*German Night Fighters Versus Bomber Command, 1943–1945* Martin W. Bowman, 2016-06-19

This new volume from Martin Bowman examines the closing years of the Second World War, as the tide turned against the German and Axis forces. It includes riveting first-hand accounts from German fighter pilots caught up in some of the most dramatic night time conflicts of the latter war years. Viewing Bomber Command's operations through the eyes of the enemy, the reader is offered a fresh and intriguing perspective. Set in context by Bowman's historical narrative, these snippets of pilot testimony work to offer an authentic sense of the times at hand.

*Savoia-Marchetti S.79 Sparviero Bomber Units* Marco Mattioli, 2018-02-22 Initially developed by Savoia-Marchetti as a transport, the aircraft had evolved into a dedicated medium bomber by the time the S.79-I made its combat debut in the Spanish Civil War in 1936. During World War 2, it became Italy's most successful bomber, and the most produced, with around 1370 built between 1936 and early 1944. Although initially hampered by poor tactics, the S.79 bomber crews nonetheless scored

sunk a number of Allied vessels, and provided a constant threat to Allied sailors in the Mediterranean in the early stages of the war. In East Africa and the Red Sea the Sparvieri were the most modern bombers in-theatre, proving a challenge to RAF and SAAF biplane fighters. Using specially commissioned full-colour artwork, first-hand accounts and historic photographs, this volume chronicles the history of the S.79's war in the Mediterranean, North African, Balkan, and East African theatres.

**Ju 52/3m Bomber and Transport Units 1936-41** Robert Forsyth, 2017-05-25 The all-metal Junkers Ju 52/3m enjoyed a solid – indeed, revered – reputation amongst its crews and the troops and paratroopers who used and depended on it. For more than ten years, it saw service as a successful military transport, with its distinctive, three-engined design and corrugated metal construction becoming instantly recognisable. It was a mainstay in the Luftwaffe's inventory, first seeing service in the 1930s in bombing and transport operations in the Spanish Civil War, and subsequently during the German invasion of Poland. It then served on every front on which the Luftwaffe was deployed until May 1945. The Junkers served as a stalwart transport, confronting both freezing temperatures and ice, and heat

and dust, lifting men, animals, food and supplies vital for German military operations. This, the first of two books on the Ju 52/3m, details its service as a bomber in Spain and in South America, followed by its pivotal role in early war operations during the invasions of Poland and France, the airborne invasion of Crete and the early stages of Operation Barbarossa.

*Air Force Next-Generation Bomber (NGB)* Jeremiah Gertler, 2011-04 As part of its proposed FY 2010 defense budget, the Admin. proposed deferring the start of a program to develop a NGB for the Air Force, pending the completion of the 2010 Quadrennial Defense Review and associated Nuclear Posture Review, and in light of strategic arms control negotiations with Russia. Contents of this report: (1) Intro.; (2) Admin. Proposal to Defer Start of NGB Program; NGB Program Prior to FY 2010 Budget Submission; Existing Bomber Fleet; (3) Issues for Congress: Future Roles and Missions of Bombers: Ability of Current Bomber Force to Perform Future Roles and Missions; Bomber Design and Construction Industrial Base; (4) Legislative Activity for FY 2010. Illus. This is a print on demand edition of an important, hard-to-find report.

Savoia-Marchetti S.79 Sparviero Torpedo-Bomber Units Marco Mattioli, 2014-10-20 Italy's most successful wartime bomber, the S.79 saw combat with the Regia Aeronautica in France, Yugoslavia, Greece, North Africa, East Africa and in the Mediterranean. Initially developed as a transport, the aircraft evolved into a dedicated medium bomber during the Spanish Civil War in 1936. The manufacturer then produced the S.79-II torpedo-bomber which entered service in 1939 – which primarily saw service against the Royal Navy in the Mediterranean. Illustrated with 30 full colour profiles of the main units that saw action with either the Regia Aeronautica or the ANR, this title is the first of two volumes to cover the development history and wartime performance of the S.79.

Bread and Butter Bomber Boys Arthur White, 1995

**Bomber** Len Deighton, 2023-08-22 Len Deighton – one of the masters of twentieth-century espionage fiction combines his expertise as both historian and novelist in *Bomber*, the classic World War II novel that relates, in devastating detail, the twenty-four-hour story of an allied bombing raid. Skilled Royal Air Force bomber pilot Sam Lambert is exhausted, and his veteran crewmen have just

been replaced by an inexperienced new team. Victor von Löwenherz, a German night fighter pilot who intercepts RAF bombers in his Junkers Ju 88, looks on with horror at the Nazi regime. And Hansl, a German boy in the small market town of Altgarten, sleeps at home. Lambert and his crew prepare for a bombing raid on the Ruhr area. It's a night that many will never forget. Bomber is a masterful, gripping, minute-by-minute account of what occurs over the next twenty-four hours. Told through the eyes of protagonists on all sides and astonishingly precise in its depictions of planes, weapons, and behind-the-scenes war strategy, this is Len Deighton at his best. An unforgettable portrait of war, both in the air and on the ground.

**Terrorist Bridge Bomber** Herman Willett, 2010-06-12 At a set time, every bridge across the Mississippi river is blown up in unison, including rail transport bridges. As the investigation starts into the destruction of a major cross-country transportation and cargo system, smaller events continue across the United States then cause a total collapse of cross-country transpiration and commerce.

"Green Balls" : The Adventures of a Night-Bomber Paul Bewsher,2019-12-10 This book is a memoir about the First World War. The author Paul Bewsher was one of the founding members of the night bomber experimental unit during the First World War. This is a new experience, and new technology must be developed to perform the task. He stated that the night bomber experience is an arduous adventure full of horror, but there are also some amazing and beautiful night scenes in the process.

The Mad Bomber of New York Michael M. Greenburg,2011-04-05 “Gripping and bizarre . . . A compelling account of a dangerously angry man and the investigation that helped to revolutionize modern police work.” —Kirkus Reviews Between 1940 and 1957, thirty-three bombs—strategically placed in Grand Central Terminal, Penn Station, Radio City Music Hall, Macy’s, and other crowded areas of New York—paralyzed the city, sending shockwaves of fear through the public. George Metesky, the “Mad Bomber,” unleashed a reign of terror that reverberated through America’s social,

legal, and political landscape, ultimately spurring the birth of modern criminal profiling when a psychiatrist was called in to assist in the manhunt. A compelling work of historical true crime, *The Mad Bomber of New York* is the gripping tale of two individuals engaged in a deadly game of hide-and-seek, with the city of New York caught in the crosshairs. “A full-fledged biography that evokes the chaos and media circus that the terrorist, George P. Metesky, engendered.” —The New York Times “Masterfully told . . . a first-rate true-crime story.” —Scott Christianson, author of *Bodies of Evidence*

Dive Bomber: Learning To Fly The Navy’s Fighting Planes Lt.-Cmdr. Robert A.

Winston, 2015-11-06 Seized by an urge to learn flying Robert Alexander Winston would not be put off by the high fees charged by the private firms; he decided to join the nascent Naval Air Service in 1935. In this fast paced, witty and engaging memoir he describes his time spent as a Naval Cadet in learning to fly at the NAS Pensacola. He passed his carrier qualification aboard USS Saratoga, before being assigned to Fighting Squadron 6 flying off the USS Enterprise. His four term hitch in the Navy ended in 1939 and he entered the Naval Reserve. Robert A. Winston was born in Washington,

Indiana, in 1907 and graduated from Indiana University. He worked for The New York Times and The New York News for five years before starting flight training with the navy in 1935. He flew in fighting squadrons on both coasts and as an instructor at Pensacola, and he wrote about his initial aviation training in *Dive Bomber*, published in 1939 when Winston held the rank of lieutenant. In his second book, *Aces Wild*, he chronicled his experiences in Europe during 1939-40 as a test pilot accompanying a consignment of fighters destined for Finland. Back on active duty in the United States, he served as a flight instructor, then in the public relations office in Washington, D.C. After the attack on Pearl Harbor he was assigned to combat duty in the Pacific, which he recounts in *Fighting Squadron*, published in 1946 when Winston was a commander. At the end of the war he was serving on Admiral Nimitz's staff on Guam. From there he moved to Stockholm, where he served as the naval air attaché.

**Diary of a Night Bomber Pilot in World War I** Clive Semple, 2008-03-28 Flying at 18, demobbed at 20, Semple's astonishing experience has been meticulously put into context. How do you fly a Handley Page across France in total darkness? The answer is the 'Lighthouse system', just one of the

revelations in this unique record of ingenuity and courage.

**Bomber Command** Martin Bowman, 2012-02-19 This massive work provides a comprehensive insight to the experiences of Bomber Command's pilots and aircrew throughout World War Two. From the early wartime years when the RAF's first attempts to avenge Germany's onslaught were bedeviled by poor navigation and inaccurate bombing, to the final winning onslaught that finally tamed Hitler in his Berlin lair, these volumes trace the true experiences of the men who flew the bombers. Hundreds of first-hand accounts are punctuated by the author's background information that put each narrative into wartime perspective. Every aspect of Bomber Command's operational duties are covered; day and night bombing, precision low-level strikes, mass raids and operations throughout all wartime theaters. Contributions are from RAF personnel who flew the command's different aircraft from the early Blenheims and Stirlings to the later Lancasters and Mosquitoes. Each volume is full of accounts that tell of the camaraderie amongst the crews, moments of sheer terror and the stoic humor that provided

the critical bond. The five volumes of this work provide the most vivid and comprehensive work on the outstanding part played by RAF Bomber Command in their vital role in the destruction of the Third Reich.

Pizza Bomber Jerry Clark, Ed Palattella, 2012-11-06 The bizarre, true story of a robbery gone wrong and the explosive murder that shocked the nation—as seen on Netflix’s docuseries *Evil Genius*. For the first time, two of the people who followed the story from the beginning—Jerry Clark, the lead FBI Special Agent who cracked what became known as the Pizza Bomber case, and investigative reporter Ed Palattella—tell the complete story of what happened on August 28, 2003. In the suburbs of Erie, Pennsylvania, a pizza delivery man named Brian Wells was accosted by several men who locked a time bomb around his neck. They then ordered him to rob a bank. After delivering the money, he would receive clues to help him disarm the bomb. It was one of the most ingenious bank robbery schemes in history, known as Collarbomb by the FBI. It did not go according to plan. Wells, picked up by police shortly after the robbery, never found the clues he needed. Investigating the crime after his

grisly death, the FBI soon discovered that Wells was not, in fact, an innocent victim. He was merely the first co-conspirator to fall in a bizarre trail of death following the crime... INCLUDES PHOTOS

**Bomber's Law** George V. Higgins,2012-10-03 A winding tale of suspicion and intrigue, George V. Higgins skillfully recounts the story of elusive Short Joey Mossi. When detective sergeant Harry Dell'Appa went into enforced exile in the Berkshires to put an end to an ill-fated office romance, he didn't expect to be called back to Boston so soon. But desperate times...so the saying goes, and head detective Brian Dennison is keen for Short Joey Mossi, a suspected mob exterminator, to be arrested once and for all. Dell'Appa is called in to assist detective Bob Brennan, an old rival of his, who despite knowing all there is to know about Mossi, has never apprehended him. The plot thickens and Dell'Appa learns time and time again of the primacy of Bomber's Law: they always "do it for the money". In Bomber's Law, Higgins operates on a captivating policy of "partial disclosure", leaving the reader to piece together the plot, morsel by morsel.

**Blood Rain** Kory M. Shrum,2023-09-25 In this 11th installment of the bestselling Shadows in the

Water series, Louie Thorne proves she is still the “indelible protagonist” (Kirkus Reviews) readers know and love. The success of Konstantine’s underworld empire is secured by the loyalty of his brother-in-arms, Stefano. But when Stefano’s sister is murdered, and Stefano himself goes missing, Konstantine suspects that a new up-and-coming rival is to blame. And there is no shortage of gangsters vying for Konstantine’s crown. The easiest solution to this threat is to send La Strega. Louie Thorne is the nightmare they fear most and it would be nothing for her to kill anyone who stands in Konstantine’s way. Or it would be nothing, if Louie were not seven months pregnant with their child. To send Louie after Stefano now, in her condition, would be to put both their lives at risk. Will Konstantine abandon his friend in order to keep Louie and the baby safe? Or will he break his promise to Louie—and go after Stefano alone... Praise for *Shadows in the Water* [REDACTED] “An amazing book with a unique premise!” [REDACTED] “Dark and suspenseful, *Shadows in the Water* sends tingles down your spine!” [REDACTED] “The main character is a serial killer, but it’s cool. She only kills the bad guys.” [REDACTED] “This book is well done. It grabs you and doesn’t want to let go no matter how tired you are

and need to sleep.” “Something really different in the supernatural/power type of story. I thoroughly enjoyed this book with plenty of suspense, well-drawn characters, and a really unusual premise.” “Such a great book! I can't wait to read the next one!” “Taut, well written, and absorbing!” “One of the best supernatural thrillers.” “I really liked this book.” “From the moment Lou disappears in the bath, I was hooked!”

**B\*U\*F\*F** Lothar Nick Maier, 2002 **B\*U\*F\*F** is a Vietnam era novel written in the vernacular of the B-52 combat crewmembers participating in the Arc Light bombing operations in Southeast Asia. It is the story of one Strategic Air Command B-52 crew that allows the reader to experience the intimate details of modern day conventional weapon bombing.
