The Real Story of the Whaler Alpheus Hyatt Verrill,1916

Unsinkable Matthew D. Plunkett,2017-09-01 Boston Whalers are the quintessential American motorboats. Born from innovation, risk, and above all hard work, their reputation for reliability, fun, and safety has changed the way the people go boating. The first Whalers hit the water in 1958, but the "Unsinkable Legend" was created with a daring launch in 1961, when Boston Whaler founder Richard "Dick" Fisher sawed a boat in half before the cameras of Life magazine -- and then piloted the back half of the hull around Wampatuck Pond in Hanson, Massachusetts. People were shocked and delighted, and the company made its mark on the history of boating by proving that it had created something altogether new and absolutely unsinkable. *Unsinkable: The History of Boston Whaler* is the first book to tell the story of these iconic boats. Published to celebrate the company's 60th anniversary, author Matthew Plunkett relays a fascinating and engaging tale beginning with how Dick Fisher came to create Boston Whaler and then detailing how the company evolved over the decades. From the original 13' hull, unflatteringly known as the "blue bathtub," to its current flagship, the 420 Outrage, this book covers the whole story of a truly American company. Drawing on dozens of interviews with employees who were there in the plants, at the dealerships, and on the boats, *Unsinkable: The History of Boston Whaler* is filled with previously untold stories as well as never before published images, including photos from the families of Dick Fisher and legendary designer Bob Dougherty, Mr. Unsinkable himself. This intimate look into the creation, culture, and ongoing legacy of Boston Whaler reveals just how influential this company has been both within the industry and for its legions of diehard fans around the world.

A Year with a Whaler Walter Noble Burns,1913 Author shipped as a greenhorn on an arctic whaling ship, and relates his adventures in the Bering and Chukchi seas, with notes on the processing of whale aboard ship. The ship was the 'Alexander' out of San Francisco. (AB 2535).

The Whaler's Forge Christine Echeverria Bender,2009-06-01 Distributed by the University of Nebraska Press for Caxton Press Over a century before Columbus will venture across the Atlantic Ocean, a storm battered Basque whaling galleon drops anchor off the eastern coast in North America. IN this savage new land, harpooner Kepa de Mendieta becomes the victim of a terrible accident and is left behind. With winter approaching, Kepa struggles against the brutal forces of nature in a fight for survival as well as redemption.

The Last Whaler Capt. Nicholas Stevensson Karas,2010-10-04 Capt. Nicholas Karas is both an ichthyologist and journalist. Throughout his life he has been intimate with the marine scene. He was born in Binghamton, N.Y. After four years in the Navys amphibious forces during the Korean Conflict he attended St. Lawrence and Johns Hopkins universities, where he majored in the biological sciences, and Syracuse University, where he received his masters degree in journalism. He joined the staff of True magazine, then Argosy magazine as outdoors editor. For nearly a decade after being associated with magazines, he became a fulltime freelance writer, traveling throughout the world and produced more than 500 major magazine

features. Settling down, for 25 years, Karas became the staff outdoors columnist for Newsday (New York) and wrote more than 3,500 columns, then followed by 10 years as a freelance columnist for the N.Y. Times and several major magazines. Hunky is his first novel. Befriended years ago by James Michener, Karas asked him what to write about. He answered, write about what you know best. Hunky was the result. Hunky, is the story of two families who lived on opposite sides of the continental divide high in the Carpathian Mountains in 19th century eastcentral Europe. It spans three generations and a hundred years in their plight to escape more than a thousand years of oppression and servitude. Kurkis Reviewdescribed Karas uses of a unique journalistic genre, an adroit blend of history, biography, autobiography and fiction, that traces their Americanization in the coals mines and steel mills of Pennsylvania and the shoe factories of New York. The Last Whaler reveals Karas intense relationship with the sea. He has held his captains license for 30 years and regularly fished the off shore waters of Long Island. Few other waters have missed the cut of his keel. Karas and his wife Shirley live at the edge of land at Orient Point, N.Y.

The Last American Whaler Dennis Hunter,2021-07-07 Once there were as many as 750 American whaling ships plying the oceans searching for their mighty prey. In those days whaling was a substantial part of the economies of such New England communities as Nantucket and provided the base for some of the great American stories of adventure on the high seas. By the middle of the twentieth century, the whaling industry dwindled down to a precious few whaling adventurers along the northwest coast of California. This is a story of one of those adventurers, Captain Gib Hunter, a true American whaling and fisheries pioneer of the twentieth century as seen through the eyes of his oldest son. The book contains vivid descriptions of whaling which by today's standards might seem barbaric, but please remember that whaling was indeed an important part of our history. In 1971, the United States government called for an end to American whaling. Therefore, on December 1971, when Gib Hunter stepped off the deck of the whaler Dennis Gayle, he became known as the Last American Whaler. The idea for this book actually came to me in the winter of 2006 when my wife, Karen, gave me a video camera and suggested that I go over to my dad's house and interview him about the colorful life he was living. However, a few days later before I could follow through, my father passed away at the age of 88. Years later, after the strong urging of my family, I sat down to write this story with only fading memories, some imagination, editing help from my wife Karen and some research to guide me. Most of the book is based on actual events and experiences on the whaler Dennis Gayle. Except for my younger brother, Bill, there is no one to say things didn't happen exactly as I described. I've changed the last names of some of the characters in the book to protect the privacy of their families.

The Real Story of the Whaler : Whaling, Past and Present A. Hyatt (Alpheus Hyatt) Verrill,1931

Red Eric; Or, The Whaler's Last Cruise Robert Michael Ballantyne,1861

The Cruise of the Cachalot Frank T. Bullen,2008-10 The Cruise of the Cachalot] is immense--there is no other word. I've never read anything that equals it in its deep-sea wonder and mystery; nor do I think that any book before has so completely covered the whole business of whale-fishing, and at the same time given such real and new sea pictures. RUDYARD KIPLING The Cruise of the Cachalot is the story of a ship--a South Sea whaler--and the men who sailed on her. First published in 1897, it is the first whaling account written from the standpoint of an accomplished seaman, by an accomplished seaman. In 1869, at age 12, Frank Bullen went to sea. Over the years he travelled the world while serving in every capacity from ship's boy to first mate. In 1883 he became a clerk in the relatively new British Meteorological Office where he made a sufficient name for himself to eventually become a Fellow of the Royal Geographic Society. But, his first love was always the sea; and his primary respect was always for the common

seaman. As a result, he spent the last years of his life writing books and lecturing in an attempt to better the health, safety and living conditions of those men. The level of detail presented in this book is truly astonishing. Making it all the more remarkable is that every bit of it is based on first-hand experience, and delivered with a unique and engaging mixture of literary simplicity and nautical authority. If you wish to genuinely understand the world of the 19th Century whaler, the book to read is not Moby Dick, or some other moby-clone. It is THIS one. Mr. Bullen has a splendid subject, and he handles it with the pen of a master... The Cruise of the Cachalot is a book which cannot but fascinate all lovers of the sea, and all who can appreciate a masterly presentation of its wonder and its mystery, its terrors and its trials, its humours and its tragedies. THE LONDON TIMES

New England Whaler Robert F. Baldwin, 1996 Surveys the New England whaling industry in the 1700s and 1800s, describing the ships that were used, daily life and traditions of the whalers, the dangers they faced, and more.
