Across four decades, Ross Brawn was one of the most innovative and successful technical directors and then team principals in Formula One. Leading Benetton, Ferrari, Honda, Brawn, and Mercedes, he worked with drivers such as Michael Schumacher, Jenson Button, and Lewis Hamilton to make them world champions. In 2017, he was appointed F1's managing director, motor sports, by the sport's new owners Liberty Media. Now, in this fascinating book written with Adam Parr, who was CEO and then chairman of Williams for five years, he looks back over his career and methods to assess how he did it, and where occasionally he got things wrong. **James Hunt** Gerald Donaldson,2013-01-31 James Hunt was a towering personality with a commanding presence, a hugely glamorous public figure who brought Formula One motor racing to the attention of a whole new audience. Triumphant against all odds to become World Drivers' Champion with

McLaren in 1976, Hunt sank into a period of decadence and depression, only to be rejuvenated as he found true love for the first time. With that came personal contentment and a renewed zest for living, so that one of the most colourful and controversial figures in Grand Prix racing is best remembered by those close to him as a fun-loving, caring man who had a genuinely uplifting presence - qualities that shine through in Gerald Donaldson's compelling and moving account of his life.

*Copersucar-Fittipaldi: The full story of Brazilian Formula-1* Ricardo Sterchele, 2020-01-10  
It documents the events that took place inside and outside the backstage of each Grand Prix from 1975 to 1980 that affected the team's performance on the tracks. It brings a summary of the best articles, articles, interviews, statements and photos presented in journalistic reports published at the time, showing the reader all the effort and overcoming the setbacks that these fearless brothers went through. This is what made them victorious, whose attitudes we must all aim for. They are winners because they managed to let go of financial interests and easy successes to invest all their energies in the realization of a great dream, an ideal. This is the greatest and best example that they set for all our young people today and tomorrow. The purpose of the sponsorship was to show the world that Brazil was not commanded by chiefs or that the Japanese descended from their liners in rowboats to exchange native products for baffles. That in Brazil there was an industrial park and high-tech development centers,

in addition to a brave and fearless people, who are not afraid of adversity. The Fittipaldi brothers showed the world that we, despite the Tupiniquins, can match any enterprise with the same quality and competence as the most developed countries. What we lack is to support our initiatives with respect and patriotism. Demanding victories in such a technologically sophisticated and complex enterprise in the early years, shows that in the field of wisdom and humility we are still underdeveloped.

**Heroes and Contemporaries** Jonathan Aitken, 2006-07-30 *Heroes and Contemporaries* is a book of profiles written with the author's personal insights, anecdotes and judgments on fascinating public figures he encountered in life's journey. Jonathan Aitken was for many years at the heart of British journalism and politics. The early chapters here offer illuminating portraits of historical characters Aitken knew as a young man including Sir Winston Churchill, Randolph Churchill and Lord Beaverbrook, the author's great uncle, who founded the Aitken dynasty of newspaper owners and politicians. In his own career, which took him through 23 years in the House of Commons to the Cabinet, Aitken became close to some of the most intriguing figures in British politics including Harold Wilson; Margaret Thatcher and her family; and Michael Portillo - all profiled in these pages. Jonathan Aitken also enjoyed a colourful personal and business life which ranged wider than politics. This is reflected in the chapters on Sir James Goldsmith, John Aspinall and Sir Frank Williams. During his

prison sentence Aitken was visited by several of his subjects including Lord Longford and Nicky Gumbel. The resulting mixture of these profiles makes a book attractively written biographical studies full of fresh perceptions and revealing stories.

### **The Chequered Past** David Anderson

Charters, 2007-01-01 In the forty-year period between 1951 and 1991, Canadian sports car competition underwent a massive change, transforming itself from an amateur recreational pastime to a commercialized profession and from an individual sport to a spectacle for mass consumption. The Chequered Past is the story of the struggle over power and purpose within the Canadian auto sport that led to this transformation. The first comprehensive history of sports car racing and rallying in Canada, The Chequered Past traces the efforts of the national governing body - the Canadian Auto Sport Clubs (CASC) - to bring its sports car competition up to a 'world class' level, and to manage the consequences of those efforts in the second half of the twentieth century. David Charters traces the social origins of the sport and the major trends that shaped it: professionalism, technological change, rising costs, and the influence of commercial sponsors. Charters argues that while early enthusiasts set the sport on a course toward professionalism that would eventually produce world-class Canadian events and racers, that course would also ultimately change the purpose of the sport: from personal recreation to mass entertainment. As technological

innovations drove up the costs of competing at the top ranks, racers were forced to rely on sponsors, who commercialized and ultimately gained control of the sport. The end result, Charters argues, was the marginalization of the amateur competitor and of the CASC itself. Based on extensive research into the CASC's records and dozens of interviews with former competitors and officials, *The Chequered Past* opens a window into the rich but virtually unknown history of the auto sport, and claims for it a place in Canadian sports history.

*Inspired to Design* Nigel Bennett, 2013-10-15  
Nigel Bennett's unique autobiography describes his life and career, from growing-up influenced by car design, to his education and the building of his 750 specials. He describes his work as Firestone Development Manager, recounting many tales of the outstanding designers and drivers of the period. Detailing his work in Formula 1, as a Team Lotus engineer, and then as Team Ensign designer, he also covers his Indycar designs at Theodore, Lola Cars and Penske Cars. Life after his retirement, his involvement in boat design and with modern F1 teams, are also recounted.

Caesars Palace Grand Prix Randall Cannon, 2021-09-24  
The path of Grand Prix racing in America wound through raceways at Sebring, Riverside, Watkins Glen, Long Beach, and finally Caesars Palace in Las Vegas. At each stop, the influence of organized crime seemed no more than a handshake away. But at Caesars the vast crime syndicate appeared deeply involved in the operations of the luxury-branded resort. The Caesars Palace Grand Prix then culminated in an

unholy alliance of the world capital of gambling, the mob, and the international czar of Formula One. During its four-year run of successive Formula One and CART IndyCar events, the race hosted the biggest names in motorsport--Mario Andretti, Bernie Ecclestone, Roger Penske, Chris Pook, Alan Jones, Nelson Piquet, Niki Lauda, Danny Sullivan, Bobby Rahal and Al Unser among them. The podium celebration of the inaugural Grand Prix put the convergence of alleged organized crime influences and auto racing on public display, while the years that followed provided their own curiosities. This book traces the intertwined threads through decades of accounts, extensive interviews, and the files of the FBI.

**F1 Mavericks** Pete Biro, George Levy, 2019-08-06 F1 Mavericks is the story of the grandest, most influential, and most fondly remembered era in Formula 1 racing as seen through the lens of master motorsports photographer, Pete Biro. The period from 1960 to 1982 saw the greatest technological changes in the history of Formula 1 racing: the transition from front engines to rear engines, narrow-treaded tires, massive racing slicks, zero downforce, and neck-wrenching ground effects--and, of course, a staggering increase in performance and reduction in lap times. In short, the period saw the creation of the modern Formula 1 car. This is also the time when legendary names who defined F1 were out in full force: Jim Clark, Jack Brabham, Dan Gurney, Sir Jackie Stewart, Graham Hill, Niki Lauda, James Hunt, Bruce McLaren, Jody Scheckter. We'll see and meet all of them. But F1 Mavericks also focuses on the

designers and engineers behind the cars—men like Colin Chapman, Sir Patrick Head, Maurice Philippe, Franco Rochhi, Gordon Murray, and many others. We'll hear directly from many of them, including a foreword from 1978 F1 World Champion, Mario Andretti. Every chapter is a photographic account of key races throughout the period, supplemented with sidebars featuring key designers and technologies, like wings, ground effects, slick tires, turbochargers, and the Brabham "fan" suction car. F1 Mavericks is an international story, and includes loads of information on designs from Japan (Honda), Britain (McLaren, Tyrrell, Cooper, BRM) Italy (Ferrari, Maserati, Alfa Romeo), France (Matra, Ligier, Renault), Germany (Porsche, BMW) and the United States (Eagle, Shadow, Penske, Parnelli). Strap yourself in for the story of the greatest era in Formula 1 racing—it's all here in F1 Mavericks.

## **Formula One: Made In Britain** Clive

Couldwell, 2012-05-31 Formula One: Made in Britain is one of Formula One's last untold stories. As a centre of technical excellence for over thirty years. Britain is at the sharp end of the worldwide motor sport industry, and playing ever harder to win. Most of the sport's Grand Prix teams are based in the UK and many of them have British managers and designers who act as a showcase for the UK's skill base - past, present and future. The success of Britain's Formula One industry has gone largely unrecognised outside the close-knit world of the racing aficionado. Now, with Formula One: Made in Britain, Clive Couldwell reveals what makes this industry tick and why many of the world's players choose to come here. He explores Motorsport Valley, an area which covers the south and Midlands of the UK, where 75 per cent of the world's single-seater racing cars are designed and built, and talks to many of F1's leading lights. Winning in F1 depends on innovation and performance-critical engineering, and in this fascinating and insightful book, Clive Couldwell show how UK research and development are leading the world.
