Sol White's History of Colored Base Ball, with Other Documents on the Early Black Game, 1886-1936 Sol White, 1996-08-01 America and baseball are rediscovering the game played by African Americans before Jackie Robinson broke the color barrier in 1947. We now know a great deal about the Negro Leagues of 1920 on, and their great stars-Satchel Paige, Josh Gibson, and their contemporaries. But what of the pre-1920 black game? From the onset in the 1880s of the gentleman's agreement that barred blacks from playing in white leagues, that game is nearly invisible. Financially shaky, with sporadic media coverage even in black newspapers and completely overlooked by the mainstream, Negro teams of this era played on for love of the game and in hopes that their skills would receive their due. In 1907, Sol White, a remarkable African-American ballplayer, successful manager, and baseball loyalist, wrote a small volume on the history of the black game. Part fund-raising effort, advertising brochure, team hype, celebration of black baseball, and throughout an implicit and explicit challenge to racism, Sol White's History of Colored Base Ball is the source of much of what we know of the events in the organized black game of that time. The original was poorly printed, and copies are exceedingly rare (known and rumored copies number only four). This edition republishes the full 1907 edition (with the even rarer supplement), completely reset for legibility, and reproduces all the original's illustrations, including the advertisements that speak volumes on the social world of the day. Fifteen additional documents from 1886 to 1936 augment the picture of the black game and our record of Sol White himself. The work is introduced by Jerry Malloy, a recognized expert on the history of Negro leagues who has spent years in painstaking research into this vanished world.

Cephalopods of Australia and Sub-Antarctic Territories Amanda Reid,2016-07 Australian waters contain the highest diversity of cephalopods (squid, cuttlefish and octopus) found anywhere in the world. They are highly significant ecologically, both as top-level predators and as prey for numerous vertebrates, including fishes, seals, cetaceans and seabirds. *Cephalopods of Australia and Sub-Antarctic Territories* is a comprehensive guide covering 226 species, which represent over a quarter of the world's cephalopod fauna. With an emphasis on identification, this book includes keys, species descriptions, full-colour illustrations and distribution maps, as well as a summary of the biology and behaviour of cephalopods and fisheries information. This is an invaluable tool for researchers and fisheries experts as well as amateur naturalists, fishers and divers.

Ceramics of Postclassic Cholula, Mexico Geoffrey G. McCafferty, 2001-12-31 As the center for the religious cult of Quetzalcoatl, Cholula played a prominent role in shaping events of central Mexico's Postclassic period. Yet confusion over historical events in Cholula itself have limited its place in recent archaeological considerations of Mesoamerica. Since ceramic sequences are the backbone of archaeological chronologies, this confusion ultimately relates to problems in previous attempts to order archaeological time with ceramics. This book provides an innovative new classification of Cholula ceramics, based on artifact assemblages from primary depositional contexts recovered from the UA-1 excavations. A detailed and well-illustrated description of ceramic types is provided to construct a new classification system. These types are then seriated using collections from house floors and trash middens to suggest a new sequence spanning the Tlachiuhualtepetl (700-1200 CE) and Cholollan (1200-1550 CE) periods. The polychrome ceramics of Cholula have been described as among the most beautiful of Mesoamerica, employing vibrant colors to represent complex religious iconography of the Mixteca-Puebla stylistic tradition. By defining type and subtype variations in the polychrome ceramics, a foundation is created for a refined chronology as well as for recognizing intra-societal variability.
