**Whirlwind** Victor F. Bingham,1987-01-01

Westland Whirlwind Mk. I Alex Crawford,Phil H. Listemann,2008 The Westland Whirlwind belongs to that category of aircraft which entered production but failed to live up to their designers' expectations. Its unreliable engines can be seen as a major reason for this but it only serves to hide other serious problems. Indeed, even with better engines the results would probably have been the same, as the concept of a twin-engined fighter aircraft capable of meeting single-engined fighters escorting bombers formations on an equal footing was fallacious, as combat in WW2 was soon to prove. The true story of the Whirlwind and the pilots who flew it is here told with over 50 photographs, many being published for the first time.

**Whirlwind** Niall Corduroy ,2017-01-21 Faster and better armed than the Spitfire, the Whirlwind was the RAF s response to a new generation of armoured German bombers which it expected to meet over England in 1940. A few months after its first flight, 1,000 Whirlwinds were ordered, but nine months later the RAF cancelled the entire programme. Just 114 were built, but they went on to have a distinguished three-year career from the uneasy months following the Battle of Britain to their final sorties against Hitler s V-weapon sites in France. Based on original research from military and corporate archives, this groundbreaking study throws new light on why the RAF had such high hopes for the Whirlwind, but was then prepared to cancel it. It exposes for the first time the political and corporate wrangling that surrounded the Whirlwind programme, while bringing a fresh perspective to the aircraft s valiant operational history, calling on German records and Ultra signals. Attacking railways, shipping, torpedo boats and airfields, often against fierce opposition, the Whirlwind squadrons flew with outstanding courage and determination, regarding themselves, justifiably, as a privileged elite within Fighter Command the fewest of the few . In its thorough research and captivating style, Whirlwind: Westland s Enigmatic Fighter is a fitting tribute to the designers, engineers and pilots who believed in the Whirlwind, and made it glorious.

**The Westland Whirlwind** Phil H. Listemann,2021-07-19 The Westland Whirlwind belongs to that category of aircraft which entered production but failed to live up to their designers' expectations. Its unreliable engines can be seen as a major reason for this but it only serves to hide other serious problems. Indeed, even with better engines the results would probably have been the same, as the concept of a twin-engined fighter aircraft capable of meeting single-engined fighters escorting bombers formations on an equal footing was fallacious, as combat in WW2 was soon to prove. Only two squadrons flew the Whirlwind, Nos. 137 and 263 Squadrons. This book is a deeply revised edition of Allied Wings No. 4 published in 2013, with the text largely enhanced and new photographs added. In all 60 photos and 12 colour profiles.

Not Much of an Engineer Sir Stanley Hooker,Bill Gunston,2011-09-20 Stanley Hooker joined the Bristol Aeroplane Company in 1949 and tugged a rather reluctant company into the jet age, determined to give real competition to Rolls-Royce. So successful was he that in 1966 Rolls-Royce decided the best thing to do was to spend ?63.6 million and buy its rival. By this time there was scarcely a single modern British aero-engine for which Hooker had not been responsible.

*263 and 137 Squadrons* Robert Bowater,2013 'Westland Whirlwind' For many the name conjures up yellow air-sea rescue helicopters, not the sleek twin-engine monoplane that was the RAF's first single-seat cannon armed fighter, and which was faster than her famous cousin - the Spitfire. Only 114 were built, sufficient to equip two Squadrons - 263 and 137. Between 6 July 1940 and 31 December 1943, 210 pilots are listed in the Operational Record Books of these two Squadrons, so whilst 'The Few' won the Battle of Britain, the 'Whirlwind Men' were an even more select group.

**Rescue Pilot** Jerry Grayson,2015-03-12 Jerry Grayson is an ordinary man who chose an extraordinary career. At age 17 he became the youngest helicopter pilot to ever serve in the Royal Navy. By age 25 he was the most decorated peacetime naval pilot in history. For the Navy's Search and Rescue pilots, getting to work is both an adventure and an ordeal. Whether rescuing a wounded fighter pilot who has ditched in the sea, saving desperate survivors from a sinking ship, or picking up a grievously ill crewman from the deck of a nuclear-armed submarine that is playing a cat-and-mouse game with the Soviet navy, Jerry Grayson has lived a life of unparalleled excitement and adventure. His finest hour came during the infamous Fastnet Yacht Race of 1979 in which 25 yachts were lost. When a catastrophic storm enveloped the competitors he and his crew pushed their Wessex helicopter to its absolute limits and put their own lives at risk, flying into hurricane-force winds to winch shipwrecked sailors from heaving tempestuous seas. An investiture at Buckingham Palace with Her Majesty the Queen was the result. Being a Rescue Pilot is a fast-paced career because there is no choice. Lives are at stake and pilots must move and think fast. Jerry Grayson's inside view of this heroic service is as inspirational as it is celebratory. Excitingly

told, frequently funny but also very poignant, Jerry's story is not an account of just one man's deeds, it is a salute to all the men and women he worked with who were able to turn tragedies into triumphs. Includes a Foreword by HRH The Duke of York, Prince Andrew, Commodore-in-Chief of the Fleet Air Arm.

**Aircraft Museums of the United Kingdom** Frank E. Hitchens, 2016-04-26 Aircraft Museums of the United Kingdom has been written for the aviation enthusiast with an interest in aircraft from the past. Aircraft range throughout the museums from 1909 up to recent years. Thirty-five museums are listed within this book and each is presented on its merits for the aircraft displayed. A brief description of each museum describes aircraft of special interest, museum presentation and lighting quality for photographing the aircraft. Also included is a list of aircraft held by each museum with over 300 photographs included, plus address and contact details for each museum. The aircraft museums are all part of the UK's aviation heritage to be preserved for the enjoyment of the present and future generations. All are worth a visit for their exhibits of aircraft from days gone by.

**Wings on My Sleeve** Eric Brown, 2008-09-18 The autobiography of one of the greatest pilots in history. In 1939 Eric Brown was on a University of Edinburgh exchange course in Germany, and the first he knew of the war was when the Gestapo came to arrest him. They released him, not realising he was a pilot in the RAF volunteer reserve: and the rest is history. Eric Brown joined the Fleet Air Arm and went on to be the greatest test pilot in history, flying more different aircraft types than anyone else. During his lifetime he made a record-breaking 2,407 aircraft carrier landings and survived eleven plane crashes. One of Britain's few German-speaking airmen, he went to Germany in 1945 to test the Nazi jets, interviewing (among others) Hermann Goering and Hanna Reitsch. He flew the suicidally dangerous Me 163 rocket plane, and tested the first British jets. WINGS ON MY SLEEVE is 'Winkle' Brown's incredible story.
