The Next Ship Home Heather Webb, 2022-02-08 An unflinching look at the immigrant experience, an unlikely and unique friendship, and a resonant story of female empowerment.—Pam Jenoff, New York Times bestselling author of *The Woman with the Blue Star* Ellis Island, 1902: Two women band together to hold America to its promise: Give me your tired, your poor ... your huddled masses yearning to breathe free... A young Italian woman arrives on the shores of America, her sights set on a better life. That same day, a young American woman reports to her first day of work at the immigration center. But Ellis Island isn't a refuge for Francesca or Alma, not when ships depart every day with those who are refused entry to the country and when corruption ripples through every corridor. While Francesca resorts to desperate measures to ensure she will make it off the island, Alma fights for her dreams of becoming a translator, even as women are denied the chance. As the two women face the misdeeds of a system known to manipulate and abuse immigrants searching for new hope in America, they form an unlikely friendship—and share a terrible secret—altering their fates and the lives of the immigrants who come after them. This is a novel of the dark secrets of Ellis Island, when entry to the land of the free promised a better life but often delivered something drastically different, and when immigrant strength and female friendship found ways to triumph even on the darkest days. Inspired by true events and for fans of Kristina McMorris and Hazel Gaynor, *The Next Ship Home* holds up a mirror to our own times, deftly questioning America's history of prejudice and exclusion while also reminding us of our citizens' singular determination.

Liberty: Book 6 of the Legacy Fleet Series Nick Webb, 2018-10-09 War. It rages across United Earth space, claiming millions of lives. The Swarm have returned, larger, more fierce, and more technologically advanced than ever before. The voice from Saturn's moon Titan claiming to be Tim Granger is warning humanity that this time, the Swarm may be unstoppable. Admiral Shelby Proctor, on the run for the suspected murder of the United Earth President, knows that humanity's only hope may be a hero that's been dead for thirty years, and travels to the center of Titan to find him in Earth's darkest hour. The fleets are assembled, all the races united against the overwhelming enemy from another universe. And now all they need a legendary hero to lead them to victory.

The Webb of Life Eugene R. Webb, 2009-06 THIS POETIC BOOK This is a book of poems to give you a lift, And it's my appreciation of God's gift. For I enjoy writing poetry just for fun; I'll write about anything or anyone. I don't care what the subject might be; I'll turn it around until it suits me. I hope you find this book to be a joy for you; Then, I have accomplished what I wanted to do. I'm writing this book with friends and relation in mind; I wanted it to be in poetry, making the words rhyme. I'm certainly not writing for fame or even glory; I just want to tell about things in a poetic story. This book will hopefully inspire, make you laugh or cry; Being so grateful, I want to encourage others, so I'll try. *The Webb of Life* is poems of people and events important to me; Look at your life and perhaps you, too, God's blessings will see. This book turned out to be a lot more than I had planned; Now it'll be wonderful to get it into some other hands. For I want you to remember when I'm dead and gone, That, hopefully, this poetic book will carry on.

Sub 4:00 Chris Lear, 2004-08-25 For more than three decades, not one American schoolboy had run a sub-4:00 mile. Then, in January 2001, Alan Webb clocked a 3:59.86 mile, the fastest indoor U.S. high school mile ever. Just a few months later, the young track star achieved legendary status: he ran a 3:53.46 mile—a full 2 seconds faster than former record holder Jim Ryun. Everywhere Webb was hailed as America's Next Great Miler. In *Sub 4:00*, noted track writer Chris Lear follows Webb to college at the University of Michigan. As we witness Webb's freshman track season—watching him struggle with injuries, interpersonal conflicts, the politics of the collegiate track world, and his own aspirations to become the best miler ever—we get an unprecedented behind-the-scenes view of the life of one of the nation's most promising track athletes with a new chapter describing the latest developments in Webb's fascinating career.

Christian Moderns Webb Keane, 2007-01-03 Across much of the postcolonial world, Christianity has often become inseparable from ideas and

practices linking the concept of modernity to that of human emancipation. To explore these links, Webb Keane undertakes a rich ethnographic study of the century-long encounter, from the colonial Dutch East Indies to post-independence Indonesia, among Calvinist missionaries, their converts, and those who resist conversion. Keane's analysis of their struggles over such things as prayers, offerings, and the value of money challenges familiar notions about agency. Through its exploration of language, materiality, and morality, this book illuminates a wide range of debates in social and cultural theory. It demonstrates the crucial place of Christianity in semiotic ideologies of modernity and sheds new light on the importance of religion in colonial and postcolonial histories.

The Cake and the Rain Jimmy Webb, 2017-04-18 Novelistic, perfectly plotted and quite possibly the best pop-star autobiography yet written. - The Wall Street Journal Jimmy Webb's words have been sung to his music by a rich and deep roster of pop artists, including Glen Campbell, Art Garfunkel, Frank Sinatra, Donna Summer and Linda Ronstadt. He's the only artist ever to win Grammy Awards for music, lyrics, and orchestration, and his chart-topping career has, so far, lasted fifty years, most recently with a Kanye West rap hit and a new classical nocturne. Now, in his first memoir, Webb delivers a snapshot of his life from 1955 to 1970, from simple and serene Oklahoma to fast and fantastical Los Angeles, from the crucible of his family to the top of his longed-for profession. Webb was a preacher's son whose father climbed off a tractor to receive his epiphany, and Jimmy, barely out of his teen age years, sank down into the driver's seat of a Cobra to speed to Las Vegas to meet with Elvis. Classics such as "Up, Up and Away", "By the Time I Get to Phoenix", "Wichita Lineman", "Galveston", "The Worst that Could Happen", "All I Know", and "MacArthur Park" were all recorded by some of the most important voices in pop before Webb's twenty-fifth birthday: he thought it was easy. The sixties were a supernova, and Webb was at their center, whipsawed from the proverbial humble beginnings into a moneyed and manic international world of beautiful women, drugs, cars and planes. That stew almost took him down—but Webb survived, his passion for music and work among his lifelines. *The Cake and The Rain* is a surprising and unusual book: Webb's talent as a writer and storyteller is here on every page. His book is rich with a sense of time and place, and with the voices of characters, vanished and living, famous and not, but all intimately involved with him in his youth, when life seemed nothing more than a party and Webb the eternal guest of honor.

Sarah Webb Gary A. Webb, 2022-05-15 This is the story of a young woman's journey towards becoming an artist and the places and events that inspired her in her search to find her visual voice.

I Heard My Country Calling James Webb, 2014-05-20 In this brilliantly received memoir, former senator James Webb has outdone himself. It is rare in America that one individual is recognized for the highest levels of combat valor, as a respected member of the literary and journalistic world, and as a blunt-spoken leader in national politics. In this extraordinary memoir, Webb writes vividly about the early years that shaped such a remarkable personal journey. Webb's mother grew up in the poverty-stricken cotton fields of East Arkansas. His father and lifetime hero was the first in many generations of Webbs, whose roots are in Appalachia, to finish high school. He flew bombers in World War II and cargo planes in the Berlin Airlift, graduated from college in middle age, and became an expert in the nation's most advanced weaponry. Webb's account of his childhood is a tremendous American saga as the family endures the constant moves and challenges of the rarely examined post-World War II military, with a stern but emotionally invested father, a loving mother who had borne four children by the age of twenty-four, a granite-like grandmother who held the family together during his father's frequent deployments, and a rich assortment of aunts, siblings, and cousins. Webb tells of his four years at Annapolis in a voice that is painfully honest but in the end triumphant. His description of Vietnam's most brutal battlefields breaks new literary ground. One of the most highly decorated combat Marines of that war, he is a respected expert on the history and conduct of the war. Webb's novelist's eyes and ears invest this work with remarkable power, whether he is describing the resiliency that grew from constant relocations during his childhood, the longing for his absent father, his poignant good-bye to his parents as he leaves for Vietnam, his role as a twenty-three-year-old lieutenant through months of constant combat, or his election to the Senate, where he was a leader on national defense, foreign policy, and economic fairness. This is a life that could happen only in America.

The Webb School of Bell Buckle Susan Coop Howell and Hannah Byrd Little, 2019 The Webb School of Bell Buckle is the oldest continuously operating boarding school in the South. In Culleoka, Tennessee, in 1870, William Robert Sawney Webb Sr. founded the school, and classes were taught in the basement of a Methodist church. Webb's brother, John Maurice, joined as coprincipal in 1873. Having family ties to the town of Bell Buckle, the Webbs moved the school to its permanent home in 1886. With Sawney known for his drive and discipline and John known for his saintly character, deep learning, and the gift of imparting it, according to Vanderbilt University professor emeritus Edwin Mims (Webb School class of 1888), the brothers were a powerful force in education and later became founding members of the Southern Association of Independent Schools. In addition to 10 Rhodes Scholars, the school has produced governors, university presidents, diplomats, CEOs, actors, artists, and several award-winning authors. The Webb School celebrates its sesquicentennial in 2020.

A Time to Fight Jim Webb, 2008-05-19 "I'm the only person in the history of Virginia elected to statewide office with a Union card, two Purple

Hearts, and three tattoos. Jim Webb—the bestselling author and now the celebrated, outspoken U.S. Senator from Virginia—presents a clear-eyed, hard-hitting plan of attack for putting government to work for the people, rather than special interests, and for restoring the country's standing around the world. Infused with the intelligence, force, and firebrand style that has earned Senator Jim Webb enormous national attention from his earliest days in office, *A Time to Fight* offers a thorough and provocative assessment of the thorniest issues Americans face today, along with cogent solutions drawn from Webb's lifetime of experience as a much-decorated Marine, a widely traveled, award-winning journalist and novelist, a highly placed member of the Reagan administration, a Senator with a son who fought as a Marine in Iraq and, perhaps most important, a proud scion of America's vast but frequently ignored working class. Webb exposes how America has entered a dangerous, unprecedented cycle of seemingly unsolvable unknowns. Our economic policies, particularly in this age of globalization, have produced widely divergent results leading to a country calcifying along class lines. Our demographic makeup has been altered dramatically and is set to keep on changing, through both legal and illegal immigration. Our editorialists and politicians talk about the American dream, and some urge us to bring democracy to the rest of the world. But more than two million Americans are now in prison, by far the highest incarceration rate in the so-called advanced world. Our foreign policy is confused, without clear direction; increasingly vulnerable to such largely unexamined long-term threats as China's emerging power while it has become bogged down in the never-ending struggles of the Middle East. As this drift toward societal regression has taken place, America's leadership has largely been paralyzed, unable or unwilling to stop the slide. Where are the leaders? Webb asks. Has our political process become so compromised by powerful interest groups and the threat of character assassination that even the best among us will not dare to speak honestly about the solutions that might bring us back to common sense and fundamental fairness? Through vivid personal narratives of the struggles members of his family faced, and citing the courageous actions of presidents ranging from Andrew Jackson to Teddy Roosevelt to Dwight Eisenhower, *A Time to Fight* provides specific, viable ideas for restoring fairness to our economic system, correcting the direction of national security efforts, ending America's military occupation of Iraq, and developing greater government accountability. Webb brings a fresh perspective to political dynamics that have shaped our country. His stirring, populist manifesto calls upon voters to make the choices that will change America for the better in this election season.

How to Have a Good Day Caroline Webb, 2016-02-02 In *How to Have a Good Day*, economist and former McKinsey partner Caroline Webb shows readers how to use recent findings from behavioral economics, psychology, and neuroscience to transform our approach to everyday working life. Advances in behavioral sciences are giving us an ever better understanding of how our brains work, why we make the choices we do, and what it takes for us to be at our best. But it has not always been easy to see how to apply these insights in the real world—until now. In *How to Have a Good Day*, Webb explains exactly how to apply this science to our daily tasks and routines. She translates three big scientific ideas into step-by-step guidance that shows us how to set better priorities, make our time go further, ace every interaction, be our smartest selves, strengthen our personal impact, be resilient to setbacks, and boost our energy and enjoyment. Through it all, Webb teaches us how to navigate the typical challenges of modern workplaces—from conflict with colleagues to dull meetings and overflowing inboxes—with skill and ease. Filled with stories of people who have used Webb's insights to boost their job satisfaction and performance at work, *How to Have a Good Day* is the book so many people wanted when they finished *Nudge*, *Blink* and *Thinking Fast and Slow* and were looking for practical ways to apply this fascinating science to their own lives and careers. A remarkable and much-needed book, *How to Have a Good Day* gives us the tools we need to have a lifetime of good days.
