Beings of Light - We are All ONE Layne Layton, 2009-04-02 This is the story of Jonathan Smith, an average guy, who spent the majority of his life trying to find purpose and reason. The only real quest he had was for truth. He wanted more than anything to know who he really was, where he came from, and what would happen to him when he died. Jonathan had all but abandoned any hope of knowing such things when, through an unexplained occurrence, he found himself outside of time and space in a Realm of Thought and Light. Through his experience, Jonathan came to understand who he was. He once again was brought back into the knowledge of all the things he had forgotten. He saw and experienced the Entities of Light, the Beings of Light, the Light World, the World of Matter, the Entities of Self and so on. He learned the nature of good and evil and he came to understand why things appear the way they do. Jonathan, knowing he could stay in the World of Light, came back to share his story with us, that we might remember who and what we are.--Please visit www.laynelayton.com

The Word of Light Shlomo Giora Shoham, 2008-12-18 One of the fundamental enigmas of our existence, and for that matter, God's existence, is the act of creation. Has the cosmos been created ex nihilo or was it an intelligent design by God? Does God, having created the world, let it evolve and develop on its own, subject to the rules of evolution and chance; or does God intervene in every step of evolution in a deus ex machina manner? What is the role of man in creation? Is it as central as existentialism and quantum mechanics assure us: that without human consciousness interacting with energy-matter, there would not be any objects and life forms? Is man the crown of creation permanently, or once evolution forms a more effective connecting agent between spirit and energy-matter, will man be relegated to the world of fossils? The book concludes with a thorough examination of human norms, values and morals. As such, this book constitutes a comprehensive treatise on the genesis of the world, the birth of God, and the role of man.

Return of the Children of Light Judith Bluestone Polich, 2001-08-01 A personal exploration of the conjunction between ancient Mesoamerican prophesy and New Age higher consciousness. • Selected by the Independent Publisher's Book Awards as one of the top two New Age books of the year. • Explores ancient prophecies and their relevance in the contemporary world. The Incan and Mayan cultures saw themselves as "children of light"--descended from celestial realms--and their prophecies foretell a time of great spiritual awakening. They prophesied a time when the gateways to higher consciousness would open once again. That time is now. Award-winning author Judith Bluestone Polich draws on her extensive research in quantum physics, archaeoastronomy, holography, cosmology, and pioneering studies of human consciousness to show how science and contemporary thought are consistent with this ancient knowledge. As the ancients predicted, the human god-seed is beginning to awaken, and modern civilization is finally beginning to perceive human potential in ways that the ancient cultures accepted as truth. Polich introduces techniques for awakening our own human potential through dreaming, meditations, and the power of sacred sites.

Half of the World in Light Juan Felipe Herrera, 2008-01-01 Includes an audio CD of the author reading! For nearly four decades, Juan Felipe Herrera has documented his experience as a Chicano in the United States and Latin America through stunning, memorable poetry that is both personal and universal in its impact, themes, and approach. Often political, never fainthearted, his career has been marked by tremendous virtuosity and a unique sensibility for uncovering the unknown and the unexpected. Through a variety of stages and transformations, Herrera has evolved more than almost any other Chicano poet, always re-inventing himself into a more mature and seasoned voice. Now, in this unprecedented collection, we encounter the trajectory of this highly innovative and original writer, bringing the full scope of his singular vision into view. Beginning with early material from *A Certain Man* and moving through thirteen of his collections into new, previously unpublished work,

this assemblage also includes an audio CD of the author reading twenty-four selected poems aloud. Serious scholars and readers alike will now have available to them a representative set of glimpses into his production as well as his origins and personal development. The ultimate value of bringing together such a collection, however, is that it will allow us to better understand and appreciate the complexity of what this major American poet is all about.

The Magical Worlds of Philip Pullman David Colbert,2006-04-04 Philip Pullman's epic fantasy series—His Dark Materials—chronicling the adventures of Lyra Silvertrout, her shapeshifting daemon Pantalaimon, and Will Parry on their multi-dimensional odyssey to save all of reality from the mysterious substance known as Dust, has captivated young and old readers alike. What makes Lyra a "Little Girl Lost"? What made Pullman think of Daemons? How was Pullman's idea of Dust shaped by his life? Did Pullman write the books as a response to C.S. Lewis's Narnia? The Magical Worlds of Philip Pullman takes his fans on a journey through the worlds of art, science, and religion that inspired Pullman to craft his saga. From the philosophy of William Blake and John Milton's classic poem Paradise Lost to quantum physics and the Bible, discover the complex origins and controversial themes that have made Pullman's trilogy a modern marvel in literature. St. Mary Magdalene Tau Malachi,2006 The first written account of a Sophian Gospel of Mary

The Aesthetic Imperative Peter Sloterdijk,2018-03-15 In this wide-ranging book, renowned philosopher and cultural theorist Peter Sloterdijk examines art in all its rich and varied forms: from music to architecture, light to movement, and design to typography. Moving between the visible and the invisible, the audible and the inaudible, his analyses span the centuries, from ancient civilizations to contemporary Hollywood. With great verve and insight he considers the key issues that have faced thinkers from Aristotle to Adorno, looking at art in its relation to ethics, metaphysics, society, politics, anthropology and the subject. Sloterdijk explores a variety of topics, from the Greco-Roman invention of postcards to the rise of the capitalist art market, from the black boxes and white cubes of modernism to the growth of museums and memorial culture. In doing so, he extends his characteristic method of defamiliarization to transform the way we look at works of art and artistic movements. His bold and original approach leads us away from the well-trodden paths of conventional art history to develop a theory of aesthetics which rejects strict categorization, emphasizing instead the crucial importance of individual subjectivity as a counter to the latent dangers of collective culture. This sustained reflection, at once playful, serious and provocative, goes to the very heart of Sloterdijk's enduring philosophical preoccupation with the aesthetic. It will be essential reading for students and scholars of philosophy and aesthetics and will appeal to anyone interested in culture and the arts more generally.

The Nusayrī-ʿAlawī Religion Meir M. Bar-Asher,Aryeh Kofsky,2021-08-04 The Nusayrīs - also known as ʿAlawīs -have been in power in Syria for the past three decades. Little is known of their origins or their long history, while their religious creeds and thought are somewhat better known. The main reason for our fragmentary knowledge of the Nusayrī religion is that, since its beginnings, it has always been the secret faith of a self-conscious elite that zealously guarded its sectarian literature. The Nusayrī-ʿAlawī faith is a clear example of a syncretistic religion. It combines and fuses elements of cults and creeds of very disparate, and remote, origins. Among these are various pagan beliefs (residues of ancient Mesopotamian and Syrian cults), as well as Persian, Christian, Gnostic, and Muslim - both Sunnī and Shīʿī - religious precepts and practices. All these components have been brought together in a syncretistic religious system that has assumed a heterodox Shīʿī garb. The present volume presents a mosaic of fundamental aspects of Nusayrī theology and liturgy. It demonstrates the complexity of Nusayrī theology and the diversity of religious thought within the

Nusayrī fold.

The Lost World of Genesis One John H. Walton, 2010-07-21 In this astute mix of cultural critique and biblical studies, John H. Walton presents and defends twenty propositions supporting a literary and theological understanding of Genesis 1 within the context of the ancient Near Eastern world and unpacks its implications for our modern scientific understanding of origins. Ideal for students, professors, pastors and lay readers with an interest in the intelligent design controversy and creation-evolution debates, Walton's thoughtful analysis unpacks seldom appreciated aspects of the biblical text and sets Bible-believing scientists free to investigate the question of origins. The books in the Lost World Series follow the pattern set by Bible scholar John H. Walton, bringing a fresh, close reading of the Hebrew text and knowledge of ancient Near Eastern literature to an accessible discussion of the biblical topic at hand using a series of logic-based propositions.

World Light Halldor Laxness, 2007-12-18 A magnificently humane novel from the acclaimed Icelandic Nobel Prize winner: as an unloved foster child on a farm in rural Iceland, Olaf Karason has only one consolation, the belief that one day he will be a great poet. The indifference and contempt of most of the people around him only reinforces his sense of destiny, for in Iceland poets are as likely to be scorned as they are to be revered. Over the ensuing years, Olaf comes to lead the paradigmatic poet's life of poverty, loneliness, ruinous love affairs and sexual scandal. But he will never attain anything like greatness. As imagined by Nobel Prize winner Halldor Laxness in this extraordinary novel, what might be cruel farce achieves pathos and genuine exaltation. For as Olaf's ambition drives him onward—and into the orbits of an unstable spiritualist, a shady entrepreneur, and several susceptible women—*World Light* demonstrates how the creative spirit can survive in even the most crushing environment and even the most unpromising human vessel.
