**Tea, Automaton, and Time Machines** Misti McCanna-Porter,2024-04-04 Contemporary art must get inspiration from somewhere. In Tea, Automaton, and Time Machines, the subculture of Steampunk art is studied in relation to art

history. Addressing three main topics within social and environmental justice, a comparison of art styles and creativity stems from an artist's passion within popular culture. Using arts-based research methods and personal introspection viewed through the lens of nostalgia, a unique perspective of art history studies comes to life. Nostalgia, being primarily a psychological study, is used as a lens to view art, culture, and memoir into a complete research project. We live in a world in need of change. Historically, artists have provided a means for change through their work and the lives they choose to live. The vastness of art history provides plenty of room for inspiration and interpretation. In this study, the contemporary sub-culture of Steampunk looks nostalgically at Arts and Crafts, Art Nouveau, and Art Deco eras in a way that paves the way for social change and environmental preservation using fantasy, cos-play, and art to demonstrate needed changes. Through the art and culture of Steampunk, we explore areas that could use improvement in our modern world, and yet, they do tie in with similar occurrences of the past. We find that we're not that different but with art and demonstration, we too, can make positive changes for our future.

Rick, dressed as Haruhi's love interest, insists that Mariam spend all her time with him, doing things that their characters like to do and playing out their romance. When he tries to physically force himself on her, Mariam realizes that Rick is taking the game way too seriously, but how can she escape his attention? This novel explores the appealing world of comic books and graphic novels that has growing numbers of young people exploring role playing and attending fan conventions.

No Good Deed Goes Unpunished Eli Maxwell, 2022-11-03 This journal is a few hundred pages of unpopular opinion, I wrote this ball of rage between 2014-2016 and I planned to give to my gender studies professor after I took her class. When I left her class I noticed that there's a lot of misleading information about people that disagree with feminists and feminism, and this book will help demystify some of those notions. I may have written this book for her but I believe it can help others as well. The 1st group of people

that this book will help are people that don't like feminists and feminism you'll agree with almost everything I have to say, trust me you're not alone. This book is full of red pills you're going to love it. The 2nd group of people are people that are on the fence about feminists. Yeah, feminists may have told you the dictionary definition of feminism, and you might have heard some things about the feminist movement but you're still not quite sure what to make of them. I think you will gain the most from what I went through. I will show you the tactics some feminists use to get what they want. These are all things you should know before you engage with any feminist. The 3rd group of people are the people that don't understand why so many people have such hard opinions on feminism and feminists. Hopefully this book will help you understand where the first group of people are coming from. I use jokes, satire and personal experiences to bring levity to this hot topic issue. I don't want to tell you what to think. I want to show you what I went through so you can make up your own mind, and even if you disagree with me I hope you enjoy the ride. Now onto the 4th group, these are the feminists that are vexed and can't figure out why so many people dislike feminism and why feminists can't crack 18 percent of the population. I think you will benefit the most from what I have to say. I'm not going to berate you or attack you I'm just going to make my claims on why I disagree with your dogmatic ideology and hopefully you can respect that. I really want you to understand where I'm coming from and maybe we can build a bridge from there. Now on to the big mama of them all the 5th group, if you are the type of feminist that believes everything is sexist and everything is racist and every man is a misogynist. Put this book down, you are going to have a bad time. I deconstruct almost everything you believe in with ruthless and logical precision and I know for a fact that this book is going to trigger you into oblivion. Hell, you might even do something crazy, like set this book on fire and I don't want to see my book set a blaze. So save your money save your time and continue to smash the patriarchy. But to the other 4 out of 5 of you crack open a beer or pour a glass of wine and enjoy my descent into madness.
