the kind of enthusiastic curiosity that gives scholarship its pointers.

Von Neumann's War John Ringo, Travis S. Taylor, 2006-05-01

Somebody was testing a planet-killing weapon on Mars<sup>¾</sup> and the next target was Earth Mars is the staging ground. Earth is the target. A storm of invasion gathers as the Red Planet pales and Earth scientists \_ amateurs and professionals alike \_ race to discover what it portends. Worse news: the horde of self-replicating probes suspected as the cause \_ implacable and all-consuming in its own right \_ may be only the tip of a full-scale assault. Ideas <sup>¾</sup> the only useful weapon when facing an adversary an order of magnitude more advanced than you are. But against such an enemy, thought without action is as futile as war-making without a plan. Humanity's hope? The \_straddlersÓ: intelligent soldiers who know their science <sup>¾</sup> and fighting scientists who have no scruples about using their smarts to kick some alien butt. Yet even with the right people finally on the job, the hour is late. For Mars glows red again. And the swarm is nearly upon us! At the publisher's request, this title is sold without DRM (Digital Rights Management). Multiple New York Times and USA Today best-seller John Ringo rocks our world as hard as he did with his ground-breaking Posleen War series, teaming with NASA and DOD scientist Travis S. Taylor, a specialist in advanced propulsion and space telescopes <sup>¾</sup> and popular author of Warp Speed and The Quantum Connection <sup>¾</sup> to usher in a new saga of invasion, resistance and heroism! If Tom Clancy were writing SF, it would read much like John Ringo. <sup>¾</sup>Philadelphia Weekly Press on New York Times best-seller John Ringo. [S]timulating and satisfying speculation.

**Duel Nature** John Conroe, 2012-08-14 Chris and Tanya have been assigned as Coven Rovers, trouble shooters to the supernatural world. Their mission will bring them face to face with wild vamps, powerful

witches [sic] and monsters from the darkest Native American legends. But facing the biggest vampire political event in four centuries will be their greatest test. Mixing Chris' s uncertain temper with cranky old vampires may well be the kiss of death--Cover p. [4].

**March Upcountry** David Weber, John Ringo, 2001-05 Prince Roger MacClintock is heading for a ceremonial appearance when his space ship crashes, stranding him and his guardian Royal Marines on a jungle planet held by enemy forces. To survive, they must trek to the planet's only spaceport, and a spoiled prince must learn to be a man. This is the first volume in a new series by the bestselling author of the Honor Harrington adventures.
