Into the Black Rowland White,2017-05-04 On 12th April 1981 a revolutionary new spacecraft blasted off from Florida on her maiden flight. NASA's Space Shuttle Columbia was the most advanced flying machine ever built -- the high watermark of post-war aviation development. Columbia was a winged rocket plane, the size of an airliner, capable of flying to space and back before being made ready to fly again. She was the world's first real spaceship. Yet less than an hour after Young and Crippen's spectacular departure from the Cape it was clear that all was not well. Tiles designed to protect Columbia from the blowtorch burn of re-entry were missing from the heatshield. If the damage to their ship was too great, the astronauts would be unable to return safely to Earth. But neither they nor mission control possessed any way of knowing. Instead, NASA turned to the National Reconnaissance Office, a spy agency hidden deep inside the Pentagon whose very existence was classified ... Drawing on brand new interviews with astronauts and engineers, archive material and newly declassified documents, Rowland White has pieced together the dramatic untold story of the mission for the first time.

Well of Souls Ilsa J. Bick,2003-11-01 A highly-charged Star Trek tale of a largely unknown ship, captain, and crew, in which the Enterprise-C comes up against mysterious alien forces unleashed by a fledgling crime cartel. For twelve years, Rachel Garrett was captain of the Federation's flagship. But while her exploits as commander of the U.S.S. Enterprise NCC-1701-C are legend, little has been revealed about Garrett, her vessel, or the unusual men and women of her crew. Until now. When the archaeological find of the decade offers possible hints about an earlier Cardassian civilization, it attracts not merely those seeking to quench their thirst for knowledge, but also parties with far less noble interests. Among the latter is the Asfar Qatala, a notorious criminal cartel with a disturbing connection to one of the Enterprise's highest-ranking officers. Now Captain Garrett and her crew are swept into a maelstrom of kidnapping, extortion, and murder. And beneath the surface of the frozen world on which the proto-Cardassian discovery was made, another drama is playing out that will force Garrett to make the most difficult decision of her career.

Enterprise 1701-B from destruction. Aboard the science ship Intrepid II, Captain Spock, commanding some of his old crewmates, must face the loss of his closest friend. But while still in mourning for one friend, he must come to the aid of another. Decades ago, Spock had teamed up with David Rabin, the young son of a Starfleet Captain, to fight an attempted coup on Vulcan that would have turned the planet's people away from the path of logic. Now a Starfleet officer, Captain David Rabin has been assigned to a harsh desert world much like Vulcan, where the Federation is determined to protect the lives of the inhabitants. But Rabin's efforts are being sabotaged and he has asked for Spock's help against the unknown forces that may well destroy the society he had come to save. While reflecting on his youthful adventure with David Rabin, Spock joins with Rabin to face and enemy out of their past and confront deadly Romulan treachery. In the process Spock will decide if the path of his life now leads back toward the family traditions he had once sought to escape.

But the first blood drawn may prove to be among the dearest of all. Let’s keep in mind that without magnetosphere, the atmosphere wouldn’t be thick enough.
