Freight Train Donald Crews, 2011-08-23 In simple, powerful words and vibrant illustrations, Donald Crews evokes the rolling wheels of that childhood favorite: a train. This Caldecott Honor Book features bright colors and bold shapes. Even a child not lucky enough to have counted freight cars will feel he or she has watched a freight train passing after reading *Freight Train*. Donald Crews used childhood memories of trains seen during his travels to his grandparents' farm in the American South as the inspiration for this timeless favorite. New York magazine's *The Strategist* chose *Freight Train* as one of the Best (Nonobvious) Baby Books to Bring to a Shower. As *The Strategist* stated: The Caldecott Honor Book is spare and minimal in both art and text and follows the journey of a freight train and all its cars until it rolls off the page and into the distance. It's a good way to learn all the different names of train cars, too. Red caboose at the back, orange tank car, green cattle car, purple box car, black tender and a black steam engine . . . freight train.

Catch Me, Catch Me!, 1990 Thomas the tank engine has a race with another train, one pulled by an engine larger than he is.

Down in the Subway Miriam Cohen, 2003 Oscar was hot and bored

Nineteen Eighty-Four George Orwell, 2021-01-09 *Nineteen Eighty-Four: A Novel*, often published as 1984, is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, *Nineteen Eighty-Four* centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a

forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

The Caboose who Got Loose Bill Peet, 1980-02 Tired of being last on the smoky, noisy train, Katy wishes for some way to escape the endless track.
