Cunard-White Star Liners of the 1930s William H. Miller,2015-11-15 William H. Miller, 'Mr Ocean Liner', looks back at the great ships owned and operated by Cunard-White Star during the 1930s.

Designing Liners Anne Wealleans,2006-09-27 This in-depth history of the interior design of ocean liners surveys the transient history of interior design in relation to the development of passenger shipping, from commissioning by the line owners, methods and sources for the original creation of designs through to its construction, use and influence. It is a short-lived branch of architecture and design, lasting an average of fifteen years. As the design and taste mirrors and reinforces cultural assumptions about national identity, gender, class and race, not only did the interiors of ocean going liners reflect the changing hierarchies of society and shifting patterns in globalization, but the glamour and styling of the liners were reflected back into the design of interiors on land. Combining design history, architecture history, material and visual cultures, *Designing Liners* is a richly multidisciplinary work for those studying or researching this application of interior design.

Titanic and Liverpool Alan Scarth,2009-01-01 If you had been behind the Titanic on that fateful night in 1912, the last word that flashed before your eyes as the great ship was lost to the sea would have been 'Liverpool'. The ship's loss, a national and international tragedy, was also a tragedy for its home port and this fascinating book explores the history and myths surrounding the sinking, highlighting for the first time new and extraordinary stories that link Europe's pre-eminent port and its most famous maritime loss. Using material from the White Star line archives, the extensive holdings of the Merseyside Maritime Museum, new illustrations and a variety of historical sources, Scarth unearths the full back story of key characters and companies: many of her key officers and crew were either from Liverpool or had strong links with the port, the ship's owners were based in the City, many of the most colourful tales emerging from the disaster relate to Liverpool people and here, where appropriate, we find out what happened to them after the sinking. *Titanic and Liverpool* will be compulsory reading for anyone interested in the Titanic and also for anyone hoping to understand Liverpool's role as the great processing port of Europe and gateway to the US and Canada.

Food at Sea Simon Spalding,2014-12-11 *Food at Sea: Shipboard Cuisine from Ancient to Modern Times* traces the preservation, preparation, and consumption of food at sea, over a period of several thousand years, and in a variety of

cultures. The book traces the development of cooking aboard in ancient and medieval times, through the development of seafaring traditions of storing and preparing food on the world's seas and oceans. Following a largely chronological format, Simon Spalding shows how the raw materials, cooking and eating equipments, and methods of preparation of seafarers have both reflected the shoreside practices of their cultures, and differed from them. The economies of whole countries have developed around foods that could survive long trips by sea, and new technologies have evolved to expand the available food choices at sea. Changes in ship construction and propulsion have compelled changes in food at sea, and Spalding's book explores these changes in cargo ships, passenger ships, warships, and other types over the centuries in fascinating depth of detail. Selected passages from songs and poems, quotes from seafarers famous and obscure, and new insights into culinary history all add spice to the tale.

In Ballast to the White Sea Malcolm Lowry, Chris Ackerley, 2014-10-16 This is the first edition of *In Ballast to the White Sea*, the autobiographical novel by Malcolm Lowry, known to most only through the highly romanticized story of its loss in a fire. In fact, the typescript itself has probably been read by at most a dozen people since Lowry scholars learned that it was deposited at the New York Public Library.

The Unsinkable Titanic Allen Gibson, 2012-02-28 Delving deep into Titanic's legacy, Allen Gibson presents a comprehensive history with a refreshing argument, that Titanic represented a considerable achievement in maritime architecture. He determines the true causes of the disaster, telling the story of the 'unsinkable' ship against a backdrop of a tumultuous and rapidly emerging technological world. The book exposes the true interests of the people involved in the operation, regulation and investigation into Titanic, and lays bare the technology so dramatically destroyed. Juxtaposing the duelling worlds of economics and safety, this study rationalises the mindset that wilfully dispatched the world's largest ship out to sea with a deficient supply of lifeboats.

Lone Star Rising Robert Dallek, 1991-08-15 Like other great figures of 20th-century American politics, Lyndon Johnson defies easy understanding. An unrivaled master of vote swapping, back room deals, and election-day skulduggery, he was nevertheless an outspoken New Dealer with a genuine commitment to the poor and the underprivileged. With aides and colleagues he could be overbearing, crude, and vindictive, but at other times shy, sophisticated, and magnanimous. Perhaps columnist Russell Baker said it best: Johnson was a character out of a Russian novel...a storm of warring human instincts: sinner and saint, buffoon and statesman, cynic and sentimentalist. But Johnson was also a representative figure. His career speaks volumes about American politics, foreign policy, and business in the forty years after 1930. As Charles de Gaulle said when he came to JFK's funeral: Kennedy was America's mask, but this man Johnson is the country's real face. In *Lone Star Rising*, Robert Dallek, winner of the prestigious Bancroft Prize for his study of Franklin D. Roosevelt, now turns to this fascinating sinner and saint to offer a brilliant, definitive portrait of a great American politician. Based on seven years of research in over 450 manuscript collections and oral histories, as well as numerous personal interviews, this first book in a two-volume biography follows Johnson's life from his childhood on the banks of the Pedernales to his election as vice-president under Kennedy. We see Johnson, the twenty-three-year-old aide to a pampered millionaire Representative, become a de facto Congressman, and at age twenty-eight the country's best state director of the National Youth Administration. We see Johnson, the human dynamo, first in the House and then in the Senate, whirl his way through sixteen- and eighteen-hour days, talking, urging, demanding, reaching for influence and power, in an uncommonly successful congressional career. Dallek pays full due to Johnson's failings--his obsession with being top dog, his willingness to cut corners, and worse, to get there-- but he

also illuminates Johnson's sheer brilliance as a politician, the high regard in which key members of the New Deal, including FDR, held him, and his genuine concern for minorities and the downtrodden. No president in American history is currently less admired than Lyndon Johnson. Bitter memories of Vietnam have sent Johnson's reputation into free fall, and recent biographies have painted him as a scoundrel who did more harm than good. Lone Star Rising attempts to strike a balance. It does not neglect the tawdry side of Johnson's political career, including much that is revealed for the first time. But it also reminds us that Lyndon Johnson was a man of exceptional vision, who from early in his career worked to bring the South into the mainstream of American economic and political life, to give the disadvantaged a decent chance, and to end racial segregation for the well-being of the nation.
