Wrapping with Fabric Etsuko Yamada,2014-10-14 Wrap anything from a wine bottle to a yoga mat with this practical Japanese fabric-wrapping book. Long before today's eco-friendly philosophy of reduce, reuse, recycle entered America's collective consciousness, furoshiki--the Japanese method of wrapping things with fabric--flourished as a time-honored and practical art form. In *Wrapping With Fabric*, Etsuko Yamada--born into a long-line of furoshiki makers in Kyoto--explains the one cloth, many uses ideology behind the craft, the etiquette of color and the craft's fascinating history. From there, she shares the myriad ways in which a few basic techniques can transform a simple square of cloth into an elegant wrapper. Use your folded fabrics to: Gift-wrap anything from books to flowers Bundle up a picnic Tote items around Use as a handbag or backpack Make into a pillow covering Create decorative coverings for vases, tissue boxes, and more A quiet reminder that opportunities for artistry are everywhere around you, *Wrapping With Fabric* is the craft book that makes it easy to bring a touch of grace and ingenuity to everyday life--and help preserve the environment, too.

Wrapping Culture Joy Hendry,1993 *Wrapping Culture* examines problems of intercultural communication and the possibilities for misinterpretation of the familiar in an unfamiliar context. Starting with an examination of Japanese gift-wrapping, Joy Hendry demonstrates how our expectations are often influenced by cultural factors which may blind us to an appreciation of underlying intent.

She extends this approach to the study of polite language as the wrapping of thoughts and intentions, garments as body wrappings, constructions and gardens as wrapping of space. Hendry shows how this extends even to the ways in which people may be wrapped in seating arrangements, or meetings and drinking customs may be constrained by temporal versions of wrapping. Throughout the book, Hendry considers ways in which groups of people use such symbolic forms to impress and manipulate one another, and points out a Western tendency to underestimate such nonverbal communication, or reject it as mere decoration. She presents ideas that should be valid in any intercultural encounter and demonstrates that Japanese culture, so often thought of as a special case, can supply a model through which we can formulate general theories about human behavior.

Using examples as diverse as baby swaddling, Egyptian mummies, Celtic tombs, lace underwear, textile clothing, and contemporary African silk, the dozen archaeologist and anthropologist contributors show how acts of wrapping and unwrapping are embedded in beliefs and thoughts of a particular time and place. Employing methods of artifact analysis, microscopy, and participant observation, the contributors provide a new lens on material culture and its relationship to cultural meaning.
