*Japanese Management: Market Entry, Crisis And Corporate Growth* Parissa Haghirian,2021-02-22 This case book on Japanese companies and multinational corporations in Japan presents 12 entirely new cases studies for academics and business professionals alike. The cases in the book deal with market entry, corporate growth and crisis management of Japanese firms or international firms in Japan. It presents new developments, such as technological changes (electronic payment and gaming) in the Japanese business environment and provides an overview on the diversity of business activities in the Japanese economy. Written in a simple and an accessible manner, this book can be used as a textbook for students of International, Asian or Japanese management or by international managers and business professionals to make business decisions.

**The Big Necessity** Rose George,2009-07-07 One smart book . . . delving deep into the history and implications of a daily act that dare not speak its name. –Newsweek Acclaimed as extraordinary (The New York Times) and a classic (Los Angeles Times), The Big Necessity is on its way to removing the taboo on bodily waste—something common to all and as natural as breathing. We prefer not to talk about it, but we should—even those of us who take care of our business in pristine, sanitary conditions. Disease spread by waste kills more people worldwide every year than any other single cause of death. Even in America, nearly two million people have no access to an indoor toilet. Yet the subject remains unmentionable. Moving from the underground sewers of Paris, London, and New York (an infrastructure disaster waiting to happen) to an Indian slum where ten toilets are shared by 60,000 people, The Big Necessity breaks the silence, revealing everything that matters about how people do—and don't—deal with their own waste. With razor-sharp wit and crusading urgency, mixing levity with gravity, Rose George has turned the subject we like to avoid into a cause with the most serious of consequences.

*Bum Fodder* Richard Smyth,2012-10-01 This is the hidden history of an invention that we use every day but seldom dare to speak of. In medieval China it was cutting-edge technology. For 19th-century Americans it was a newfangled alternative to dried corncobs and the Sears & Roebuck catalogue. Wits in Georgian London preferred pages of bad poetry. The sages of ancient Athens were content to wield the xylospongion instead. It's the tale of toilet paper; the biography of bumfodder. From its origins at the Imperial court of Emperor Hongwu to its reinvention as a quack remedy for haemorrhoids in 1870s New York city; from the Dutch and their mussel-shells to Henry VIII and his Groom of the Stool; from Madame de Prie's pioneering bidet to the space-age Washlet; from leaf-wielding chimpanzees to Mr Thirsty Fiber and the world's first three-adjective loo-roll - it's a story of necessity and invention, luxury and squalor, experiment and tradition. What does a submarine crew do when it runs out of toilet paper? Who stole the Pope's loo-roll? Does printer's ink cause piles? How do you fold a sheet of toilet paper in half more than seven times? What did 'bumphleteers' do, and why? Richard Smyth answers the questions you never thought to ask about the product we can't live without.

**The Guncle** Steven Rowley,2022-06-01 From the author of Lily and the Octopus comes a moving and deeply funny novel about a once-famous sitcom star who is left to care for his niece and nephew after an unexpected family tragedy. Patrick, or Gay Uncle Patrick (GUP for short), has always loved his niece, Maisie, and nephew, Grant. That is, he loves spending time with them ... in small doses, with their parents there to handle the tears and tricky questions. So when tragedy strikes and Patrick finds himself suddenly taking on the role of primary guardian, he is, honestly, overwhelmed. Patrick has no idea what to expect, having spent years barely holding on after the loss of his great love, a stalled acting career, and a lifestyle not-so-suited to young children. But when he realises that parenting isn't solved with treats and jokes, Patrick's eyes are opened to a new sense of responsibility and the realisation that, sometimes, being vulnerable is the only way to heal from grief. Tender, charming and laugh-out-loud funny, The Guncle is a testament to finding happiness and peace in the most trying of times. 'Steven Rowley's The Guncle is a gift. At once funny, charming and heartbreaking, it's that rare novel that will have you laughing out loud, even through tears. I have yet to meet a person who did not love this book.' Sally Hepworth, bestselling author of The Good Sister and The Younger Wife 'A joyous Auntie Mame spritz! A reading pleasure; pour yourself a tall glass and enjoy, preferably poolside. You deserve it!' Andrew Sean Greer, winner of the 2018 Pulitzer Prize for Less

**Innovation, Alliances, and Networks in High-Tech Environments** Fiorenza Belussi,Luigi Orsi,2015-09-16 Recent years have seen a growth in strategic alliances, mergers and acquisitions and collaborative networks involving knowledge-intensive and hi-tech industries. However, there have been relatively few studies looking at this form of collaboration as a strategy to drive firms' innovative performances. This book specifically focuses on the role of strategic alliances, M&A and innovation networks, providing insights on if and how they contribute to boosting firms' innovation performances. The book has a double purpose. Firstly, it investigates at an industry level the role played by the alliance, M&As and networks in high-tech environments such as biotechnology, pharmaceutical, software and nanotechnology in creating, transforming and reshaping the dynamics inside and between industries. Secondly, it explores the impact at the firm level of factors such as cognitive distance, management capabilities, and relational and social capabilities, on firms' global innovation capacity, measured as innovation quantity, innovation quality and innovation novelty. The book will be of interest to scholars working on the economics of innovation, innovation management studies, strategic management, regional science and evolutionary economics, among other areas.
