📖 **DRAWN TOGETHER** MINH L📖 ,2018-06-04 The recipient of six starred reviews and the APALA Asian/Pacific American Award for Literature! Named a Best Book of 2018 by the Wall Street Journal, NPR, Smithsonian, Kirkus Reviews, School Library Journal, Booklist, The Bulletin of the Center for Children’s Books, BookRiot, The New York Public Library, The Chicago Public Library—and many more! When a young boy visits his grandfather, their lack of a common language leads to confusion, frustration, and silence. But as they sit down to draw together, something magical happens—with a shared love of art and storytelling, the two form a bond that goes beyond words. With spare, direct text by Minh L📖 and luminous illustrations by Caldecott Medalist Dan Santat, this stirring picturebook about reaching across barriers will be cherished for years to come. A Junior Library Guild selection!

📖 **SELF-AIDS IN THE ESSENTIALS OF GRAMMATICAL USAGE** Lawrence James O’Rourke, 1927

📖 **THE LAST LECTURE** Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he’s learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can’t help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn’t have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn’t about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

📖 **AUTOMATED DEDUCTION - CADE-17** David McAllester, 2006-12-30 For the past 25 years the CADE conference has been the major forum for the presentation of new results in automated deduction. This volume contains the papers and system descriptions selected for the 17th International Conference on Automated Deduction, CADE-17, held June 17-20, 2000, at Carnegie Mellon University, Pittsburgh, Pennsylvania (USA). Fifty-three research papers and twenty system descriptions were submitted by researchers from 17 countries. Each submission was reviewed by at least three reviewers. Twenty-four research papers and 17 system descriptions were accepted. The accepted papers cover a variety of topics related to theorem proving and its applications such as proof carrying code, cryptographic protocol verification, model checking, cooperating decision procedures, program verification, and resolution theorem proving. The program also included three invited lectures: “High-level verification using theorem proving and formalized mathematics” by John Harrison, “Scalable Knowledge Representation and Reasoning Systems” by Henry Kautz, and “Connecting bits with floating-point numbers: Model checking and theorem proving in practice” by Carl Seger. Abstracts or full papers of these talks are included in this volume. In addition to the accepted papers, system descriptions, and invited talks, this volume contains one page summaries of four tutorials and 17 workshops held in conjunction with CADE-17.

📖 **MY IT TO YOU** John McGreal, 2013-12-01 In new forms of writing this is one of three books which represent stages of a serious artistic search for a modern dialectic of mark, word and image spanning twenty years. With an aesthetic that dissolves conventional boundaries of visual art and literature, the abstract alphabetical poem, My It to You and the narrative proem, In the Way of It are both written solely in monosyllables. The selection of spaced prints of alphabetical poems (such as Rubicon) in The Poetry of It was inspired initially by a surrealist experiment in automatic writing in 1988 which triggered an extensive period in which dreams erupted onto the page in the written form of fragmented words. Written in the form of double columns, ‘Mac’s Story’, In the Way of It, gives an account of how these works came to be made along with The Book of It, his humorous satire on contemporary capitalism published in 2010. All three new works celebrate the centenary of the revolution in visual language made by the avant-gardes in what Marjorie Perloff calls ‘The Futurist Moment’ in Modernist Art.
