Tom Swift Lives! the Mystery Comet Scott Dickerson, 2018-11-29

THE LIGHTS IN THE SKY ARE BEACONS OF MYSTERY! A

comet from the far depths of interstellar space has entered the solar system--a scientific event without precedent. As Comet Tarski begins to cross the orbit of the earth, Tom Swift makes plans for a visit in his mighty spaceship Challenger, equipped with his new invention, the telesampler. The launch into space is endangered by an inexplicable occurrence, waves of unknown energy that distort the fabric of spacetime, threatening the repelatron devices upon which the venture depends and imperiling the vulnerable crew of Swift Enterprises' hydrodome beneath the Atlantic. Is this the work of human foes, the young inventor wonders, or a fantastic natural phenomenon linked to the mystery comet? A German scholar, Dr. Feng, may have the key. Scraps of parchment tell the uncanny tale of the medieval Brothers of Hermes, founders of a school of alchemy whose location has been lost to history. Somehow, incredibly, the alchemists wrote of Comet Tarski centuries before it was visible from Earth--and of the warning of catastrophe given them by the UFO-like Messengers of Light! The pounding pulse of action and mystery never stops, from the moment Tom and Bud discover the Sanctum Never Seen to the stunning climax as Tom's invention reveals a menace only he can defeat! By the author of the YOUNG & SMART series.

The Currents of Space Isaac Asimov, 1985-12-12 High in their fortified city, protected by brutal mercenaries, the Sarkites live in magnificent luxury. Below them, in the eternal Spring of Florina, the most beautiful planet in the Galaxy, the native Florinians labor ceaselessly in dire poverty to produce the precious kyrt fiber that

brings wealth to their masters, the Squires of Sark. Suddenly there is a cryptic warning from space.

Observing Geohazards from Space Francesca Cigna,2018-04-09

This book is a printed edition of the Special Issue Observing Geohazards from Space that was published in Geosciences

Apocalypse Then Mike Bogue,2017-08-31 The United States, the only country to have dropped the bomb, and Japan, the only one to have suffered its devastation, understandably portray the nuclear threat differently on film. American science fiction movies of the 1950s and 1960s generally proclaim that it is possible to put the nuclear genie back in the bottle. Japanese films of the same period assert that once freed the nuclear genie can never again be imprisoned. This book examines genre films from the two countries released between 1951 and 1967--including *Godzilla* (1954), *The Mysterians* (1957), *The Incredible Shrinking Man* (1957), *On the Beach* (1959), *The Last War* (1961) and *Dr. Strangelove* (1964)--to show the view from both sides of the Pacific.

The Oxford Handbook of Space Security P.J. Blount,2023-09-01

Space security is a complex assemblage of societal risks and benefits that result from space-based capabilities and is currently in a period of transformation as innovative processes are rapidly changing the underlying assumptions about stability in the space domain. New space-based technologies are emerging at an accelerating rate, and both established and emerging states are actively and openly pursuing weapons to negate other states' space capabilities. Many states have set up dedicated military space units in order to preemptively counter such threats. In addition, a number of major private companies with a transnational presence are also investing heavily in extraterrestrially-based technology. *The Oxford Handbook of Space Security* focuses on

the interaction between space technology and international and national security processes from an international relations (IR) theory perspective. Saadia M. Pekkanen and P.J. Blount have gathered a group of key scholars who bring a range of analytical and theoretical IR perspectives to assessing space security. The volume theorizes the development and governance of space security and analyzes the specific pressure points currently challenging that regime. Further, it builds an analytically-eclectic understanding of space security, infused with the theory and practice of IR and advances analysis of key states and regions as well as specific capabilities. Space security is currently in a period of great transition as new technologies are emerging and states openly pursue counterspace capabilities. Bringing together scholarship from a group of leading experts, this volume explains how these contemporary changes will affect future security in, from, and through space. Applying lessons from international relations theory and practice and drawing from a range of social science subfields, the Handbook is a definitive work for scholars who study the topic of space security.

Noir Urbanisms Gyan Prakash, 2010-09-27 Dystopic imagery has figured prominently in modern depictions of the urban landscape. The city is often portrayed as a terrifying world of darkness, crisis, and catastrophe. *Noir Urbanisms* traces the history of the modern city through its critical representations in art, cinema, print journalism, literature, sociology, and architecture. It focuses on visual forms of dystopic representation--because the history of the modern city is inseparable from the production and circulation of images--and examines their strengths and limits as urban criticism. Contributors explore dystopic images of the modern city in Germany, Mexico, Japan, India, South Africa, China, and the United States. Their topics

include Weimar representations of urban dystopia in Fritz Lang's 1927 film *Metropolis*; 1960s modernist architecture in Mexico City; Hollywood film noir of the 1940s and 1950s; the recurring fictional destruction of Tokyo in postwar Japan's sci-fi doom culture; the urban fringe in Bombay cinema; fictional explorations of urban dystopia in postapartheid Johannesburg; and Delhi's out-of-control and media-saturated urbanism in the 1980s and 1990s. What emerges in *Noir Urbanisms* is the unsettling and disorienting alchemy between dark representations and the modern urban experience. In addition to the editor, the contributors are David R. Ambaras, James Donald, Rubén Gallo, Anton Kaes, Ranjani Mazumdar, Jennifer Robinson, Mark Shiel, Ravi Sundaram, William M. Tsutsui, and Li Zhang.

The Sci-Fi Movie Guide Chris Barsanti, 2014-09-22 Once upon a time, science fiction was only in the future. It was the stuff of drive-ins and cheap double-bills. Then, with the ever-increasing rush of new, society-altering technologies, science fiction pushed its way to the present, and it busted out of the genre ghetto of science fiction and barged its way into the mainstream. What used to be mere fantasy (trips to the moon? Wristwatch radios? Supercomputers capable of learning?) are now everyday reality. Whether nostalgic for the future or fast-forwarding to the present, *The Sci-Fi Movie Guide: The Universe of Film from Alien to Zardoz* covers the broad and widening range of science-fiction movies. From the trashy to the epic, from the classics to today's blockbusters, this cinefile's guidebook reviews nearly 1,000 of the biggest, baddest, and brightest from every age and genre of cinematic and TV science fiction. You'll find more than just *Star Wars*, *Star Trek*, and *Transformers*, with reviews on many overlooked and under-appreciated gems and genres, such as ... • *Monsters!* *Pacific Rim*, *Godzilla*, *The Thing*, *Creature from the Black*

Lagoon • Superheroes: Thor, Iron Man, X-Men, The Amazing Spider-man, Superman • Avant-garde masterpieces: Solaris, 2001, Brazil • and many, many more categories and movies!!

The Encyclopedia of Japanese Horror Films Salvador Jimenez Murguía, 2016-07-29 The Encyclopedia of Japanese Horror Films covers virtually every horror film made in Japan from the past century to date. In addition to entries on productions, both major and modest, this encyclopedia also includes entries for notable directors, producers, and actors. Each film entry includes comprehensive details, situates the film in the context and history of Japanese horror cinema, and includes brief suggestions for further reading. Although emphasizing horror as a general theme, this encyclopedia also encompasses other genres that are associated with this theme, including Comedy Horror, Science Fiction Horror, Cyber-punk Horror, Ero Guru (Erotic Grotesque), and Anime Horror. The Encyclopedia of Japanese Horror Films is a comprehensive reference volume that will appeal to both cinema scholars as well as to the many fans of this popular genre.

New Word Volume 2 Lela Kakulia, 2013-01-25 Hereinafter is my book New word the work unique by its contents and in essence. This is a book of prediction. Years beforehand, I described all those necessary expected political events or natural phenomenon related to the whole world. Most of them have already precisely come true, some of them are now being fulfilled and the rest will come true in future. This is a live cosmic information, new word, that I, Georgian prophet Lela Kakulia, pronounce by Gods will. I was sent to the earth in order to let countries, states, particular politicians or humankind in general know their future. By this means cosmos gave a chance to the universe to soften destined blows and avoid destruction. I predict all

my life, from birth, and will predict till I am on the earth. A prophet is sent by cosmos once in few centuries when the earth faces a special danger, when it is on the edge of the existence. I, Georgian prophet, am sent with the mission to save the world. I bring enormous, protecting energy for people and countries and hand it out with no regret. I often draw cosmic information and my drawings are the source of colossal energy, that fill people with hope and peace. This is the book that would live for ages and give answer to peoples any question. No one on earth owns such information neither particular individual nor analytical centres. My prediction has no analogue and thus is unique. With respect and love, Georgian prophet Lela Kakulia.

Keep Watching the Skies! Bill Warren, 2017-01-12 Bill Warren's *Keep Watching the Skies!* was originally published in two volumes, in 1982 and 1986. It was then greatly expanded in what we called the 21st Century Edition, with new entries on several films and revisions and expansions of the commentary on every film. In addition to a detailed plot synopsis, full cast and credit listings, and an overview of the critical reception of each film, Warren delivers richly informative assessments of the films and a wealth of insights and anecdotes about their making. The book contains 273 photographs (many rare, 35 in color), has seven useful appendices, and concludes with an enormous index. This book is also available in hardcover format (ISBN 978-0-7864-4230-0).

American International Pictures Rob Craig, 2019-02-15 American International Pictures was in many ways the missing link between big-budget Hollywood studios, poverty-row B-movie factories and low-rent exploitation movie distributors. AIP first targeted teen audiences with science fiction, horror and fantasy, but soon grew to encompass many genres and demographics--at times, it was

indistinguishable from many of the major studios. From Abby to Zontar, this filmography lists more than 800 feature films, television series and TV specials by AIP and its partners and subsidiaries. Special attention is given to American International Television (the TV arm of AIP) and an appendix lists the complete AITV catalog. The author also discusses films produced by founders James H. Nicholson and Samuel Z. Arkoff after they left the company.

Postcolonialism and Science Fiction J. Langer, 2011-12-15 Using close readings and thematic studies of contemporary science fiction and postcolonial theory, ranging from discussions of Japanese and Canadian science fiction to a deconstruction of race and (post)colonialism in *World of Warcraft*, This book is the first comprehensive study of the complex and developing relationship between the two areas.

The Handbook of European Defence Policies and Armed Forces Hugo Meijer, Marco Wyss, 2018 This volume provides the first geographically and thematically comprehensive study of the evolution and current state of the national security and defence

policies, strategies, doctrines, capabilities, and military operations, as well as the alliances and security partnerships, of European armed forces.

Walking with Basho Jerry Lagadec, 2014-02 I don't claim to have any profound answers or life changing insights; I'll leave that to others. But I do believe that we need to make an effort to be more present, particularly now when we are becoming so increasingly distracted. This value judgment is about as arrogant as I get, but that's what I notice in so many people today. I did try to be as truthful as possible about how wonderful, ironic, funny, sad, horrible, confusing, unfair, terrifying, ecstatic, and bizarre this life has appeared to me at times. I guess I just tried to verbalize the feelings and thoughts that I believe we've all had when confronted with the stunning mysteries of this existence - the mother of all our adjectives. I'd like to think that anyone could pick up *Walking with Basho* and get something worthwhile out of my Poems, Rambles, and Rants which I've described in the first pages of this book. Perhaps it won't be more than Yeah, that's how I've felt at times myself. I'd be happy with that.
