Education and the Cultural Cold War in the Middle East

Mahdi Ganjavi,2023-01-26 The Franklin Book Programs (FBP)

was a private not-for-profit U.S. organization founded in 1952 during the Cold War and was subsidized by the United States' government agencies as well as private corporations. The FBP was initially intended to promote U.S. liberal values, combat Soviet influence and to create appropriate markets for U.S. books in 'Third World' of which the Middle East was an important part, but evolved into an international educational program publishing university textbooks, schoolbooks, and supplementary readings. In Iran, working closely with the Pahlavi regime, its activities included the development of printing, publishing, book

distribution, and bookselling institutions. This book uses archival sources from the FBP, US intelligence agencies and in Iran, to piece together this relationship. Put in the context of wider cultural diplomacy projects operated by the US, it reveals the extent to which the programme shaped Iran's educational system. Together the history of the FBP, its complex network of state and private sector, the role of U.S. librarians, publishers, and academics, and the joint projects the FBP organized in several countries with the help of national ministries of education, financed by U.S. Department of State and U.S. foundations, sheds new light on the long history of education in imperialist social orders, in the context here of the ongoing struggle for influence in the Cold War.

Out of the Pocket Kirk Herbstreit, 2022-08-02 This powerfully intimate, plain-spoken memoir about fathers and sons, fortitude, and football from the face and voice of college football—Kirk Herbstreit—is not just “a window into the game, but also a peek into what makes him special: his heart” (David Shaw, head coach, Stanford University). Kirk Herbstreit is a reflection of the sport he loves, a reflection of his football-crazed home state of Ohio, where he was a high school star and Ohio State captain, and a reflection of another Ohio State football captain thirty-two years earlier: his dad Jim, who battled Alzheimer’s disease until his death in 2016. In *Out of the Pocket*, Herbstreit does what his father did for him: takes you inside the locker rooms, to the practice fields, to the meeting rooms, to the stadiums. Herbstreit describes how a combination of hard work, perseverance, and a little luck landed him on the set of ESPN’s iconic College GameDay show, surrounded by tens of thousands of fans who treat their Saturdays like a football Mardi Gras. He takes you into the television production meetings, on to the GameDay set, and into

the broadcast booth. You'll live his life during a football season, see the things he sees, experience every chaotic twist and turn as the year unfolds. Not to mention the relationships he's established and the insights he's learned from the likes of coaches and players such as Nick Saban, Tim Tebow, Dabo Swinney, and Peyton Manning, as well as his colleagues, including Chris Fowler, Rece Davis, and his "second dad," the beloved Coach Lee Corso. Yes, Kirk Herbstreit is the undeniable face and voice of college football—but he's also a survivor. He's the quiet kid who withstood the collapse of his parents' marriage. The boy who endured too many overbearing stepdads and stepmoms. The painfully shy student who always chose the last desk in the last row of the classroom. The young man who persevered through a frustrating Ohio State playing career. The new college graduate who turned down a lucrative sales job after college to pursue a "no way you'll make it" dream career in broadcasting. Inspiring and powerful, *Out of the Pocket* "proves the importance of perseverance and family" (Peyton Manning).

The Pocket Gopher Theo. H. Scheffer, 1910

Blood in the Forest Vincent Hunt, 2017-05-04 With original research and interviews with survivors, a journalist reveals the brutal yet forgotten battles in Latvia during the final months of WWII. While the eyes of the world were on Hitler's bunker, more than half a million men fought six cataclysmic battles in the fields and forests of Western Latvia known as the Courland Pocket. Just an hour from the capital Riga, German forces bolstered by Latvian Legionnaires were trapped with their backs to the Baltic. Forced into uniform by Nazi and Soviet occupiers, Latvians fought Latvian - sometimes brother against brother. Hundreds of thousands of men died for little territorial gain in unimaginable slaughter. When the Germans capitulated, thousands of Latvians continued a war against Soviet rule from the forests for years afterwards. An award-winning documentary journalist, Vincent Hunt travels through the modern landscape gathering eye-

witness accounts, piecing together the stories of those who survived. He meets veterans who fought in the Latvian Legion, former partisans and a refugee who fled the Soviet advance to later become President, Vaira Vike-Freiberga. A survivor of the little-known concentration camp at Popervale details his escape from a death march and subsequent survival in the forests with a Soviet partisan group - and a German deserter. With detailed maps and expert contributions alongside rare newspaper archives, photographs from private collections and extracts from diaries translated from Latvian, German and Russian, Hunt assembles a ghastly picture of death and desperation in a nation both gripped by war and at war with itself.

Empire of the Sum: The Rise and Reign of the Pocket Calculator Keith Houston, 2023-08-22 The hidden history of the pocket calculator—a device that ushered in modern mathematics, helped build the atomic bomb, and went with us to the moon—and the mathematicians, designers, and inventors who brought it to life. Starting with hands, abacus, and slide rule, humans have always reached for tools to simplify math. Pocket-sized calculators ushered in modern mathematics, helped build the atomic bomb, took us to the bottom of the ocean, and accompanied us to the moon. The pocket calculator changed our world, until it was supplanted by more modern devices that, in a cruel twist of irony, it helped to create. The calculator is dead; long live the calculator. In this witty mathematic and social history, Keith Houston transports readers from the nascent economies of the ancient world to World War II, where a Jewish engineer calculated for his life at Buchenwald, and into the technological arms race that led to the first affordable electronic pocket calculators. At every turn, Houston is a scholarly, affable guide to this global history of invention. Empire of the Sum will

appeal to math lovers, history buffs, and anyone seeking to understand our trajectory to the computer age.

The Pocket-Size God Robert F. Griffin C.S.C.,2016-03-15 Fr. Robert Griffin, C.S.C. (1925-1999), was a beloved member of the Notre Dame community. With his cocker spaniel, Darby O’Gill, he was instantly recognizable on campus. He was well known for his priestly work counseling students as university chaplain for thirty years, his summer ministry to the homeless and parishioners in New York City, and his weekly columns in the student newspaper, *The Observer*, in which he invited the campus community to reflect with him on the challenges and joys of being Catholic in a time of enormous social and religious change. This collection draws together essays that Griffin wrote for *Notre Dame Magazine* between 1972 and 1994. In them, he considers many of the challenges that beset church and campus, such as the laicization of priests, premarital sex, the erosion of institutional authority, intolerance toward gay people, and failure of fidelity to the teachings of the church. Griffin also ruminates on the distress that human beings experience in the ordinariness of their lives—the difficulty of communication in families, grief over the loss of family and friends, the agonies of isolation, and the need for forgiveness. Griffin’s shrewd insights still ring true for people today. His efforts to temper the winds of institutional rules, cultural change, and personal suffering reveal a mind keenly attuned to the need for understanding human limitations and to the presence of grace in times of change. Griffin quotes from the works of literary modernists, such as Fitzgerald and Hemingway, whose novels and short stories he loved; in these allusions and in his own reflections and experiences, Griffin bridges the spiritual and the secular and offers hope for reconciliation and comfort.

Modernity and the Rise of the Pocket God Jonathan J. Mize,2021-08-16 *Modernity and the Rise of the Pocket God* explores the relationship between modern religion and ancient values. Journey through the bucolic fields of the ancient villager, en route to the concrete jungles and splendid skylines of the modern city-goer. See what wedded the ancient believer to his God and his fellow believers. Then glimpse the growing chasm between the modern believer, her society, and her Father. And, in the end, see what us modern folks can do to attain an ancient-like communion with the Lord.

The Pocket Book of British Patriotism George Courtauld,2005-05-21 In late 2004 in Britain, a little, self-published book called *The Pocket Book of Patriotism* created a publishing sensation in the United Kingdom. Rejected by every major British publisher because patriotism is an obsolete concept. Written initially for his own three boys, Courtauld was appalled that British children didn't know basic facts of their history and set out to create a simple book that would make his children proud of their heritage. The result, *The Pocket Book of Patriotism*, is a bare-bones, uniquely British timeline of historic events, with no judgement or padding, brought to life by soul-stirring quotations and placing British history along side the rest of the world in a simple history chart. From Stonehenge 2000 BC to the England rugby team's World Cup triumph in 2003, *The Pocket Book of Patriotism* contains the essential dates, quotes and speeches of British history. from the publisher.
