God Gave Me Everything I Need to Be Me! Karen Henneck, 2021-04-08 God created animals with everything they needed. To be content and succeed, He designed homes perfectly suited to each one. However, the animals were unhappy with the places that God had made for them and eventually gave into the insecurities and fears they all felt. Owl was frightened of the dark, Mountain Goat became faint-hearted as he looked down from the narrow mountain ledge. Duck panicked every time she neared the water. Camel detested the hot, dry wind and Penguin hated the icy cold. Through whimsical illustrations and creative prose, "God Gave Me Everything I Need To Be Me!" encourages self acceptance, individuality and appreciation as the animals finally realize God had given them exactly what each one required to make them complete.

In Slocum's Wake Nat Warren-White, 2022-01-26 IN SLOCUM'S WAKE, written for sailors and non-sailors alike, is an autobiographical tale of a hard-won circumnavigation aboard a 43-foot cutter. This story will entice, entrance and inspire the reader whether you intend to embark on your own voyage or just enjoy a good adventure saga. With a primary focus on the remarkable people and places encountered during nearly five years at sea, IN SLOCUM'S WAKE also offers those who are planning their own long-distance off-shore exploit invaluable advice and data about best routes, strategies, stops, services and tricks of the trade. If you have always dreamed of undertaking such a journey, IN SLOCUM'S WAKE will either help you summon the courage to actually take the leap or convince you it's really not worth the risk or trouble you will surely encounter along the watery way. It's impossible to sail around the world without facing some of the most challenging experiences of your life. On the flip side, you will also surely discover the most sublime and exhilarating moments and memories guaranteed to stay with you for the rest of your earthbound days. Nat Warren-White's five-year journey follows many of the same passages and roughly traces much of the route followed by Joshua Slocum who, in the late 1800s, became the first person to sail alone around the world. IN SLOCUM'S WAKE compares the challenges Warren-White faced aboard his South African-built sloop, BAHATI, with those faced by Slocum aboard his 37-foot Chesapeake Bay oyster-fishing vessel, SPRAY . The two boats are similar in design and capability though built more than 100 years apart, one in wood, the other in fiberglass. The two captains are similar in background and stature, though born almost 100 years apart. To both men, navigating the world's oceans came from a similar motivation: ...a natural outcome of [a] love of adventure, [and] of [our] lifelong experience in, on and around the sea.

Evaluating Learning Algorithms Nathalie Japkowicz, Mohak Shah, 2011-01-17 The field of machine learning has matured to the point where many sophisticated learning approaches can be applied to practical applications. Thus it is of critical importance that researchers have the proper tools to evaluate learning approaches and understand the underlying issues. This book examines various aspects of the evaluation process with an emphasis on classification algorithms. The authors describe several techniques for classifier performance assessment, error estimation and resampling, obtaining statistical significance as well as selecting appropriate domains for evaluation. They also present a unified evaluation framework and highlight how different components of evaluation are both significantly interrelated and interdependent. The techniques presented in the book are illustrated using R and WEKA, facilitating better practical insight as well as implementation. Aimed at researchers in the theory and applications of machine learning, this book offers a solid basis for conducting performance evaluations of algorithms in practical settings.
