BattleTech: A Rock and a Hard Place William H. Keith, Jr., 2021-09-21 ALIVE OR DEAD... Just a few months after their universe-shaking campaign on Helm, and the distribution of the Helm Memory Core, all Grayson Carlyle and his Gray Death Legion want is to settle into their new home on Glengarry. But they barely touch down on-planet when a Lyran Commonwealth general contacts the GDL, intent on hiring them to track down and capture Draconis Combine agents behind a daring raid on Lyons. Tracking the Kurita raiders to the Draconis border system of Valdis—better known as Wheel—Grayson and his people have their work cut out for them. The system's main feature is literally a wheel-shaped deep-space station and recharge facility at the Valdis star's zenith jump point. Its structure means a direct assault with BattleMechs will be extremely risky, both because of the tight quarters and the very real danger of an errant shot or missile depressurizing and destroying the entire station. Also, Grayson will be splitting his force, with Lori Kalmar providing a decoy operation on the nearby mining planet Valdis I, otherwise known as Rock, to draw the Combine's attention away from Wheel. It's a high-risk operation on both ends, but Grayson and the GDL have their orders, and they intend to capture the Draconis operatives one way or the other...even if they have to risk destroying the entire space station to do so...

BattleTech Legends: Blood of Heroes Andrew Keith, 2018-11-16 A GREAT HOUSE IN UPHEAVAL... Melissa Steiner's assassination ignited the fires of civil war, and now secessionist factions clamor for rebellion against the Federated Commonwealth. The rebels' plans hinge on gaining control of the Skye March, and thus controlling the crucial Terran Corridor. Throughout the March, civil and military leaders plot to take up arms against Prince Victor Steiner-Davion. The final piece of the plan requires the secessionist forces to gain access to the planet Glengarry and the legendary mercenary group that calls it home: the Gray Death Legion. A HOMEWORLD UNDER SIEGE... When Prince Davion summons Grayson Death Carlyle and his wife, Lori Kalmar-Carlyle, to the Federated Commonwealth capital, the rebel forces seize their chance to establish a garrison on Glengarry. But they didn't expect the legion's newest members to take matters into their own hands...and soon these rebels will learn what countless adversaries across the galaxy have learned...never, but never try to defeat the Gray Death Legion.

BattleTech: Shrapnel, Issue #3 Philip A. Lee, Ed., 2020-12-15 THE DAY THE STAR LEAGUE DIED! Shrapnel: The Official BattleTech Magazine brings you more BattleMech action from the war-torn 31st century and beyond! Celebrate Star League Day with tales of a long-abandoned 'Mech rediscovered and pressed into service, a quest for vengeance in enemy territory, the resurgence of old ghosts, and the threat of bitter betrayal in the face of long odds. Charge headlong into technical readouts, assassin conspiracies, in-depth equipment articles, playable holiday-themed scenarios, and more—all from BattleTech veterans, fan favorites, and new authors: Michael A. Regulated Chemicals Directory 1994 ChemADVISOR Inc. Staff, 2012-12-06 The Regulated Chemicals DirectoryTM is meant to be a convenient source of information for everyone who needs to keep up-to-date regarding the regulations and recommendations that pertain to chemical substances. The RCDTM is designed to be the first reference book to consult when beginning compliance efforts. Every regulatory or advisory list used in the RCDTM is keyed to its source, to help readers who need more detailed information on regulations, recommendations, or guidelines readily locate source documents. Some organizations now center their compliance efforts on computerized information stored in cross-referenced databases. A unique feature of the RCDTM is the availability of an electronic version suitable for use on IBM-compatible personal computers, download onto mainframes and CD-ROM players. Both the print and electronic versions are updated with the same timeliness. For more information on the electronic versions of the Regulated Chemicals DirectoryTM, contact Chapman & Hall directly (One Penn Plaza, New York, NY 10119, fax-212-564-1505). Many companies working on product development need information on what may be regulated in the future. The RCDTM provides selected information on pending regulations and in-progress testing lists, which can provide a starting place for tracking future regulatory considerations. Information for the RCDTM is continually gathered and updated. Suggestions from readers for information that should be added to the RCDTM or for other ways to improve the book are welcomed by Chapman & Hall. - Patricia L. Dsida, Pres. Egyptian Administrative and Private-name Seals, Principally of the Middle Kingdom and Second Intermediate Period Geoffrey Thorndike Martin, 1971 Including many seals published here for the first time, this catalogue is as near as possible a complete catalogue of Egyptian seals, mostly of the Middle Kingdom and Second Intermediate Period, as known in 1971. The seals fall into two main divisions: private-name seals, mostly carved into the form of the sacred scarab beetle, and stamp-seals of government departments and military forts, usually bearing the name of the office concerned. Each catalogue entry

lists the reading, a classification of type, and relevant bibliographic references. Several hundred of the most important designs are illustrated in clear hand-drawn plates.

Papyri Copticae Magicae Korshi Dosoo, Markéta Preininger, 2023-11-06 This volume is the first in a new series of editions of Coptic-language magical manuscripts from Egypt, written on papyrus, ostraca, parchment, and paper, and dating to between the fourth and twelfth centuries CE. Their texts attest to non-institutional rituals intended to bring about changes in the lives of those who used them – heal disease, curse enemies, bring about love or hatred, or see into the future. These manuscripts represent rich sources of information on daily life and lived religion of Egypt in the last centuries of Roman rule and the first centuries after the Arab conquest, giving us glimpses of the hopes and fears of people of this time, their conflicts and problems, and their vision of the human and superhuman worlds. This volume presents 37 new editions and descriptions of manuscripts, focusing on formularies or handbooks, those texts containing instructions for the performance of rituals. Each of these is accompanied by a history of its acquisition, a material description, and presented with facing text and translations, tracings of accompanying images, and explanatory notes to aid in understanding the text.

Redox J. Schüring, H.D. Schulz, W.R. Fischer, J. Böttcher, W.H.M. Duijnisveld, 2013-04-17 Few processes are as important for environmental geochemistry as the interplay between the oxidation and reduction of dissolved and solid species. The knowledge of the redox conditions is most important to predict the geochemical behaviour of a great number of components, the mobilities of which are directly or indirectly controlled by redox processes. The understanding of the chemical mechanisms responsible for the establishment of measurable potentials is the major key for the evaluation and sensitive interpretation of data. This book is suitable for advanced undergraduates as well as for all scientists dealing with the measurement and interpretation of redox conditions in the natural environment.
